

NOTICE OF INTENT

**Department of Revenue
Policy Services Division**

Corporation Income Tax (LAC 61:I.1115-1189)

Under the authority of R.S. 47:287.2-287.785 and R.S. 47:1511 and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the Department of Revenue, Policy Services Division, proposes to repromulgate LAC 61:I.1115-1189.

Louisiana Administrative Code 61:I.1115-1189 are being repromulgated to reaffirm the Secretary of Revenue's rulemaking authority. In *Collector of Revenue v. Mossler Acceptance Co.*, 139 So.2d 263 (La.App. 1st Cir. 1962), the First Circuit held that regulations defining the terms used in the tax statutes went beyond the secretary's authority in R.S. 47:1511 to promulgate rules regarding "the proper administration and enforcement" of the tax statutes. Since the Mossler decision, R.S. 47:1511 was amended removing the language that the First Circuit determined was a limitation on the secretary's rulemaking authority. Although no taxpayer has relied on Mossler to refute the secretary's rulemaking authority, repromulgation of Sections 1115-1189 will reaffirm the secretary's authority.

Title 61

REVENUE AND TAXATION

Part I. Taxes Collected and Administered by the Secretary of Revenue

Chapter 11. Income: Corporation Income Tax

§1115. Modifications to Deductions from Gross Income Allowed by Federal Law

A. Dividends Received by a Corporation. R.S. 47:287.73(C)(1) allows a deduction for dividends received by one corporation from another to the extent that the income from which the dividends are paid has been earned from Louisiana sources and has borne Louisiana income tax. The amount of the income from which the dividends are paid that has borne Louisiana income tax shall be determined by relating the Louisiana net taxable income to the total book net income of the declaring corporation, less adjustments.

B. Example. During the calendar year 1986, ABC Inc., a Louisiana corporation, derived a total Louisiana net taxable income of \$10,000 and \$10,000 of net income from Texas. The depreciation expense deducted on the tax return exceeds depreciation expense deducted on the books by \$10,000. The depletion expense deducted on the tax return exceeds depletion expense deducted on the books by \$10,000 which is a noncompensating difference. The total net income determined from the books of the corporation is \$60,000. The book income includes \$20,000 of interest on U.S. obligations that is not included in taxable income. On January 7, 1987, the corporation paid a dividend of \$30,000. The allowable deduction to recipient corporations is computed as follows:

Items	Per Books	Per Louisiana Income Tax Return
Net Income	\$60,000	\$10,000
Less: Excess of tax depreciation over book depreciation	\$10,000	
Adjusted Net Income	\$50,000	\$10,000
Ratio		20%
Dividend Paid		\$30,000
Allowable Deduction		\$6,000

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.73.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:95 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1122. Taxes Not Deductible

A. General. R.S. 47:287.83 provides that federal income tax levied on net income upon which no Louisiana income tax has been incurred, or upon which, for any reason whatsoever, no Louisiana income tax will be paid, is not deductible.

B. Federal Alternative Minimum Tax

1. Federal alternative minimum tax attributable to tax preferred items such as, but not limited to, accelerated depreciation, depletion, and intangible drilling and development cost, is not deductible. The nondeductible portion of federal alternative minimum tax after credits is the excess of the total federal alternative minimum tax after credits over the deductible portion of federal alternative minimum tax attributed to Louisiana net income.

2. Federal alternative minimum tax on federal alternative minimum taxable net income from sources other than tax preferred items is deductible to the extent the alternative minimum taxable net income is taxed by Louisiana. The deductible portion of federal alternative minimum tax attributable to Louisiana apportionable and allocable net income, which is taxed at alternative minimum taxable income rates, is the result obtained by multiplying the federal alternative minimum tax after credits by a fraction, the numerator of which is Louisiana apportionable and allocable net income which is taxed at alternative minimum taxable net income rates and the denominator of which is the excess of federal alternative minimum taxable income over regular federal taxable income. The determination of the amount of deductible and nondeductible federal alternative minimum tax is illustrated by the following example.

C. Example. The ABC Corporation earns 100 percent of its net income in Louisiana. The ABC Corporation is on a fiscal year beginning July 1, 1987 and ending June 30, 1988. ABC's regular federal taxable income for fiscal year ending June 30, 1988, was \$200,000 and regular federal income tax was \$56,250. Book net income before federal income tax was \$450,000. Of the total difference between book and tax net income, \$150,000 was due to the tax preferred item, excess tax depreciation expense over book depreciation expense, and \$100,000 was due to interest income earned on municipal bonds exempt from regular federal income tax, but not from Louisiana income tax. Louisiana apportionable and allocable net income before the federal income tax deduction is \$300,000.

REVENUE AND TAXATION

Computation of Alternative Minimum Taxable Income	
1. Regular federal taxable income	200,000
2. Income from tax preferenced items (excess tax depreciation over book depreciation expense)	150,000
3. Book income adjustment (interest on municipal bonds issued by a state or its political subdivisions other than Louisiana: 100,000 multiplied by 50%)	
4. Alternative minimum taxable income (AMTI, the sum of lines 1, 2 and 3)	<u>400,000</u>

Computation of Alternative Minimum Tax	
5. Alternative minimum taxable income (ATMI from line 4)	\$ 400,000
6. Less exemption	\$ -0-
7. AMTI after exemption	\$ 400,000
8. Federal alternative minimum tax rate	\$ 20%
9. Tentative alternative minimum tax rate (line 7 multiplied by line 8)	\$ 80,000
10. Less credits	\$ -0-
11. Less regular federal income tax (after credits)	\$ 56,250
12. Alternative minimum tax (AMT line 9 minus line 11)	<u>\$ 23,750</u>

Computation of Alternative Minimum Tax Attributable to Louisiana Net Income Which is Taxed at AMTI Rates	
13. Louisiana allocable and apportionable net income	\$ 300,000
14. Less:	
a. Louisiana net income which is taxed at federal ordinary and alternative capital gain tax rates \$200,000	
b. Louisiana net income which is not taxed by federal (interest on municipal bonds \$100,000 multiplied by 50%) \$50,000	\$ 250,000
15. Louisiana net income which is taxed at AMTI rates (line 13 minus line 14)	\$ 50,000

16. Excess of AMTI over regular federal taxable income (\$400,000 minus \$200,000)	\$ 200,000
17. Ratio (Louisiana net income which is taxed at AMTI rates over the excess of AMTI over regular federal taxable income, line 15 divided by line 16)	\$ 25%
18. AMT (from line 12)	\$ 23,750
19. AMT deductible (the amount attributable to Louisiana net income which is taxed at AMTI rates, line 18 multiplied by line 17)	\$ 5,938
20. AMT not deductible (line 18 minus line 19)	<u>\$ 17,812</u>

D. Net Operating Loss Carryback. Federal income tax deducted from Louisiana net income in taxable periods to which a net operating loss is carried back shall be computed to determine the amount of federal income tax attributable to net income which is taxed by the federal but which is not taxed by Louisiana as a result of a net operating loss carryback. Federal income tax attributable to net income which is not taxed by Louisiana as a result of a net operating loss carryback is the excess of allowable federal income tax deducted from Louisiana net income before the net operating loss carryback over the allowable deduction after the net operating loss carryback. The federal income tax attributable to net income which is not taxed by Louisiana shall be treated as a reduction to the net operating loss deduction. If the amount of the federal income tax attributable to the net income which is not taxed by Louisiana exceeds the Louisiana net operating loss deduction, such excess shall be treated as income in the year of the transaction that gave rise to the excess. These principles are illustrated in the following examples.

E. Examples:

Example 1

The ABC Corporation does not include its net income in a consolidated federal income return as provided by Section 1501 of the *Internal Revenue Code*. ABC files state and federal income tax returns on a calendar year basis. ABC Corporation's net income and other financial information used to file state and federal income tax returns for the four-year period ending December 31, 1987, include the following.

Taxable Periods	1984	1985	1986	1987
Federal net income or (loss)	\$ 2,000,000	\$ 4,000,000	\$ 5,000,000	\$ 600,000
Louisiana net income or (loss)	1,200,000	1,800,000	3,000,000	(1,000,000)
Federal income tax	800,000	1,600,000	2,000,000	240,000
Federal income tax deducted from Louisiana net income	467,280	706,240	1,171,200	-0-
State income tax deducted from federal net income but not Louisiana net income	57,500	86,000	144,000	-0-
Income tax apportionment ratio	55%	40%	50%	50%
Louisiana taxable income	732,720	1,093,760	1,828,800	-0-

ABC Corporation elects to carry their 1987 Louisiana net operating loss back to 1984 pursuant to R.S. 47:287.86. Federal income tax attributable to net income which is not taxed by Louisiana as a result of the net operating loss carryback is computed as follows.

1. Louisiana net income, 1984	\$ 1,200,000
2. Less: State income tax deduction allowed by the federal but not Louisiana	\$57,500
Multiplied by the income tax apportionment ratio	55%
Balance	\$31,625
Louisiana net operating loss, 1987	\$1,000,000
Adjustment	\$ 1,031,625
3. Louisiana net income after deducting the net operating loss carryback (line 1 minus line 2)	\$ 168,375
4. Federal net income, 1984	\$ 2,000,000
5. Ratio (line 3 divided by line 4)	8.4188%
6. Federal income tax, 1984	\$ 800,000
7. Allowable federal income tax deduction after the Louisiana net operating loss carryback (line 6 multiplied by line 5)	\$ 67,350
8. Federal income tax deducted from Louisiana net income before the net operating loss carryback	\$ 467,280
9. Federal income tax attributable to net income which is not taxed by Louisiana (line 8 minus line 7)	\$ 399,930

10. Louisiana net operating loss before deduction for federal income tax attributable to net income which is not taxed by Louisiana		\$ 1,000,000
11. Federal income tax attributable to net income which is not taxed by Louisiana (from line 9)	\$ 399,930	
12. Louisiana net operating loss after deduction for federal income tax attributable to net income which is not taxed by Louisiana (line 10 minus line 11)		\$ 600,070

Example 2

Assume the same facts in Example 1 except that the ABC Corporation sustained a \$2,000,000 federal net operating loss in 1987 and elects to carry the federal loss back to 1984. Federal income tax after the net operating loss carryback is zero.

1. Louisiana net income, 1984		\$ 1,200,000
2. Less: State income tax deduction allowed by the federal but not Louisiana	\$57,500	
Multiplied by the income tax apportionment ratio	55%	
Balance	\$31,625	
Louisiana net operating loss, 1987	\$1,000,000	
Adjustment		\$ 1,031,625
3. Louisiana net income after deducting the net operating loss carryback (line 1 minus line 2)		\$ 168,375
4. Federal net income, 1984		\$ 2,000,000
5. Federal net operating loss carryback from 1987		\$ (2,000,000)
6. Federal net income after federal net operating loss carryback from 1987 (line 4 minus line 5)		-0-
7. Ratio (line 3 divided by line 6)		-0-
8. Federal income tax after the federal net operating loss carryback		-0-
9. Allowable federal income tax deduction after the net operating loss carryback (line 8 multiplied by line 7)		-0-
10. Federal income tax deducted from Louisiana net income before the net operating loss carryback		\$ 467,280
11. Federal income tax attributable to net income which is not taxed by Louisiana (line 10 minus line 9)		\$ 467,280
12. Louisiana net operating loss before deduction for federal income tax attributable to net income which is not taxed by Louisiana		\$ 1,000,000
13. Federal income tax attributable to net income which is not taxed by Louisiana (from line 11)		\$ 467,280
14. Louisiana net operating loss after deduction for federal income tax attributable to net income which is not taxed by Louisiana (line 12 minus line 13)		\$ 532,720

Example 3

Assume the same facts in Examples 1 and 2 except that the Louisiana and federal net operating losses in 1987 are \$350,000 and \$1,800,000 respectively. Federal income tax after the net operating loss carryback is \$80,000.

1. Louisiana net income, 1984		\$ 1,200,000
2. Less: State income tax deduction allowed by the federal but not Louisiana	\$57,500	
Multiplied by the income tax apportionment ratio	55%	
Balance	\$31,625	
Louisiana net operating loss, 1987	\$350,000	
Adjustment		\$ 381,625
3. Louisiana net income after deducting the net operating loss carryback (line 1 minus line 2)		\$ 818,375
4. Federal net income, 1984		\$ 2,000,000
5. Federal net operating loss carryback from 1987		\$ (1,800,000)
6. Federal net income after federal net operating loss carryback from 1987 (line 4 minus line 5)		\$ 200,000
7. Ratio (line 3 divided by line 6)		100%
8. Federal income tax after the federal net operating loss carryback		\$ 80,000
9. Allowable federal income tax deduction after the net operating loss carryback (line 8 times line 7)		\$ 80,000
10. Federal income tax deducted from Louisiana net income before the net operating loss carryback		\$ 467,280
11. Federal income tax attributable to net income which is not taxed by Louisiana, 1984 (line 10 minus line 9)		\$ 387,280
12. Louisiana net operating loss before deduction for federal income tax attributable to net income which is not taxed by Louisiana		\$ 350,000
13. Federal income tax attributable to net income which is not taxed by Louisiana (from line 11)		\$ 387,280
14. Louisiana net operating loss after deduction for the amount of federal income tax attributable to net income which is not taxed by Louisiana (line 12 minus line 13)		-0-
15. Additional Louisiana taxable income for 1987 due to excess of federal income tax attributable to net income which is not taxed by Louisiana over the Louisiana net operating loss (line 13 minus line 12)		\$ 37,280

F. Definitions. For the purposes of this Section, alternative minimum tax, regular federal income tax, alternative tax on capital gains, and regular tax on ordinary net income are defined as provided in §1123.F.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.83.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:96 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1123. Federal Income Tax Deduction

A. General. R.S. 47:287.85(C) permits corporations to claim as a deduction in computing net income that portion of the federal income tax levied with respect to the Louisiana net income, which is applicable to the year for which the Louisiana return is filed, regardless of the method of accounting utilized (cash, accrual, etc.). For determination of the deductible amount of federal alternative minimum tax

REVENUE AND TAXATION

attributable to Louisiana net income, refer to §1122. When a corporation includes its net income in a consolidated federal income tax return, total federal income tax for the purpose of this Section shall be the amount determined pursuant to §1123.E.

B. Computations. The deductible portion of the federal income tax, the tax attributable to Louisiana income, is the sum of the amounts determined in §1123.B.1 and 2.

1. The deductible portion of federal income tax attributable to Louisiana apportionable and allocable net income which is taxed at alternative capital gain rates is the result obtained by multiplying the federal income tax which is calculated at alternative capital gain rates by a fraction, the numerator of which is Louisiana apportionable and allocable net income which is taxed at alternative capital gain rates and the denominator of which is federal net income which is taxed at alternative capital gain rates.

2. The deductible portion of federal income tax attributable to Louisiana apportionable and allocable net income, less adjustment for the net operating loss deduction if applicable, which is taxed at ordinary rates, is the result obtained by multiplying the federal income tax which is calculated at ordinary rates by a fraction, the numerator of which is Louisiana apportionable and allocable net income, less adjustment for the net operating loss deduction if applicable, which is taxed at ordinary rates and the denominator of which is federal net income which is taxed at ordinary rates.

C. Numerator. The numerator to be used in §1123.B shall be determined as set forth in §1123.C.1 and 2.

1. The numerator in the case of Louisiana net income which is taxed by federal at alternative capital gain rates is the sum of:

a. the amount of net apportionable and net allocable income, subject to tax at alternative capital gain rates for federal income tax purposes, apportioned and allocated to Louisiana;

b. any compensating item of income attributable to Louisiana and which is taxed by federal at alternative capital gain rates but which is not taxed by Louisiana; and

c. any compensating loss item of income, of a character which would be allowable by federal in arriving at income which is taxed at alternative capital gain rates, attributed to and allowed by Louisiana but not allowed by federal, reduced by the sum of:

d. any compensating item of income, of a character which would be subject to tax by federal at alternative capital gain rates, attributed to and taxed by Louisiana but which is not taxed by federal;

e. any compensating loss item of income attributable to Louisiana and allowed by federal in arriving at income which is taxed at alternative capital gain rates but not allowed by Louisiana; and

f. any excess of the sum of:

i. any noncompensating loss item of income attributable to Louisiana and allowed by federal in arriving at income which is taxed at alternative capital gain rates, but not allowed by Louisiana; and

ii. any noncompensating item of income, of a character which would be subject to tax by federal at alternative capital gain rates, attributed to and taxed by Louisiana but which is not taxed by federal; over

iii. any noncompensating loss item of income, of a character which would be allowable in arriving at income which is taxed at alternative capital gain rates by federal, attributed to and allowed by Louisiana but not allowed by federal.

2. The numerator in the case of Louisiana net income which is taxed by federal at ordinary rates is the sum of:

a. the amount of net apportionable and net allocable income, less adjustment for the net operating loss deduction if applicable, subject to tax at ordinary rates for federal income tax purposes, apportioned and allocated to Louisiana;

b. any compensating item of gross income attributable to Louisiana and taxed by federal at ordinary rates but which is not taxed by Louisiana; and

c. any compensating item of deduction, of a character which would be allowable by federal in arriving at income which is taxed at ordinary rates, attributed to and allowed by Louisiana but not allowed by federal, and not attributable to any item of gross income taxable by Louisiana but not by federal; reduced by the sum of:

d. any compensating item of gross income, which would be subject to tax by federal at ordinary rates, attributed to and taxed by Louisiana but which is not taxed by federal;

e. any compensating item of deduction attributable to Louisiana and allowed by federal in arriving at income which is taxed at ordinary rates but not allowed by Louisiana;

f. any excess of the sum of:

i. any noncompensating item of deduction attributable to Louisiana and allowed by federal in arriving at income which is taxed at ordinary rates, but not allowed by Louisiana, and not attributable to any item of gross income taxable by federal but not by Louisiana; and

ii. any noncompensating item of gross income, of a character which would be subject to tax at ordinary rates, attributed to and taxed by Louisiana but which is not taxed by federal; over

iii. any noncompensating item of deduction, which would be allowable by federal in arriving at income which is taxed at ordinary rates, attributed to and allowed by Louisiana but not allowed by federal, and not attributable to any item of gross income taxable by Louisiana but which is not by federal.

D. Example. The following example illustrates these principles. Facts: The income reported and deductions claimed by ABC, Inc., a Delaware corporation having its commercial domicile in Louisiana and having several places of business outside this state, are reflected below. The difference between the federal depreciation deduction and the depreciation deducted in arriving at total net income is a compensating item. One-half of the total royalty income, depletion, and other expenses related thereto are attributable to a Louisiana oil property. There are \$15,000 in expenses attributable to the royalty income in addition to the depletion deduction. The portion of net income from royalties allocable to Louisiana is \$25,000. Of the total profit from the sale of capital assets, \$25,000 is allocable to Louisiana.

Items	----- RETURNS -----	
	Federal	Louisiana
Income		
Gross profit from sales	\$ 1,400,000	\$ 1,400,000
Royalties	100,000	100,000
Interest—Bond, State of Mississippi	-0-	5,000
Interest—Bond, U.S. Government	5,000	-0-
Long-term gain from sale of capital assets	100,000	100,000
Total Income	\$ <u>1,605,000</u>	\$ <u>1,605,000</u>
Deductions		
Louisiana income tax	10,000	-0-
Officers' compensation	50,000	50,000
Repairs	10,000	10,000
Interest	15,000	15,000
Bad debts	5,000	5,000
Depletion	27,500	35,000
Depreciation	25,000	35,000
Contributions	5,000	5,000
Other deductions	350,000	350,000
Total deductions	\$ <u>497,500</u>	\$ <u>505,000</u>
Net Income	\$ <u>1,107,500</u>	\$ <u>1,100,000</u>
Federal income tax—		
Ordinary income	\$518,400	
Capital gains	25,000	
Total	<u>\$543,400</u>	

1. The taxpayer files on the apportionment basis and the following computation discloses the net allocable and net apportionable income derived from Louisiana sources.

Total net income		\$ 1,100,000
Deduct allocable income		
Profit from sale of capital assets	\$ 100,000	
Interest—Bonds, State of Mississippi	5,000	
Net royalty income	50,000	\$ <u>155,000</u>
Net income for apportionment		\$ <u>945,000</u>
Net income apportioned to Louisiana (20% of \$945,000)		\$ 189,000
Add Louisiana allocable income		
Interest	\$ 5,000	
Profit from sale of capital assets	25,000	
Royalty income	25,000	\$ <u>55,000</u>
Total Louisiana apportionable and allocable income		\$ <u>244,000</u>

2. Computations

	Ordinary Rates	Alternative Capital Gains Rates
Net income apportioned and allocated to Louisiana	\$ 219,000	\$ 25,000
Add: Compensating items of income attributable to Louisiana and taxed by federal but which is not taxed by Louisiana	-0-	-0-
Compensating items of deduction attributed to Louisiana and allowed by Louisiana but not allowed by federal depreciation (20% of \$10,000)	2,000	-0-
Total:	\$ 221,000	\$ 25,000
Deduct: Compensating items of income attributed to and taxed by Louisiana but not taxed by federal	-0-	
Compensating items of deduction attributable to Louisiana and allowed by federal but not allowed by Louisiana	-0-	-0-
TOTAL:	\$ 221,000	\$ 25,000

Grand Total

* Where the separate method of reporting is used, the entire amount of Louisiana income tax deducted in the federal return is attributed to Louisiana under this item.

E. Consolidated Returns. When a corporation includes its net income in a consolidated federal income tax return, the portion of the consolidated federal income tax after credits attributable to such corporation shall consist of the sum of the amounts determined in §1123.E.1, 2, and 3:

1. the consolidated regular tax on ordinary net income multiplied by the percentage determined by a fraction, the numerator of which is regular tax on ordinary net income of each member of the consolidated group computed on a separate return basis and the denominator of which is regular tax of all members of the group so computed; plus

2. the consolidated alternative tax on net capital gains multiplied by the percentage determined by a fraction, the numerator of which is alternative tax on net capital gains of each member of the consolidated group computed on a separate return basis and the denominator of which is alternative tax on net capital gains of all members of the group so computed; plus

3. the consolidated alternative minimum tax multiplied by the percentage determined by a fraction, the numerator of which is alternative minimum tax of each member of the consolidated group computed on a separate return basis and the denominator of which is alternative minimum tax of all members of the group so computed.

F. Definitions

*Alternative Minimum Tax*Xthe excess of the federal tentative minimum tax after credits for the tax year, over the federal regular tax after credits for the taxable year.

*Alternative Tax on Capital Gains*Xthe net tax liability imposed by Section 1201(a)(2) of the *Internal Revenue Code* on net capital gains, less credits.

*Compensating Item*Xany difference in any deduction or item of income for a particular year arising solely by reason of the fact that the item is accounted for in different periods for federal and Louisiana income tax purposes. However, if a larger federal income tax deduction would be allowable were an item treated as a compensating item than would be allowable were the item treated as a noncompensating item, the item is a compensating item only to the extent that it is equal to the result obtained by multiplying the difference in the item by a fraction determined as follows:

a. in the case of a deduction:

i. the numerator shall be the excess, if any, of the amount of the item allowed by federal over the amount allowed by Louisiana in each prior year in which the federal allowance exceeded the Louisiana allowance and which has been taken into consideration fully in determining the allowable federal income tax deduction for Louisiana income tax purposes for such prior years, plus the excess, if any, of the amount of the item to be allowed by federal over the amount to be allowed by Louisiana in each future year in which the federal allowance will exceed the Louisiana allowance and which reasonably can be expected to be taken into consideration in determining the allowable federal

income tax deduction for Louisiana income tax purposes in such future years;

ii. the denominator shall be the total of all excesses of the amount of the item allowed by federal over the amount of the item allowed by Louisiana in each prior year and of all excesses of the amount of the item to be allowed by federal over the amount to be allowed by Louisiana in each future year;

b. in the case of an item of income:

i. the numerator shall be the excess, if any, of the amount of the item taxed by Louisiana over the amount taxed by federal in each prior year in which the amount taxed by Louisiana exceeded the amount taxed by federal and which has been fully taken into consideration in determining the allowable federal income tax deduction for Louisiana income tax purposes for such prior years, plus the excess, if any, of the amount of the item to be taxed by Louisiana over the amount to be taxed by federal in each future year in which the amount to be taxed by Louisiana will exceed the amount to be taxed by federal and which can reasonably be expected to be fully taken into consideration in determining the allowable federal income tax deduction in such future years for Louisiana income tax purposes;

ii. the denominator shall be the total of all excesses of the amount of the item taxed by Louisiana over the amount taxed by federal in each prior year and of all excesses of the amount of the item to be taxable by Louisiana over the amount to be taxable by federal in each future year.

*Income Taxed*Xincome included in taxable income, regardless of whether tax has been paid thereon.

*Item of Deduction*Xeach individual deduction rather than each category of deduction, and includes loss items of gross income. For example, the amount of depreciation on a particular property, as distinguished from the amount of depreciation on all properties of the taxpayer, would be an item of deduction. Similarly, the term *item of income* means each amount of income rather than each category of income. The amount of a Louisiana item of income or deduction is the amount apportioned or allocated to Louisiana. Thus, where a taxpayer has a 10 percent apportionment ratio and has an item of deduction of \$10,000 allowed by Louisiana in arriving at apportionable net income but not allowed by federal, the amount of the Louisiana item is 10 percent of \$10,000 or \$1,000.

*Noncompensating Item*Xany item of difference between federal and Louisiana income or deductions for a particular year other than a compensating item.

*Regular Federal Income Tax*Xthe sum of the tax defined in *regular tax on ordinary net income* and *alternative tax on capital gains*.

*Regular Tax on Ordinary Net Income*Xthe federal net tax liability imposed on net income after net income is reduced by the amount of net capital gain subject to alternative tax rates, less credits.

Taken into Consideration Fully in Determining the Allowable Federal Income Tax Deduction for Louisiana Income Tax Purposes for Prior Years means fully used in reducing the amount of the federal income tax deduction for such prior years. The purpose of this provision is to allow an adjustment for an item which will increase the federal income tax deduction only to the extent that adjustments applicable to the item in prior years were used to decrease the federal income tax deduction. Similarly, the term *to be fully taken into consideration in determining the allowable federal income tax deduction in ... future years for Louisiana income tax purposes* means to be used fully in reducing the amount of the federal income tax deduction for such future years.

G. Special Rules

1. The computations prescribed in §1123.B are subject to the rules provided in R.S. 47:287.442. That is, the computations cannot have the effect of attributing refunds of federal income tax which arose on account of conditions or transactions occurring after the close of the taxable year, to any year other than that in which arose the transactions or conditions giving rise to the refund. Accordingly, appropriate changes shall be made when necessary to attribute the refund to the proper year.

2. Notwithstanding the definition provided in §1123.F. *Noncompensating Item* and *Compensating Item*, deductions which are declared as allowable in the computation of Louisiana net income pursuant to R.S. 47:287.73(C) shall be treated as a compensating item of deduction for the purpose of computing the amount of federal income tax deduction under §1123.C.

3. The federal income tax deduction determined under §1123 must take into account R.S. 47:287.83 which provides in part that no federal income tax deduction shall be allowed on net income upon which no Louisiana income tax has been incurred, or upon which, for any reason whatsoever, no Louisiana income tax will be paid.

4. If the tax of any member computed on a separate return basis under §1123.E.1, 2, and 3 is less than zero, then for the purposes of §1123.E, such member's separate return tax shall be zero.

5. The secretary may adjust the consolidated federal income tax allocation formula prescribed in §1123.E when in his opinion such action is necessary to obtain a reasonable allocation and to clearly reflect Louisiana taxable income.

6. The sum of the net consolidated federal income tax attributed to all members of the consolidated group for the taxable period cannot exceed the amount of consolidated federal income tax paid to the U.S. government for the taxable period.

7. When the alternative tax rate on net capital gains is the same as the regular tax rate on ordinary net income reduced by net capital gains, consolidated regular tax on ordinary net income and alternative tax on capital gains, after credits, may be combined and then attributed to each member of the consolidated group.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.85.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:98 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1128. Segregation of Items of Gross Income

A. For the purpose of applying rules for determining the amount of income earned within or derived from sources in Louisiana, all items of gross income must be divided into two general classes-allocable income and apportionable income. The various types of income constituting allocable income are set forth in R.S. 47:287.92(B), and the specific basis for allocating each of these types of income is prescribed in R.S. 47:287.93. Any income which does not fall within any of the types of allocable income as listed in the statute must be treated as apportionable income. When Louisiana net apportionable income is derived primarily from the business of making loans, refer to R.S. 47:287.95(E) and §1134.E for the determination of the Louisiana apportionment percent.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.92.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:101 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1130. Computation of Net Allocable Income from Louisiana Sources

A. R.S. 47:287.93 provides that items of gross allocable income or loss shall be allocated directly to the states within which such items of income are earned or derived.

1. Reserved.

2. Reserved.

3. Profits from sales or exchanges of property not made in the regular course of business requires that both profits and losses from such transactions be included in income allocated directly to the state in which the property had its situs at the time of the transaction. Whether a sale or exchange is a sale not made in the regular course of business is a factual determination required to be made with respect to each property sold which will take into consideration such factors as the frequency of sales of similar properties and the relationship of the particular sale to other business transacted by the taxpayer.

4. Dividends, profits from the sale or exchange of capital assets consisting of incorporeal property or rights, and interest, other than interest on customers' notes and accounts and interest on securities having their situs in Louisiana received from a controlled corporation by its parent, shall be allocated to the state in which the securities or credits have their situs. If the securities or credits have been so employed as to acquire a business situs, the place of business situs controls. In the absence of a business situs the place of commercial domicile controls in the case of a corporation. (For special rules governing the situs of stock canceled in corporate liquidations see R.S. 47:287.747.) These rules are subject to the exception that dividends upon stock having a situs in Louisiana received by a corporation from another corporation which is controlled by the former, through ownership of 50 percent or more of the voting stock of the latter, shall be allocated to the state or states in which is earned the income from which the dividends are paid, such allocation to be made in proportion to the respective amounts of such income earned in each state.

5. Royalties or similar revenue received for the use of patents, trademarks, copyrights, secret processes and other similar intangible rights shall be allocated to the state or

REVENUE AND TAXATION

states in which such rights are used. The use referred to is that of the licensee rather than that of the licensor.

Example: X Company, Inc., a Delaware corporation with its commercial domicile in California, owns certain patents relating to the refining of crude oil, which at all times were kept in its safe in California. During 1987, the X Company, Inc. entered into an agreement with the Y Corporation whereby that company was given the right to use the patents at its refineries in consideration for the payment of a royalty based upon units of production. The Y Corporation used the patents exclusively at its Louisiana refinery and paid the X Company, Inc. the amount of \$100,000 for such use. The entire royalty income of \$100,000 is allocable to Louisiana.

6. Income from construction, repair or other similar services is allocable. The phrase *other similar services* means any work which has as its purpose the improvement of immovable property belonging to a person other than the taxpayer where a substantial portion of such work is performed at the location of such property. For the purpose of this Section, mineral properties, whether under lease or not, constitute immovable properties. It is not necessary that the services rendered actually result in the improvement of the immovable property. Thus, the drilling of a well on a mineral lease is considered to have as its purpose the improvement of such property notwithstanding the fact that the well may have been dry. Examples of other similar services are: (a) landscaping services; (b) the painting of houses; (c) the removal of stumps from farm land; (d) the demolition of buildings.

7. Interest on securities and credits having a situs in Louisiana which is received by a corporation from another corporation controlled by the former through the ownership of 50 percent or more of the voting stock of the latter shall be allocated to the state or states in which the real and tangible personal property of the controlled corporation is located. The allocation shall be made on the basis of the ratio of the value of such property located in Louisiana to the value of such property within and without the state, determined as provided below. Whether the securities and credits have a situs in Louisiana shall be determined in accordance with the rules provided in §1130.A.4. For the purpose of this Section, real and tangible personal property includes all such property of the controlled corporation regardless of whether the property is idle or productive and regardless of the nature of the income which it produces.

a. Value of Property to be Used. For purposes of this Section, the value of property is cost to the taxpayer, less a reasonable reserve for depreciation, depletion, and obsolescence. The reserves reflected on the books of the taxpayer shall be deemed reasonable, subject to the right of the secretary to adjust the reserves when in his opinion such action is necessary to reflect the fair value of the property.

b. Average Values. For the purpose of this Section, the value of Louisiana real and tangible property and real and tangible property within and without the state shall be the average of such property at the beginning and close of the year, determined on a comparable basis.

B. From the total gross allocable income from all sources and from the gross allocable income allocated to Louisiana there shall be deducted all expenses, losses, and other deductions, except federal income taxes, allowable under the Louisiana income tax law which are directly attributable to such income plus a ratable portion of the allowable

deductions, except federal income taxes, which are not directly attributable to any item or class of gross income.

1. Direct and indirect expenses attributed to allocable income from foreign sources for federal purposes are deductible in arriving at total net allocable income. Expenses sourced pursuant to federal law and regulations to allocable income from foreign sources are presumed to be attributed to such income.

2. The approach set forth in these regulations for the allocation and apportionment of interest expense is based upon the concept of the fungibility of money and requires that interest expense ordinarily be allocated to all of the taxpayer's income-producing activities and properties, regardless of the specific purpose for which the borrowing was incurred; it does not directly require allocation of interest deductions to income. That is, these regulations assume that:

a. money is fungible in that all of the taxpayer's activities and properties need funds;

b. the taxpayer's management has substantial flexibility in the source and use of its funds;

c. the creditors of the taxpayer look to its general credit for repayment and thereby subject the money loaned to the risk of all of the taxpayer's activities; and

d. the use of money for one purpose frees funds for other purposes. Accordingly, the reasoning continues, it is appropriate to associate part of the cost of money borrowed for a specific purpose to other purposes as well.

3. Interest expense which is applicable to investments which produce or which are held for the production of allocable income within and without Louisiana, shall be an item of deduction in determining net allocable income or loss. For the purpose of this Subsection, investments which produce or which are held for the production of allocable income include but are not limited to investments in and advances or loans to affiliated corporations whether or not such investments, advances, or loans produce any income. The amount of interest which is applicable to such investments shall be determined by multiplying the total amount of interest expense by a ratio, the numerator of which is the average value of investments which produce or which are held for the production of allocable income, and the denominator of which is the average value of all assets of the taxpayer. Although interest on U.S. government bonds and notes is not taxable and hence is not included in allocable income, the adjustment for the amount of interest expense applicable to investments producing such income is computed in the same manner as in the case of investments producing allocable income. Thus for convenience of computation such investments are grouped with investments producing or held for the production of allocable income. Whenever interest expense applicable to U.S. government bonds and notes which are held as temporary cash investments determined as provided above, exceeds the amount of income derived from such investments, the interest expense which is attributable to such investments shall be limited to the amount so derived. The amount of interest expense applicable to U.S. government bonds and notes which are held as temporary cash investments, determined without reference to the income therefrom, is that portion of the interest expense applicable to investments which produce or which are held for the production of

allocable income, which the ratio of the average value of U.S. government bonds and notes held as temporary cash investments bears to the average value of all investments which produce or which are held for the production of allocable income.

4. Interest expense which is applicable to investments which produce or which are held for the production of Louisiana allocable income shall be an item of deduction in determining net allocable income or loss from Louisiana. Except when Louisiana apportionable income is determined on the separate accounting method, the amount of interest which is applicable to such investments shall be determined by multiplying the amount of interest expense allocated to total allocable investments, determined without reference to the income limitation in the case of investments in U.S. government bonds and notes held as temporary cash investments, by a ratio, the numerator of which is the average value of investments which produce or which are held for the production of Louisiana allocable income and the denominator of which is the average value of investments which produce or which are held for the production of allocable income within and without Louisiana. When Louisiana net apportionable income is determined on the separate accounting method, refer to §1132.C.1 for rules pertaining to the determination of the

amount of interest expense applicable to Louisiana allocable income.

5. Value to be Used. For purposes of this Section, value means cost to the taxpayer, less a reasonable reserve for depreciation, depletion, and obsolescence. The reserves reflected on the books of the taxpayer shall be considered reasonable, subject to the right of the secretary to adjust the reserves when in his opinion such action is necessary to reflect the fair value of the property.

6. Average Value. For purposes of this Section, *average value* means the average of the value of the property at the beginning and at the close of the year.

7. Example: The XYZ Corporation has incurred interest expense in the amount of \$150,000 during the year 1986. During 1986 it derived total allocable income and Louisiana allocable income as follows:

	Louisiana	Total
*Interest on U.S. Treasury notes	\$ -0-	\$ 15,000
Dividends	-0-	5,000
Net rent income	10,000	10,000
Total	\$ 10,000	\$ 30,000

*Treated as allocable income only for convenience in computing the applicable expense.

Its assets, liabilities, and net worth as of January 1, 1986, and December 31, 1986, were as follows:

	12-31-86		1-1-86	
Cash		\$ 100,000		\$ 150,000
Accounts receivable		780,000		800,000
Inventories		600,000		1,000,000
Stocks		100,000		100,000
U.S. Treasury Notes		420,000		650,000
Real estate (rental property)	100,000		100,000	
Less depreciation reserve	<u>20,000</u>		<u>25,000</u>	
Net		80,000		75,000
Real estate	5,000,000		5,125,000	
Less depreciation reserve	1,080,000		1,300,000	
Net		<u>3,920,000</u>		<u>3,825,000</u>
Total Assets		<u>\$ 6,000,000</u>		<u>\$ 6,600,000</u>
Liabilities:				
Accounts payable	\$ 400,000		\$ 1,000,000	
Bonds	<u>3,000,000</u>		<u>3,000,000</u>	
Total Liabilities		\$ 3,400,000		\$ 4,000,000
Net Worth:				
Capital stock	\$ 2,000,000		\$ 2,000,000	
Earned surplus	600,000		600,000	
Net worth		<u>\$ 2,600,000</u>		<u>\$ 2,600,000</u>
Total Liabilities and Net Worth		<u>\$ 6,000,000</u>		<u>\$ 6,600,000</u>

The amount of interest which is applicable to the investments which produce or are held for the production of allocable income within and without Louisiana is \$16,963.50, determined as follows:

	Allocable Investments		Total Assets	
	1-1-86	12-31-86	1-1-86	12-31-86
U.S. Treasury Notes	\$ 420,000	\$ 650,000	\$ 420,000	\$ 650,000
Rental property (net)	\$ 80,000	75,000	80,000	75,000
Stock	100,000	100,000	100,000	100,000
Other assets	0	0	5,400,000	5,775,000
Totals	<u>\$ 600,000</u>	<u>\$ 825,000</u>	<u>\$ 6,000,000</u>	<u>\$ 6,600,000</u>
1-1-86 totals		600,000		6,000,000
Totals		<u>\$ 1,425,000</u>		<u>\$ 12,600,000</u>
Average		<u>\$ 712,500</u>		<u>\$ 6,300,000</u>
Ratio				.11309
Interest expense allocated to total allocable assets (.11309 x \$150,000)				<u>\$ 16,963.50</u>

REVENUE AND TAXATION

Title 61, Part I

The amount of interest expense which is applicable to the investments which produce or are held for the production of Louisiana allocable income is \$1,845.12, determined as follows:

Louisiana allocable assets (rental property):	
January 1, 1986	\$ 80,000
December 31, 1986	75,000
Total	\$ 155,000
Average	\$ 77,500
Total allocable assets - average	712,500
Ratio	10.877
Interest expense allocated to total allocable assets	\$ 16,963.50
Interest expense allocated to Louisiana allocable assets (.10877 x \$16,963.50)	\$ 1,845.12

8. Overhead expense attributable to items of gross allocable income derived from sources within and without Louisiana, except gross allocable income from rent of immovable or corporeal movable property or from construction, repair or other similar services, may be determined by any reasonable method which clearly reflects net allocable income from such items of income.

9. Overhead expense attributable to total gross allocable income derived from rent of immovable or corporeal movable property or from construction, repair, or other similar services shall be deducted from such income for the purposes of determining net allocable income or loss from such items of income. The amount of overhead expense attributable to such income shall be determined by multiplying total overhead expense by the arithmetical average of two ratios, as follows.

a. The ratio of the amount of total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total gross income derived from all sources.

b. The ratio of the amount of direct cost incurred in the production of total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total direct cost incurred in the production of gross income from all sources.

10. Overhead expense attributable to Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services shall be deducted from such income for the purposes of determining Louisiana net allocable income or loss from such items of income. The amount of overhead expense attributable to such income shall be determined by multiplying overhead expense attributed to total gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services by the arithmetical average of two ratios, as follows.

a. The ratio of the amount of Louisiana gross allocable income derived from rent of immovable or corporeal movable property and from construction, repair, or other similar services to total gross allocable income from such sources.

b. The ratio of the amount of direct cost incurred in the production of Louisiana gross allocable income derived from rent of immovable or corporeal movable property and

from construction, repair, or other similar services to total direct cost incurred in the production of such income.

11. Special Rules

a. When a corporation has a Louisiana commercial domicile and directly owns 50 percent or more of the voting stock of another corporation, the stock shall be included in Louisiana allocable assets in calculating the amount of interest expense attributable to investments which produce or which are held for the production of Louisiana allocable income, except stock owned in a corporation exempt from Louisiana corporation income tax. The stock shall be attributed to Louisiana allocable assets on the basis of the respective amounts of income earned within Louisiana to the income earned everywhere of the controlled corporation.

b. When a corporation has a Louisiana commercial domicile and advances interest bearing funds to a corporation of which it directly owns 50 percent or more of the voting stock, the receivable shall be included in Louisiana allocable assets in calculating the amount of interest expense attributable to investments which produce or which are held for the production of Louisiana allocable income. The receivable shall be attributed to Louisiana allocable assets on the same basis as the income from which the receivable is attributed to Louisiana. For the purpose of this Subparagraph, real and tangible personal property includes all such property of the controlled corporation whether or not the property is idle or productive and regardless of the type of income which it produces.

c. Accounts or notes receivable resulting from advances on non-interest bearing funds from one corporation to another corporation are deemed to be assets producing or held for the production of allocable income for the purpose of determining the amount of interest expense applicable to investments which produce or which are held for the production of allocable income from sources within and without Louisiana.

d. When a corporation has a Louisiana commercial domicile, accounts or notes receivable resulting from advances of non-interest bearing funds from one corporation to another corporation shall not be included in the numerator of the interest expense allocation formula for the purpose of §1130.B.4, except when the secretary, in order to clearly reflect Louisiana apportionable and allocable net income, imputes interest income on such receivables.

e. For the purpose of §1130.B.11.a and b, direct ownership of 50 percent or more of the voting stock of a corporation constitutes control of that corporation.

f. The secretary is authorized to adjust the allocation of interest expense and/or overhead expense applicable to investments which produce or which are held for the production of allocable income within and without Louisiana if he determines that such adjustment is necessary in order to clearly reflect apportionable and allocable net income.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.93.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:101 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1132. Computation of Net Apportionable Income from Louisiana Sources

A. General

REVENUE AND TAXATION

1. From the total gross apportionable income there shall be deducted all expenses, losses and other deductions except federal income taxes, allowable under this Chapter, which are directly attributable to such income, and there also shall be deducted a ratable portion of allowable deductions, except federal income taxes, which are not directly attributable to any item or class of gross income. Direct and indirect expenses attributed to total allocable income derived from foreign sources, for federal purposes, are not deductible in arriving at total net apportionable income. Expenses sourced pursuant to federal law and regulations to allocable income from foreign sources are presumed to be attributed to such income.

2. R.S. 47:287.94 provides two methods for computing the amount of net apportionable income from Louisiana sources, viz., the apportionment method and the separate accounting method. The apportionment method must be used unless it produces a manifestly unfair result and the conditions prescribed by R.S. 47:287.94 are met. Where the apportionment method is utilized, the apportionment percentage must be applied to the total apportionable net income without exception. For rules pertaining to the determination of the apportionment percentage refer to §1134.

B. Separate Accounting Method; Permission Obtained from Secretary. Any taxpayer desiring to use the separate accounting method in determining the portion of the total net apportionable income derived from Louisiana sources must first obtain permission from the secretary to use that method. A written request for such permission should be submitted to the secretary not more than 30 days after the close of the taxable year for which the first use of the separate accounting method is to be made if the permission is granted. The secretary will grant such permission if the taxpayer demonstrates to his satisfaction that the apportionment method as applied to the business operations of the taxpayer would produce a manifestly unfair result, that the separate accounting method produces a fair and equitable determination of the amount of net income taxable by Louisiana, and that the other conditions of R.S. 47:287.94 are met. The application of the taxpayer must be accompanied by the following information:

1. a complete description of the nature of the business operations of the taxpayer in Louisiana;
2. a complete description of the nature of the business operations of the taxpayer in other states;
3. a comprehensive statement as to the sources of goods or commodities sold by the taxpayer in Louisiana;
4. a comprehensive statement as to the disposition of goods or commodities produced by the taxpayer in Louisiana;
5. a computation for the preceding taxable year showing the Louisiana net apportionable income on the apportionment basis and on the separate accounting basis;
6. a statement of the particular circumstances in the taxpayer's business operations and the particular factors or elements in the apportionment formula which give rise to the difference between the amounts of Louisiana net apportionable income as computed under the two methods;
7. a statement as to whether the circumstances, factors, and elements mentioned in §1132.B.6 are relatively permanent so that the two methods would reasonably be

expected to yield similar differences in results each year, or whether in the ordinary course of the taxpayer's business those circumstances have changed from time-to-time and may be expected to do so in the future; and

8. any other information which the taxpayer may consider pertinent.

C. Separate Accounting of Apportionable Income.

1. When the separate accounting method is used, the net apportionable income taxable in Louisiana shall be determined by deducting from the gross apportionable income from sources in Louisiana all costs and expenses directly attributable to such income and a ratable part of overhead expenses and other expenses which are attributable in part to the Louisiana gross apportionable income.

2. When Louisiana net apportionable income is determined on the separate accounting method, interest expense applicable to Louisiana gross apportionable and allocable income shall be deducted from such gross income for the purposes of determining Louisiana net apportionable and allocable income or loss. The amount of interest expense applicable to Louisiana gross apportionable and allocable income shall be determined by multiplying total interest expense by a ratio, the numerator of which is the average value of assets in Louisiana and the denominator of which is the average value of all assets of the taxpayer.

3. For the purposes of this Paragraph, *value to be used* and *average value* mean the same as defined in §1130.B.6 and 7. Special rules as provided in §1130.B.11 also apply to this Section.

4. When Louisiana net apportionable income is determined on the separate accounting method, overhead expense shall be deducted from Louisiana gross apportionable income for the purposes of determining Louisiana net apportionable income or loss. The amount of such overhead expense shall be determined by multiplying total overhead expense attributable to gross apportionable income by a ratio, the numerator of which is the amount of direct cost incurred in the production of Louisiana gross apportionable income determined on a separate accounting method and the denominator of which is total direct cost incurred in the production of gross apportionable income from all sources. For the purpose of this Paragraph, the secretary is authorized to adjust the amount of overhead expense allocated to Louisiana gross apportionable income if he determines that such action is necessary in order to clearly reflect Louisiana apportionable net income. For rules pertaining to the determination of the amount of overhead expense attributable to gross allocable income refer to §1130.B.8, 9 and 10.

5. Income from Natural Resources. If the separate accounting method is used by a taxpayer whose business includes the production of natural resources, such as oil, gas, other liquid hydrocarbons, or sulphur, (a) which are sold by the taxpayer prior to refining or processing, or (b) which are transported by the taxpayer into or from the state of Louisiana for refining or processing prior to sale and at the time of production or transfer into or from this state have an ascertainable market value, the Louisiana net apportionable income of such taxpayer shall be computed as set forth below.

a. The gross apportionable income of the taxpayer from sources in Louisiana shall be determined by dividing the activities of the taxpayer into three classes:

- (i). the production of natural resources;
- (ii). the marketing of refined or manufactured products; and
- (iii). all other activities.

b. The Louisiana gross apportionable income from the production of natural resources shall include:

- (i). sales of natural resources produced in Louisiana and sold in this state;
- (ii). the market value, at the time of transfer, of all natural resources produced in this state and transferred by the taxpayer to another state for sale, refining, or processing, provided that if the natural resources are sold by means of an "arm's length" transaction prior to refining or processing, the market value prescribed herein shall not exceed the selling price; and

(iii). the market value, at the time of transfer, of all natural resources produced by the taxpayer in Louisiana and transferred to a refinery or processing plant of the taxpayer located in Louisiana.

c. The Louisiana gross apportionable income from the marketing of refined or manufactured products shall be the amount of gross sales of such products in this state. From such gross sales there shall be deducted, in lieu of the usual deduction for cost of goods sold, the market value of the products sold as of the time of transfer into this state. In determining the market value, the customary prices for the quantities transferred shall be applied.

d. The Louisiana gross apportionable income from all activities in this state other than the production of natural resources and the marketing of refined or manufactured products shall include all sales and other apportionable revenues derived in this state from such other activities.

e. The net income of the taxpayer from each of the three classes of income set forth in §1132.C.5.b, c, and d shall be determined by deducting from each such class of gross income all allowable deductions directly attributable to the production of such income and a ratable part of all allowable deductions which are attributable in part to the production of such class of income.

6. For the purpose of this Section, a natural resource shall be deemed to be sold in Louisiana if it is located in this state at the time title thereto passes to the purchaser.

7. In the absence of specific proof of the value of natural resources at the time of transfer from or into this state, the value of the natural resources at the time of production, to be determined in accordance with the methods prescribed for the determination of "gross income from the property" for purposes of percentage depletion under R.S. 47:287.745(B), shall be deemed to be the market value at the time of transfer.

D. Change from Separate Accounting to Apportionment Method. A taxpayer who has obtained permission to use the separate accounting method, or who has been required by the secretary to use that method, shall continue to use that method for succeeding taxable years until a change occurs in the nature of the taxpayer's operations which would warrant a change in accounting method. When such a change occurs, the taxpayer shall report the facts to the secretary not later than 30 days after the close of the taxable year in which the

change occurred. If the secretary finds, on the basis of the facts reported by the taxpayer or otherwise obtained by the secretary, that the apportionment method should be used, the taxpayer will be notified to use that method for the year in which the change in operations occurred. The apportionment method shall then be used until a change is made pursuant to R.S. 47:287.94.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.94.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:104 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1134. Determination of Louisiana Apportionment Percent

A. General. R.S. 47:287.95 provides for an apportionment percent which is to be applied to the taxpayer's total net apportionable income in determining the Louisiana net apportionable income. Specific formulas are prescribed for air, pipeline, and other transportation businesses, certain service enterprises, and loan businesses. A general formula is prescribed for manufacturing, merchandising and any other business for which a formula is not specifically prescribed. The statute contemplates that only one specific formula be used in determining the apportionment percent, that being the formula prescribed for the taxpayer's primary business. As a general rule, where a taxpayer is engaged in more than one business, the taxpayer's primary business shall be that which is the primary source of the taxpayer's net apportionable income. When the numerator and denominator is zero in any one or more factors in the apportionment formula, such factor shall be dropped from the apportionment formula and the arithmetical average determined from the total remaining factors.

B. Property Factor

1. The value of immovable and corporeal movable property owned by the taxpayer and used in the production of net apportionable income is a factor in each formula except those provided for loan businesses and certain service businesses. Where only a part of the property is used in the production of apportionable income, only the value of that portion so used shall be included in the property factor. However, where the entire property is used in the production of both allocable and apportionable income, such as a railroad track owned by the taxpayer and used jointly with another, the value of the entire property shall be included in the property factor. Idle property and property under construction, during such construction and prior to being placed in service, shall not be included in the property factor. Property held as reserve or standby facilities, or property held as a reserve source of materials shall be considered used. For example, a taxpayer who purchases a lignite deposit which is held as a reserve source of fuel, should include the value of such deposits in the property factor. Non-productive mineral leases are considered to be held for such use and should be included in the property factor. Aircraft owned by a taxpayer whose net apportionable income is derived primarily from air transportation should not be included in the property factor. The value of inventories of merchandise in transit shall be allocated to the state in which their delivery destination is located in the absence of conclusive evidence to the contrary.

REVENUE AND TAXATION

2. Value of Property to be Used. For purposes of this Section, the value of property is cost to the taxpayer, less a reasonable reserve for depreciation, depletion and obsolescence. Such reserves, reflected on the books of the taxpayer, shall be used in determining value, subject to the right of the secretary to adjust the reserves when in his opinion such action is necessary to reflect the fair value of the property.

3. Proration of Rolling Stock and Other Mobile Equipment. The average value of rolling stock and other mobile equipment owned by the taxpayer shall be prorated within and without Louisiana as set forth below.

a. The value of diesel locomotives shall be allocated to Louisiana on the basis of the ratio of diesel locomotive miles in Louisiana to total diesel locomotive miles.

b. The value of other locomotives shall be allocated to Louisiana on the basis of the ratio of other locomotive miles in Louisiana to total other locomotive miles.

c. The value of freight train cars shall be allocated to Louisiana on the basis of the ratio of freight car miles in Louisiana to total freight car miles.

d. The value of passenger cars shall be allocated to Louisiana on the basis of the ratio of passenger car miles in Louisiana to total passenger car miles.

e. The value of passenger buses shall be allocated to Louisiana on the basis of the ratio of bus miles in Louisiana to total bus miles.

f. The value of diesel trucks shall be allocated to Louisiana on the basis of the ratio of diesel truck miles in Louisiana to total diesel truck miles.

g. The value of other trucks shall be allocated to Louisiana on the basis of the ratio of other truck miles in Louisiana to total other truck miles.

h. The value of trailers shall be allocated to Louisiana on the basis of the ratio of trailer miles in Louisiana to total trailer miles.

i. The value of towboats shall be allocated to Louisiana on the basis of the ratio of towboat miles in Louisiana to total towboat miles. In the determination of Louisiana towboat miles, one half of the mileage of all navigable streams bordering on both Louisiana and another state shall be considered Louisiana miles.

j. The value of tugs shall be allocated to Louisiana on the basis of the ratio of tug miles in Louisiana to total tug miles. In the determination of Louisiana tug miles, one half of the mileage of all navigable streams bordering on both Louisiana and another state shall be considered Louisiana miles.

k. The value of barges shall be allocated to Louisiana on the basis of the ratio of barge miles in Louisiana to total barge miles. In the determination of Louisiana barge miles, one half of the mileage of all navigable streams bordering on both Louisiana and another state shall be considered Louisiana miles.

l. The value of work and miscellaneous equipment shall be allocated to Louisiana on the basis of the ratio of track miles in Louisiana to total track miles in the case of a railroad, on the basis of the ratio of bank miles operated in Louisiana to total bank miles operated in the case of inland waterway transportation and on the basis of the ratio of route miles operated in Louisiana to total route miles operated in

the case of truck and bus transportation. In the determination of bank miles, one half of the bank mileage of navigable streams bordering on both Louisiana and another state shall be considered Louisiana bank miles.

m. The value of other floating equipment shall be allocated to Louisiana on the basis of the ratio of operating equipment miles within Louisiana to the total operating equipment miles, for the particular equipment to be allocated. In the determination of Louisiana operating equipment miles, one half of the mileage of all navigable streams bordering on both Louisiana and another state shall be considered Louisiana bank miles.

4. Insufficient Records. In any case where the information necessary to determine the ratios listed above is not readily available from the taxpayer's records, the secretary, in his discretion, may permit or require the allocation of such equipment on any method deemed reasonable by him.

C. Wage Factor. Salaries, wages and other compensation for personal services as used in R.S. 47:287.95 includes only compensation paid to employees or to a deferred plan for the benefit of employees of the taxpayer for services rendered in connection with the production of net apportionable income. It does not include fees and commissions paid to independent contractors.

D. Revenue Factor. Revenue is a factor in each formula except that provided for loan businesses. This factor is generally composed of sales, charges for service, and other gross apportionable income.

1. Revenue from Transportation other than Air Travel. Gross apportionable income attributable to Louisiana from transportation other than air includes all such revenue derived entirely from sources within Louisiana plus a portion of revenue from transportation performed partly within and partly without Louisiana, based upon the ratio of the number of units of transportation service performed in Louisiana to the total of such units. A unit of transportation shall consist of the following:

a. in the case of the transportation of passengers, the transportation of one passenger a distance of one mile;

b. in the case of the transportation of liquid commodities, including petroleum or related products, the transportation of one barrel of the commodities a distance of one mile;

c. in the case of the transportation of property other than liquids, the transportation of one ton of the property a distance of one mile;

d. in the case of the transportation of natural gas, the transportation of one MCF a distance of one mile (see however, §1134.D.2);

e. transportation revenue should be segregated on the basis of the four classes enumerated above and the gross apportionable income attributable to Louisiana shall be determined by application of the respective ratios to each segregated amount. In any case where another method would more clearly reflect the gross apportionable income attributable to Louisiana, or where the above information is not readily available from the taxpayer's records, the secretary, in his discretion, may permit or require the use of any method deemed reasonable by him.

2. Sales Made in the Regular Course of Business

a. The sales attributable to Louisiana under R.S. 47:287.95 are those sales made in the regular course of business where the goods, merchandise or property are received in Louisiana by the purchaser. Similarly, where the goods, merchandise or property are received in some other state, the sale is attributable to that state. Sales made in the regular course of business include all sales of goods, merchandise or product of the business or businesses of the taxpayer. They do not include the sale of property acquired for use in the production of income. Where a taxpayer under a contract performs essentially a management or supervision function and receives therefor a reimbursement of his costs plus a stipulated amount, the amounts received as reimbursed costs are not sales although the contract so designates them. The stipulated amount constitutes other gross apportionable income and shall be attributed to the state where the contract was performed. Where goods are delivered into Louisiana by a public carrier, or by other means of transportation, including transportation by the purchaser, the place at which the goods are ultimately received after all transportation has been completed shall be considered as the place at which the goods are received by the purchaser. The transportation in question is the initial transportation relating to the sale by the taxpayer, and not the transportation relating to a sale or subsequent use by the purchaser.

b. Where the goods are delivered by the taxpayer-vendor in his own equipment, it is presumed that such transportation relates to the sale. Where the goods are delivered by a common or contract carrier, whether shipped F.O.B. shipping point, and whether the carrier be a pipeline, trucking line, railroad, airline or some other type of carrier, the place where the goods are ultimately received by the purchaser after the transportation by the carrier has ended is deemed to be the place where the goods are received by the purchaser. Actual delivery rather than technical or constructive delivery controls.

c. Where the transportation involved is transportation by the purchaser, in determining whether or not the transportation relates to the sale by taxpayer, consideration must be given to the following principles.

i. To be related to the initial sale, the transportation should be commenced immediately. However, before a lapse of time is conclusive, consideration must be given to the nature and character of the goods purchased, the availability of transportation, and other pertinent circumstances.

ii. The intent of the parties to the sale must also be considered. The intent and purpose of the purchaser may be determined directly, or by an evaluation of the nature and scope of his operation, customs of the trade, customary activities of the purchaser, and all pertinent actions and words of the purchaser at the time of the sale.

iii. In order for the transportation by the purchaser to be related to the initial sale by the taxpayer to the purchaser, such transportation must be generally the same in nature and scope as that performed by the vendor or by the carrier. There is no difference between a case where a taxpayer in Houston ships F.O.B., Houston, to a purchaser in Baton Rouge, by common carrier, and a case where all facts are the same except that the purchaser goes to Houston in his own vehicle and returns with the goods to Baton Rouge.

d. The sales of natural resources to a pipeline company are attributable to the state in which the goods are placed in the pipeline. Such purchasers are engaged in the business of moving or transporting their own property through their own lines. Thus, all transportation of the natural resources after introduction into the line is related to the use or sale by the pipeline, and is not related to the sale by the taxpayer.

e. Generally, transportation by public carrier pipelines is accorded the same treatment as transportation by any other type of public carrier. Actual delivery to the purchaser controls, rather than technical or constructive delivery. However, because of the nature and character of the property, the type of carrier, and customs of the trade, the natural resources in the pipeline carrier may become intermixed with other natural resources in the pipeline and lose their particular identity. Where delivery is made to a purchaser in more than one state, or to different purchasers in different states, peculiar problems of attribution arise. In solving such problems consideration must be given to the following principles.

i. Where it can be shown that a taxpayer in one state sold a quantity of crude oil to a purchaser in another state, and the oil was transported to the purchaser by pipeline carrier, the sale will be attributed to the state where the crude oil is received by the purchaser, even though the crude oil delivered might not be the identical oil sold because of commingling in the pipeline. Custom of the trade indicates the purchaser buys a quantity of oil of certain quality rather than any specific oil.

ii. In situations involving several deliveries in several different states to one or more purchasers, the general rules should be applied with logic and common sense.

f. Examples

i. Three different taxpayers, A, B, C, all in Texas, each sells to X Refinery, in Louisiana, 10,000 barrels of crude oil, shipped F.O.B., Texas, by public carrier pipeline. (a) If X Refinery received all 30,000 barrels in Louisiana, each taxpayer must attribute his total sale to Louisiana. (b) If X Refinery receives 10,000 barrels in Louisiana, 10,000 barrels in Mississippi, and 10,000 barrels in Alabama, it cannot be said by any taxpayer that all of his sale was received either in Louisiana or in one of the other states. Since each taxpayer contributed one-third of the mass of commingled crude oil, it follows that one-third of each taxpayer's sale was received in Louisiana, and accordingly must be attributed to Louisiana.

ii. Three different taxpayers, A, B, and C, in Texas, sell to three different purchasers, X Refinery in Louisiana, Y Refinery in Mississippi, and Z Refinery in Alabama. If A sells to X Refinery in Louisiana and delivery is by public carrier pipeline, the oil is received in Louisiana and the entire sale is attributed to Louisiana, even though the crude oil delivered might not be the identical oil sold because of commingling in the pipeline with oil sold by B and C to Y Refinery and Z Refinery.

g. In determining the place of receipt by the purchaser after the initial transportation has ended, peculiar problems may be created by the storage of the property purchased immediately upon purchase at a place other than the place of intended use. The primary problem created by

REVENUE AND TAXATION

such storage is in determining whether or not the transportation after storage relates to the sale by the taxpayer. Generally, the rules and principles set forth above will control where the storage is of temporary nature, such as that necessitated by lack of transportation, by change from one means of transportation to another, or by natural conditions. In cases where the storage is permanent or semi-permanent, delivery to the place of storage concludes the initial transportation, and the sale is attributed to the place of storage.

E. Loans factor. Loans made by the taxpayer as provided in R.S. 47:287.95(E) is the arithmetical average of the loan balances outstanding at the beginning and end of the taxable period. This factor is to be used only by taxpayers whose income is derived primarily from the business of making loans. If the average at the beginning and end of the year does not fairly represent the average of loans outstanding during the year, the average may be obtained by dividing the sum of the monthly balances by 12.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.95.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:105 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1137. Exceptions to Taxable Year of Inclusion; Taxable Year Deductions Taken

A. Improperly Reported Item of Income. R.S. 47:287.442(A) does not relieve a taxpayer of the responsibility of filing a true and correct return and immediately correcting any errors which are discovered after the return is filed. If an error is discovered, it is the obligation of the taxpayer to file promptly an amended return reflecting the correct tax liability. The purpose of R.S. 47:287.442(A), so far as it deals with improperly reported items of income, is to preclude a taxpayer's being required to pay again on an item of income which has borne tax in full previously, even though for a period in which it was not properly reportable. An item of income will be deemed to have previously borne tax in full if the item, when multiplied by the lowest tax rate applicable to the taxpayer, results in a tax not less than the amount of tax actually paid on the return. If the item has not previously borne tax in full, R.S. 47:287.442(A) is not applicable to that portion of the item which has not previously borne tax. That portion, which shall be the difference between the item of income and the taxable balance of net income, shall be reported as income during the year it was properly reportable.

B. Example: The ABC Corporation, by mistake, reported on its 1982 income tax return an item of accrued interest in the amount of \$5,000 which was properly reportable in 1983. It paid the Louisiana income tax shown to be due on the return. The company never discovered its error. In 1987, the secretary discovers the error. The return for 1982 shows the following.

Accrued interest	\$ 5,000
Income from operations	20,000
Total income	\$ 25,000
Less total authorized deductions	\$ 21,000
Taxable income	\$ 4,000
Tax per return	\$ 160
Computation to determine if item has borne tax in full:	
Amount improperly reported	\$ 5,000

Tax at lowest rate of taxpayer	\$ 200
Tax paid	160
Amount of tax unpaid	\$ 40
Computation of portion of item to be reported in 1983:	
Improperly reported item	\$ 5,000
Taxable balance of net income in 1982	4,000
Portion of item to be reported	\$ 1,000

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.442.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:108 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1140. Exemption from Tax on Corporations

A. An organization claiming exemption under R.S. 47:287.501 must submit a copy of the Internal Revenue Service ruling establishing its exempt status. Once an organization establishes with the department its right to an exemption, it need not file any further reports until such time its right to an exemption changes. An organization that has furnished information to the department establishing its right to exemption under the prior law need not submit additional information until such time its exempt status with the Internal Revenue Service changes. A corporation is either entirely exempt or it is wholly taxable. A partial exemption is not permitted.

B. Mutual savings banks, national banking corporations, building and loan associations, and savings and loan associations are exempt from the tax imposed by this Chapter regardless of where organized.

C. Banking corporations organized under the laws of the state of Louisiana which are required by other laws of this state to pay a tax for their shareholders, or whose shareholders are required to pay a tax on their shares of stock, are exempt. Banking corporations, other than those described above, organized under the laws of a state other than the state of Louisiana are not exempt from the corporation income tax.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.501.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:108 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1147. Notice of Regulation, Requiring Records, Statements and Special Returns

A. Every corporation subject to the provisions of Part II.A of Chapter 1 shall, for the purpose of enabling the secretary to determine the correct amount of income subject to tax, keep such permanent books of account or records, including inventories, as are sufficient to establish the amount of gross income and the deductions, credits, and other information required to be shown in any return. Such books or records required by this Section shall be available at all times for inspection by the secretary, and shall be retained so long as the contents thereof may be material in the administration of the income tax law. The secretary may at any time require the taxpayer to submit statements of net worth as of the beginning and end of the taxable year.

AUTHORITY NOTE: Promulgated in accordance with R.S.47:287.601.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:108 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1148. Corporation Returns

A. General Rules. Every corporation deriving income from Louisiana sources shall file a return on forms secured from the secretary, unless expressly exempt from the tax. The first return and the last return of a corporation are returns for a full year and not for a fractional part of a year. A corporation does not go out of existence by virtue of being managed by a receiver or trustee who continues to operate it.

B. Liquidation. Upon liquidation or dissolution of a corporation there shall be attached to the final return a statement showing:

1. an outline of the plan under which the corporation was dissolved;
2. the date the dissolution was formally commenced;
3. the date the dissolution was completed;
4. the name and address of each shareholder at dissolution and the number and par value of the shares of stock held by each;
5. a description of assets conveyed to each shareholder, creditor, or other person, showing book value, fair market value, and location, as well as the name and address of each such person;
6. the consideration paid by each person for the assets received; and
7. whether the plan is intended to qualify under one of the sections of the Internal Revenue Code relating to nonrecognition in whole or in part of gain by a shareholder, and, if so, the section involved.

C. Receivers. Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must file returns for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property within the meaning of R.S. 47:287.612 whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation. However, a receiver in charge of only part of the property of a corporation, as, for example, a receiver in mortgage foreclosure proceedings involving merely a small portion of its property, need not file a return.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.612.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:108 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1168. Notice of Fiduciary Relationship

A. Notice. As soon as the secretary receives notice that a person is acting in a fiduciary capacity, such fiduciary must, except as otherwise specifically provided, assume the powers, rights, duties, and privileges of the taxpayer with respect to the income tax imposed by Part II.A. of Chapter 1. If the person is acting as a fiduciary for a transferee or other person subject to the liability specified in R.S. 47:287.682, such fiduciary is required to assume the powers, rights, duties, and privileges of the transferee or other person under that section. The amount of the tax or liability is ordinarily not collectible from the personal estate of the fiduciary, but is collectible from the estate of the taxpayer or from the estate of the transferee or other person subject to the liability specified in R.S. 47:287.682. [See however R.S. 47:1673].

The "notice to the secretary" provided for in R.S. 47:287.683 shall be a written notice signed by the fiduciary and filed with the secretary. The notice must state the name and address of the person for whom the fiduciary is acting, and the nature of the liability of such person; that is, whether it is a liability for tax, and if so, the year or years involved, or a liability at law or in equity of a transferee of property of a taxpayer, or a liability of a fiduciary in respect of the payment of any tax from the estate of the taxpayer. Any such written notice which has previously been filed with the secretary shall be considered as sufficient notice. Unless there is already on file with the secretary satisfactory evidence of the authority of the fiduciary to act for such person in a fiduciary capacity, such evidence must be filed with and made a part of the notice. If the fiduciary capacity exists by order of court, a certified copy of the order may be regarded as such satisfactory evidence. When the fiduciary capacity has terminated, the fiduciary, in order to be relieved of any further duty or liability as such, must file with the secretary written notice that the fiduciary capacity has terminated as to him, accompanied by satisfactory evidence of the termination of the fiduciary capacity. The notice of termination should state the name and address of the person, if any, who has been substituted as fiduciary.

B. Effect of Failure to Give Notice. If the notice of the fiduciary capacity described in Subsection A above is not filed with the secretary before the sending of notice of assessment by registered mail to the last known address of the taxpayer, or the last known address of the transferee or other person subject to liability, no notice of the deficiency will be sent to the fiduciary. In such a case the sending of the notice to the last known address of the taxpayer, transferee, or other person, as the case may be, will be a sufficient compliance with the requirements of the income tax law, even though such taxpayer, transferee, or other person is deceased, or is under a legal disability, or in the case of a corporation, has terminated its existence. Under such circumstances if no petition is filed with the Board of Tax Appeals within 60 days after the mailing of the notice to the taxpayer, transferee, or other person, the assessment becomes final upon the expiration of such 60-day period and demand for payment will be made.

C. Definition. The term *fiduciary* means a guardian, trustee, executor, administrator, receiver, conservator, or any person acting in any fiduciary capacity for any person.

D. Limitation. This regulation shall not be taken to abridge in any way the powers and duties of fiduciaries provided for in other sections of the income tax law.

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.683.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:109 (February 1988), repromulgated by the Policy Services Division, LR 30:

§1189. Situs of Stock Canceled or Redeemed in**Liquidation**

A. General Rule. R.S. 47:287.747 provides that the situs of stock canceled or redeemed in the liquidation of a corporation, whether domestic or foreign, shall be in Louisiana in the same ratio that property located in Louisiana, and received by a shareholder, bears to the total property received in the liquidation. *Property* as used in R.S. 47:287.747 means all of the assets of the liquidating

REVENUE AND TAXATION

Cynthia Bridges
Secretary

corporation without regard to liabilities. For the purpose of determining the situs of the stock canceled or redeemed in liquidation, the fair market value of the property distributed in liquidation shall be used. The location of the property of the corporation shall be determined in accordance with the provisions of R.S. 47:287.93.

B. Example: X, shareholder, owns 10 percent of the shares of ABC, Inc., a foreign corporation. The basis of X's shares is \$1,000. On July 1, 1986, ABC Inc., liquidates and exchanges the following property for its outstanding stock, which it cancels.

	Total Assets (Fair Market Value)	Louisiana Assets (Fair Market Value)
Cash	\$ 10,000	\$ 2,000
Accounts receivable	50,000	8,000
Buildings	60,000	30,000
Land	60,000	10,000
Stocks	20,000	0
	\$ 200,000	\$ 50,000

Since one-fourth of the assets distributed in liquidation are located in Louisiana, one-fourth of X's stock has its situs in Louisiana.

Gain is computed as follows:

Fair market value of property received	\$ 20,000
Basis of property received	1,000
Gain	\$ 19,000
Louisiana taxable gain (1/4 of \$19,000)	\$ 4,750

AUTHORITY NOTE: Promulgated in accordance with R.S. 47:287.747.

HISTORICAL NOTE: Promulgated by the Department of Revenue and Taxation, Income Tax Section, LR 14:109 (February 1988), repromulgated by the Policy Services Division, LR 30:

Family Impact Statement

The repromulgation of LAC 61:I.1115-1189, which reaffirms the secretary's rule making authority, should not have any known or foreseeable impact on any family as defined by R.S. 49:972(D) or on family formation, stability and autonomy. Specifically, the implementation of this proposed rule will have no known or foreseeable effect on:

1. the stability of the family;
2. the authority and rights of parents regarding the education and supervision of their children;
3. the functioning of the family;
4. family earnings and family budget;
5. the behavior and personal responsibility of children;
6. the ability of the family or a local government to perform this function.

Any interested person may submit written data, views, arguments or comments regarding this proposed Rule to Michael D. Pearson, Senior Policy Consultant, Policy Services Division, Office of Legal Affairs by mail to P.O. Box 44098, Baton Rouge, LA 70804-4098. All comments must be received no later than 4:30 p.m. Wednesday, January 28, 2004. A public hearing will be held on Thursday, January 29, 2004 at 10 a.m. in the River Room Conference Room on the seventh floor of the LaSalle Building, 617 North Third Street, Baton Rouge, LA.

**FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES
RULE TITLE: Corporation Income Tax**

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

Implementation of this proposed repromulgation of LAC 61:I.1115-1189 will result in no expenditures for the department. The repromulgation of the corporation income tax regulations reaffirms the secretary's rule making authority with respect to the corporation income tax. There will be no impact on local government costs.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There will be no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

There will be no directly affected persons or nongovernmental groups. Current compliance requirements will not change.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

This proposed repromulgation should have no effect on competition or employment.

Cynthia Bridges
Secretary
