GENERAL INSTRUCTIONS

- 1B. Enter the amount of Line 1A that is the ad valorem taxes paid to local subdivisions in Louisiana on inventory held by manufacturers, distributors, and retailers that is available for or subject to a short-term rental that will subsequently or ultimately be sold by the retailer that will be included on Line 1C.

Act 338 of the 2017 Regular Session amended the definition of "inventory" as enacted by Act 415 of the 2015 Regular Session, for purposes of this credit, to mean items of tangible personal property that are held for sale in the ordinary course of business, in the process of production for subsequent sale, or are to physically become a part of the production of such goods. The definition contains a listing of specific items that are included and not included in inventory effective for tax periods beginning on or after January 1, 2016. In addition to items that are clearly included by the enacted definition, the following items are included in inventory: used goods or trade-in merchandise; by-products of a manufacturer; raw materials and supplies that will be consumed in the Louisiana manufacturing process; and goods that are available for short-term rental that will subsequently or ultimately be sold by taxpayers classified under code numbers 532412 and 532310 of the North American Industry Classification System. Not included in inventory unless otherwise stated are: oil stored in tanks held by a producer prior to the first sale of the oil; items that haven been leased by the taxpayer; items that the taxpayer has depreciated for federal income tax purposes; items that have been used by the taxpayer and have been owned for more than eighteen months; and certain items stored in the state for use in interstate commerce. A "short-term rental" is defined as a rental of an item of tangible personal property for a period of less than 365 days, for an undefined period, or under an open-ended agreement.
