   Louisiana Revised Statute 47:1517

12. Glossary
Introduction  Part 1
Louisiana’s state government relies on tax revenues to fund valuable services for its citizens. Ensuring that the system of taxation is fair, equitable, and efficient is vital to our economic success and quality of life. In setting tax policies, we must consider the taxpayer’s ability to pay, the impact of those policies on economic development, and the interaction of tax policies with other policy goals.

Tax exemptions are an important component of Louisiana’s tax policies. According to Revised Statute 47:1517(E), tax exemptions refer to “those revenue losses attributable to provisions of the state tax statutes or rules promulgated pursuant to such statutes, which allow a special exclusion, exemption, or deduction from gross income or sales or which provide a special credit, a preferential rate of tax, or a deferral of tax liability.” Granting a tax exemption can be a powerful tool for providing economic development incentives or for mitigating the regressive qualities of certain tax types. However, tax exemptions always come with a cost. Exemptions reduce revenues otherwise available for programs or for tax relief for taxpayers who do not benefit from the exemptions. Therefore, it is critical that policymakers understand both the cost of exemptions and their effectiveness at achieving their intended goals.

Recognizing the need for this information, the Legislature mandated in Section 1517 of Title 47 of the Louisiana Revised Statutes (“R.S.”) that the Louisiana Department of Revenue (“Department of Revenue”) prepare and submit to the Governor and the Legislature an annual tax exemption budget. In addition, the House Committee on Ways and Means and the Senate Committee on Revenue and Fiscal Affairs are required to conduct hearings on the tax exemption budget every odd-numbered year. These Committees analyze and consider tax exemptions which have caused revenue loss to the state of ten million dollars or more in any one of the last three fiscal years. These Committees may also report to the Legislature findings or recommendations developed as a result of the hearings.

Statutory Requirements
According to R.S. 47:1517(B) the Tax Exemption Budget must include the following information pertaining to the state’s tax exemptions:

1. Listing of each tax exemption
2. Statutory citation
3. Purpose
4. Revenue loss to the state for the three preceding years
5. Estimate of revenue loss to the state for the current fiscal year
6. Estimate of revenue loss to the state for the ensuing fiscal year
7. Estimated cost of administering and implementing each tax exemption for the three preceding fiscal years, the current fiscal year, and the ensuing fiscal year
8. Number of businesses that receive each tax exemption
9. Parish or location of each business that receives a tax exemption
10. Number of taxpayers in each industry group by North American Industry Classification System sector that receives a tax exemption
11. Total tax burden by industry group for each tax before the exemption, total value to each industry group for each exemption, and total tax value by each industry group for each tax after the exemption
12. Schedule listing all tax exemptions by categories

In addition, R.S. 47:1517(C) requires that the annual Tax Exemption Budget include an assessment of each tax exemption based on the following criteria:

1. Whether or not each tax exemption has been successful in meeting the purpose for which it was enacted, in particular, whether each tax exemption benefits those originally intended to be benefited, and if not, those who do benefit
2. Whether each tax exemption is the most fiscally effective means of achieving its purpose
3. Unintended or inadvertent effects, benefits, or harm caused by each tax exemption, including whether each tax exemption conflicts with other state laws or regulations
4. Whether each tax exemption simplifies or complicates the state tax statutes

Contents of the Report
Part 1, the Introduction, provides a general description of the statutory requirements for the Department of Revenue to prepare an annual Tax Exemption Budget.

Part 2, the Overview, provides further explanation of the purpose of the Tax Exemption Budget, methodology for measuring the fiscal effect of tax exemptions, reliability and source data of estimates, and terminology used to describe the fiscal effect of a tax exemption.

Part 3, the Executive Summary, provides graphical representations of revenue losses related to Fiscal Year 2018-2019 by major tax type.

Part 4, the Five-Year Estimate of Revenue Loss, is a listing of each tax exemption by major tax type and the revenue losses for the three preceding years, the current year, and the ensuing year. The number of each tax exemption cor-
responds to its placement in the Listing of Exemptions.

Part 5, the Tax Exemptions by Classification Five-Year Estimated Revenue Loss, is a listing of each tax exemption by category and the revenue losses for the three preceding years, the current year, and the ensuing year. The tax exemptions are listed by tax type within each category and the numbers correspond to their placement in the Listing of Exemptions.

Part 6, the Listing of Exemptions, is arranged alphabetically by major tax type and provides general information regarding each tax exemption. Each section contains a discussion of the major tax type, the legal citations, the tax base, the tax rate, and any significant changes to the imposition or administration of the tax exemption. In addition, an index of each tax exemption, the legal citation, and the page number is provided to aid the reader.

Part 7, Tax Exemptions by Parish, is arranged alphabetically by major tax type, and provides a listing of each tax exemption, the number of taxpayers in each parish that received the exemption in fiscal year 2018-2019, along with the tax burden for those taxpayers before the exemption, the revenue loss caused by the exemption and the tax burden after the exemption.

Part 8, Tax Exemptions by North American Industry Classification System ("NAICS") Sector, is arranged alphabetically by major tax type, and provides a listing of each tax exemption, the number of taxpayers within each NAICS Sector that received the exemption in fiscal year 2018-2019, along with the tax burden for those taxpayers before the exemption, the revenue loss caused by the exemption and the tax burden after the exemption.

Part 9, Appendix, provides a copy of Louisiana Revised Statute 47:1517.

Part 10, Glossary, provides definitions for terms used in the Tax Exemption Budget.

Data Limitations of the Tax Exemption Budget
The Department of Revenue is able to provide all of the required information for the annual Tax Exemption Budget except for the following:

1. The cost of administering and implementing each tax exemption.
2. A determination of whether each tax exemption has been successful in meeting the purpose for which it was enacted and whether it benefits those originally intended to be benefited.
3. A determination of whether each tax exemption is the most fiscally effective means of achieving its purpose.
4. A determination of unintended or inadvertent effects, benefits, or harm caused by each tax exemption.
5. A determination of whether each tax exemption simplifies or complicates the state tax statutes.

Currently, the Department of Revenue does not capture the data required to offer an opinion on the information above. The lack of historical data for specific exemptions, both financial and statistical in nature, limits the Department of Revenue's ability to make a determination with any significant confidence about its degree of accuracy. The Department of Revenue does not have historical data on many exemptions, for the following reasons:

1. Data on most exemptions was not captured separately on individual income tax returns prior to tax year 2005, on corporation income and franchise tax returns prior to tax year 2006 and on fiduciary income tax returns prior to tax year 2014. The corporation income and franchise tax return data is further limited because the Department of Revenue started capturing data on most deductions with electronically filed returns only for tax year 2015, and on exemptions for tax year 2017.
2. Prior to the sales tax return for April 2016, most sales tax exemptions were reported on a single line and previously reported as "other exemptions" in the TEB.
Overview

Part 2
The Purpose of the Tax Exemption Budget

Louisiana's governmental policy objectives are achieved through direct spending programs and through tax exemptions which reduce actual tax collection revenues. Similar to direct spending programs, tax exemptions are designed to encourage certain activities or to provide financial assistance to persons, businesses, or groups in particular situations. The purpose of this report is to provide information to facilitate a regular, comprehensive legislative review of tax exemptions.

Measurements of Tax Exemptions

The fiscal impacts of tax exemptions are often difficult to measure, and estimates of the effect of tax exemptions are subject to limitations and require that assumptions be made. Generally, in calculating the revenue loss related to a tax exemption, it is assumed that only the provision in question is changed and that all other aspects of the tax system remain the same.

Consistent with accepted revenue estimating practices, the estimates also assume that economic variables, taxpayer behavior and other factors would be unaffected by the repeal of a tax exemption. As a result, the calculations did not consider any side effects that could result from the removal of any other tax exemption.

In addition, the estimates are limited to the accuracy and completeness of the source data. In some cases, little data is available and estimates were made using external sources or indirect information. Specifically, the following two scenarios are highlighted as areas of potential understatement of estimates in the Tax Exemption Budget:

- Revenue losses associated with nonrefundable individual income tax, corporation income tax, fiduciary income tax, and corporation franchise tax credits, including nonrefundable credits reported in the tax incentive and exemption contracts section have been limited to the tax liability reported.

- Revenue losses associated with transferable tax credits, such as the Motion Picture Investor Tax Credit and the credit for the Rehabilitation of Historic Structures that used as payments for outstanding liabilities is only reported if the tax credit is in the Tax Credit Registry under R.S. 47:1524.

Reliability of Data Sources

The precision of the fiscal effect of the tax exemptions reported in this document varies with the source of the data and the applicability of the data to the specific tax exemption provision. Regardless of the data source, the reliability of estimates for the current and ensuing years is of distinctly lower quality than that of the historical numbers.

Whenever possible, data from actual tax returns is used to estimate the fiscal effect of a tax exemption. Other sources of data include informational reports filed with the Department of Revenue, the Department of Revenue’s Summary of Refunds and Rebates Issued Report, and information gathered from Office of Motor Vehicles, Department of Economic Development, Department of Education and Department of Culture, Recreation & Tourism.

For purposes of this report, the following terminology is used to describe the fiscal effect for tax exemptions with the following situations:

- **Negligible** – revenue loss is reported or estimated at $10,000 or less.
- **No data** – historical data was not available to report or estimate the revenue loss.
- **Unable to anticipate** – source data was not available to predict the future revenue loss.
- ******* – tax exemption was not in effect for tax periods that would be filed during the fiscal year.
- **NRR** – source data was not available because there is no reporting requirement for the data.
- **See number (x)** – used in the sales tax and individual income tax listings to indicate that the fiscal effect for a tax exemption is included with the fiscal effect of the referenced exemption. Generally, this applies to those tax exemptions that have been superseded by another form of exemption or grouped with a like item.

Reliability of Sales Tax Return Reporting

Prior to the April 2016 filing period, the majority of sales tax exemptions were reported in aggregate under the description “All other transactions subject to 1%” or the description “Other totally-exempt sales.” Effective for the April 2016 filing period, the Form R-1029, Louisiana Department of Revenue Sales Tax Return, was revised to include over 160 codes to specifically identify each exemption. This revision was made in response to legislative requests for more detailed information on amounts claimed for each sales tax exemption. While this information is available to be reported, there is a risk that taxpayers have erroneously classified exempt transactions. Consequently, classification errors for sales tax revenue losses may be undetected and amounts erroneously reported in the Tax Exemption Budget document.
Executive Summary

Explanation of Certain Reporting Disclosures in the Five-Year Revenue Loss Schedule

State Exemptions and Federal Exemptions – There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the statutory exemption would not yield the fiscal effect indicated. For this reason, these exemptions are separately grouped at the end of each major tax listing.

Other Classifications – In the event that a revenue loss for a new exemption is not separately stated when applicable to more than one tax, then the revenue loss is reported as such:

- When applicable to corporation income and franchise taxes, the loss is reported under corporation income taxes
- When applicable to individual income and corporation income, the loss is reported under corporation income taxes
- When applicable to individual income, corporation income and franchise taxes, the loss is reported under corporation income taxes

Explanation of Certain Reporting Disclosures in the Five-Year Revenue Loss Schedule – Sales Tax

Act 25 of the 2016 First Extraordinary Legislative Session imposed the four percent state sales tax on all exemptions and exclusions not specifically listed in the Act for the period of April 1, 2016 through June 30, 2016. Beginning July 1, 2016 through June 30, 2018, Act 25 continued to impact sales tax exclusions and exemptions through the imposition of two percent state sales tax under R.S. 47:302 except for the manufacturing machinery and equipment exclusion found under R.S. 47:301(3)(i)(i) and the business utilities of sales of steam, water, electric power, or energy, and natural gas found under R.S. 47:305(D)(1) et. al.

In addition, Act 26 of the 2016 First Extraordinary Legislative Session imposed an additional state sales tax in the amount of one percent. The new state sales tax was in addition to the sales taxes already levied pursuant to R.S. 47:302, 321 and 331. Only those exclusions and exemptions listed in Act 26 were operable and in effect for the purpose of the imposition of the additional one percent sales tax. This additional state sales tax was in effect from April 1, 2016, until its expiration on June 30, 2018.

Act 1 of the 2018 Third Extraordinary Legislative Session amended R.S. 47:321.1 to reduce the additional state sales tax imposed by Act 26 of the 2016 First Extraordinary Legislative Session from one percent to forty-five hundredths of one percent. This reduced the overall state sales tax rate from five percent to four and forty-five hundredths percent (4.45%). Only the exclusions and exemptions listed in Act 1 are in effect with respect to the impositions in R.S. 47:302, 321, 321.1 and 331. The state sales tax rate of four and forty-five hundredths percent is in effect from July 1, 2018, until its expiration on June 30, 2025. Act 1 also provides that business utilities, which include the sale or use of steam, water, electric power or energy, natural gas, or energy sources as provided in R.S. 47:305(D)(1)(b), (c), (d), (g), and (h), are subject to a two percent state sales tax pursuant to R.S. 47:302.

Explanation of Certain Reporting Disclosures in the Tax Exemptions by Parish Schedule

The address of the taxpayer reporting the exemption was used to determine the parish for purposes of this schedule, and therefore, may not reflect the parish in which the exemption occurred. For instance, sales taxes reported on a consolidated return are attributed to the parish of the main location.

Parishes with no taxpayers claiming a specific exemption are not included in the table for that exemption.

The consumer is the intended beneficiary for some exemptions. However, those exemptions are only reported by those entities purchasing or selling the goods or services, and the Department of Revenue does not collect consumer level data for these exemptions. Therefore, only the entity level data is reported in this schedule.

Explanation of Certain Reporting Disclosures in the Tax Exemptions by North American Industry Classification System (NAICS) Sector Schedule

NAICS Sectors with no taxpayers claiming a specific exemption are not listed in the table for that exemption.

There is no central government agency with the role of assigning, monitoring, or approving NAICS codes for business establishments. Businesses are assigned NAICS codes by various federal or state agencies for various purposes using a variety of methods. In most instances, the NAICS codes used for this report are self-reported by taxpayers to the Department of Revenue. Some taxpayers have not provided a NAICS code to the Department of Revenue. At this time, the Department of Revenue is unable to assign a NAICS code to the taxpayers included in Unknown.

Additionally, the Department of Revenue does not capture business establishment data at the individual income tax level with the result that exemptions which flow-through to and are reported by individuals have no associated NAICS code.

The consumer is the intended beneficiary for some exemptions. However, those exemptions are only reported by those entities purchasing or selling the goods or services, and the Department of Revenue does not collect consumer level data for these exemptions. Therefore, only the entity level data is reported in this schedule.

### Footnotes for Tax Exemptions by Classification

1. In regards to exemptions, exclusions, deductions and nonrefundable credits for Corporation Franchise Tax, Corporation Income Tax, Fiduciary Income Tax, and Individual Income Tax, including those listed under Tax Incentives and Exemption Contracts, the estimated revenue loss for FYE 6-23 does not reflect tax reform as provided by Acts 2021, Nos. 389, 395 and 396. The exception to this is noted where applicable.

2. The FYE 6-20 revenue loss has been revised in order to reflect the correct revenue loss.

### Footnotes for Miscellaneous

1. In regards to exemptions and deductions for Corporation Income Tax, Fiduciary Income Tax, and Individual Income Tax, the estimated revenue loss for FYE 6-23 does not reflect tax reform as provided by Acts 2021, Nos. 395 and 396.
2. The fiscal effect assumes no restrictions on eliminating this deduction. Assuming that to reduce this deduction below the levels in effect January 1, 1974, would require a constitutional amendment, 58 percent of the fiscal effect should be considered protected.
3. The estimated revenue loss includes credits claimed on a stand alone form for taxpayers not required to file an income tax return.

#### Footnotes for Miscellaneous

Corporation Franchise Tax Exemptions
Introduction

The Louisiana corporation franchise tax was enacted in 1932. The tax was imposed on every domestic corporation and every foreign corporation authorized or doing business in the state, or using any part of its capital, plant, or any other property in the state. As originally enacted, the tax levied was due and payable for the privilege of carrying on or doing business, exercising of its charter or the continuance of its charter within the state.

An initial tax return covering the period beginning with the date the corporation first becomes liable for filing a return and ending with the close of the accounting period, must be filed on or before the fifteenth day of the third month after the corporation first becomes liable. Thereafter, an annual return is due by the fifteenth day of the fourth month after the close of an accounting period. For tax periods beginning on and after January 1, 2017, the annual return is due by the fifteenth day of the fifth month after the close of an accounting period and the initial tax return is due by the fifteenth day of the fourth month after the corporation first becomes liable. The tax is due on the first day of the calendar year or the taxpayer’s fiscal year.

The law has been amended many times since 1932. However, an amendment in 1970 to replace the privilege of doing business language in the original act with the statement that the tax levied is due and payable on any one or all of the incidents referred to in the law was one of the more important amendments. For tax periods beginning after December 31, 2005, the amount of borrowed capital included in taxable capital was reduced until fully phased out for the 2011 franchise tax year.

For tax periods beginning before January 1, 2017, a limited liability company (L.L.C.) is not considered to be a corporation for franchise tax purposes, and therefore is not subject to franchise tax. For tax periods beginning on or after January 1, 2017, the imposition of the franchise tax was extended to any entity taxed as a corporation for federal income tax purposes, if it meets any of the criteria for franchise tax, with two exceptions. (1) Any L.L.C. qualified and eligible to make an election to be taxed as an S Corporation on the first day of the franchise tax period. (2) Any other entity that was acquired during the period January 1, 2012 to December 31, 2013, by an entity that was taxed as an S Corporation for federal purposes.

Tax Base
Capital stock, surplus, and undivided profits

Tax Rate
For periods beginning prior to January 1, 2023, the tax is assessed on the taxable base at the rate of $1.50 per $1,000 on the first $300,000 and $3.00 per $1,000 over $300,000. For periods beginning on or after January 1, 2023, the tax is assessed on the taxable base at the rate of $2.75 for each $1,000, or major fraction thereof, on amounts in excess of $300,000. The tax is based on the larger of the assessed value of all real and personal property in the state or the amount of issued and outstanding capital stock, surplus, and undivided profits attributable to Louisiana.

Types of Tax Exemptions
Corporation franchise tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally refer to organizations or corporations that are statutorily exempt from the imposition of the corporation franchise tax due to the nature of their operation. Deductions are generally defined as a reduction to the taxable base. Credits are generally defined as a reduction to the amount of tax due. All tax exemptions related to the corporation franchise tax are listed in this report.

Significant Changes
2021 Regular Legislative Session
Act 389 extends the current suspension of corporation franchise tax at the rate of $1.50 for each $1000 of taxable capital through July 1, 2023. Effective June 16, 2021.

For franchise taxable periods beginning on or after January 1, 2023, Act 389 amends the rates and thresholds for imposition of the tax from $1.50 for each $1000, or major fraction thereof, on the first $300,000 of taxable capital and $3.00 for each $1000, or major fraction thereof, on amounts in excess of $300,000 of taxable capital to $2.75 for each $1000, or major fraction thereof, on amounts in excess of $300,000 of taxable capital.

Act 389 also contains a trigger, which automatically reduces the imposed rates by a percentage of corporation income and franchise tax collections in excess of the growth factor (calculated as collections for Fiscal Year 2018-19, adjusted annually by the growth factor, as provided in Article VII, Section 10(C) of the Constitution.) The trigger is activated only when numerous

benchmarks are met, including: 1.) The prior year’s actual total tax, licenses, and fees exceed the actual total tax, licenses and fees for Fiscal Year 2018-19, adjusted annually by the growth factor; and 2.) the Budget Stabilization Fund balance as determined by the Treasurer is at least 2.5% of the total state revenue receipts from the prior fiscal year. Effective January 1, 2022.

Act 453 creates the Louisiana Work Opportunity Tax Credit, which authorizes a nonrefundable corporation income and franchise tax credit for a business that hires an eligible re-entrant. “Eligible re-entrant” means an inmate or former inmate who is eligible to participate and is actively participating in a work release program provided for in R.S. 15:11, 1111, 1199.9, or 1199.10 and meets all of the criteria provided for in R.S. 15:1199.7. The credit is equal to 5% of the total wages paid to an eligible re-entrant in an eligible job for twelve consecutive months following release from imprisonment. The credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Dept. of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant and the credit may be carried forward for a period not to exceed 5 years. Credit is effective for employment of eligible re-entrants with a release date occurring on or after January 1, 2021. Effective June 23, 2021.

Act 454 creates the Louisiana Youth Jobs Tax Credit Program, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires one or more eligible youths on or after July 1, 2021. “Eligible youths” means an individual who has attained the age of 16 but has not yet attained the age of 24, is unemployed prior to being hired by a business applying for the credit, will be working full-time or part-time that pays wages that are equivalent to the wages paid for similar jobs, with adjustments for experience or training, and meets at least one of other enumerated criteria. The credit is equal to $1,250 for each eligible youth hired in a full-time position and $750 for each eligible youth hired in a part-time position. The credit is capped at $5 million per calendar year. Effective June 23, 2021.

Act 454 also creates the Apprenticeship Tax Credit, which authorizes a nonrefundable income and corporation franchise tax for a business that hires an eligible apprentice. An “Eligible Apprentice” means: 1.) a person who has entered into a written apprenticeship agreement with an employer or an association of employers pursuant to a registered apprenticeship program provided for in Chapter 4 of Title 23 of LA Revised Statutes of 1950; or 2.) is enrolled in a training program accredited by the National Center for Construction Education and Research which has no less than four levels of training and no less than 500 hours of instruction. For each eligible apprentice employed for a minimum of 250 hours, the credit is equal to $1.25 per hour of employment for a maximum credit of $1,250 per eligible apprentice. The credit is applicable to taxable periods beginning after December 31, 2021 and may be carried forward for a period no to exceed 5 years. The credit is capped at $2 million dollars per calendar year. Effective June 23, 2021.

3. **Credit Unions**

Credit unions, together with all accumulations therein, are exempt from all taxes except for taxes on immovable property owned. The shares of a credit union are not subject to a stock transfer tax when issued by the corporation or when transferred from one member to another. No fees, taxes, or any of the stipulations as to capital stock set forth in general statutes for corporations apply to credit unions. The purpose of this exemption is to minimize the tax burden on these nonprofit organizations.

4. **Limited Liability Companies**

For taxable periods beginning before January 1, 2017, limited liability companies (L.L.C.) are taxed the same as a partnership. Partnerships are not subject to corporation franchise tax, therefore, limited liability companies are not subject to corporation franchise tax.

For tax periods beginning on or after January 1, 2017, the imposition of the franchise tax was extended to any entity taxed as a corporation for federal income tax purposes, if it meets any of the criteria for franchise tax, with two exceptions. (1) Any L.L.C. qualified and eligible to make an election to be taxed as an S Corporation on the first day of the franchise tax period. (2) Any other entity that was acquired during the period January 1, 2012 to December 31, 2013, by an entity that was taxed as an S Corporation for federal purposes. Therefore, for the purpose of franchise tax, an L.L.C. is treated and taxed in the same manner that it is treated and taxed for federal income tax purposes.

9. **Public-Utility Holding Corporations**

A regulated public-utility holding corporation may deduct from its taxable base that portion of its assets used to finance the operation of its subsidiaries. The deduction is calculated by multiplying the sum of its investment in and advances to its subsidiary corporations by its Louisiana corporation franchise tax apportionment percent. In order to be deducted, the investments in and advances to subsidiaries must be included in the taxable capital of the holding corporation. However, public-utility holding companies have a minimum annual corporation franchise tax of $100,000. The purpose of this deduction is to encourage corporations to relocate their principal office in Louisiana.

This provision creates the Louisiana Community Development Financial Institutions (LCDFI) Act. A LCDFI is any legal entity whose primary business activity is the investment of cash to acquire equity in or provide financing assistance as a licensed business and industrial development corporation to qualified Louisiana businesses in low-income communities and provides for an income and franchise tax credit for individuals and businesses that invest in LCDFIs. The credits are transferable and can be carried forward indefinitely. Any unused allocation of credits from a previous year may be carried forward and granted in the next year. For returns filed prior to July 1, 2015, the non-refundable credit is to be calculated as 75 percent of the investment. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is to be calculated as 54 percent of the investment.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during the calendar years 2017, 2018, and 2019.

30. **Inventory Tax/Ad Valorem Tax**

A refundable tax credit is allowed for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the credit allowed is equal to 100 percent of the ad valorem taxes paid if the amount paid is less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75 percent of the excess credit over tax can be refunded with the remaining 25 percent carried forward for five years.

For returns filed on or after July 1, 2016:

- Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability.
- If the total amount eligible for the credit is less than or equal to $500,000, 100 percent of any excess credit is refundable, and for total eligible amounts above $500,000, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100 percent of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- The credit is nonrefundable for taxes paid on inventory by any manufacturer who claimed the property tax exemption under the Industrial Tax Exemption Program (ITEP) during the same year the inventory taxes were paid, and for taxes paid by any company related to such manufacturer on inventory that is related to the business of such manufacturer.

For tax periods beginning on or after January 1, 2016, certain property held by persons engaged in the short term rental of such items qualifies for the credit. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to

32. **Ad Valorem Tax on Offshore Vessels**

A refundable credit is allowed for ad valorem taxes paid on vessels that operate principally in Outer Continental Shelf Lands Act Waters. To qualify for the credit, the taxpayer must certify to the assessor that the vessel operated principally in outer continental shelf waters within the calendar year immediately before the tax year of assessment of the vessel and the ad valorem tax must have been paid to the political subdivision without protest. However, for taxable periods beginning on or after January 1, 2018, a taxpayer who pays the ad valorem tax under protest must notify the Department of Revenue within five business days of the date that the lawsuit is filed. The credit is equal to 100 percent of the taxes paid.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit.

34. Purchases from Prison Industry Enhancement Contractors

For returns filed prior to July 1, 2015, a refundable credit is allowed for the state sales and use taxes paid on purchases of specialty apparel items from a Private Sector Prison Industry Enhancement (PIE) contractor. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, a credit is allowed for 72 percent of the state sales and use taxes paid on purchases of specialty apparel items from a PIE contractor. PIE contractors use inmate labor to produce items for sale and then pay 30 percent of the salary paid to the inmates back to the state.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

35. Milk Producers

A refundable credit is allowed for resident taxpayers engaged in the business of producing milk for sale. The credit will be allowed when the USDA Uniform Price in Federal Order Number 7 drops below the announced production price established by the Department of Agriculture and Forestry at any time during the calendar year. Qualified taxpayers are eligible for tax credits based on the production and sale of milk below the announced production price over a calendar year.

The Department of Health must certify to the Department of Revenue, by January 31 of the following year, which milk producers are eligible to receive the credits. Any producer not certified by the Department of Health will not be entitled to the credits. For returns filed prior to July 1, 2015, the credits allowed for each milk producer may not exceed $30,000 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $2.5 million per calendar year. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credits allowed for each milk producer may not exceed $21,600 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $1.8 million per calendar year.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

The School Readiness Tax Credits are a comprehensive effort to support Quality Start, a voluntary, quality rating system by the Department of Education for child care centers through tax breaks to families, child care providers, child care teachers and directors, as well as businesses that support child care.

A refundable credit is allowed for a taxpayer who incurs eligible business-supported child-care expenses. The credit amount depends upon the quality rating of the child care facility to which the expenses are related or the quality rating of the child care facility that the child attends. Eligible business-supported child-care expenses include expenses to construct, renovate, or expand a child care center, purchase equipment for a center, maintain or operate a center, or subsidize child care for their employees.

Hazardous Waste Disposal Tax Exemptions
Hazardous Waste Disposal Tax

{ Introduction }

In 1984, Act 8 of the First Extraordinary Session levied a one-time tax on the hazardous waste content of the land. The tax was at the rate of $2 per ton of waste disposed or stored in the land during 1981, 1982, 1983, and the first six months of 1984. This tax was administered by the Department of Environmental Quality, but collected by the Department of Revenue.

This Act also levied the hazardous waste disposal tax on the disposal of hazardous waste in Louisiana and on certain storage of waste. The disposal tax rates were set at $5 per dry-weight ton of waste disposed at the same site where produced or generated and $10 per dry-weight ton of waste disposed or stored at a site other than where produced or generated. The tax was deemed collectible from the generator of the hazardous waste, if the generator disposed of his own hazardous waste, or from the disposer who must collect the tax from the generator of the waste at the time that the disposer received the waste. All generators and disposers must be registered with the Louisiana Department of Environmental Quality.

In 1988, Act 655 increased the rates to $10 per dry-weight ton of hazardous waste disposed on site and $20 per dry-weight ton of hazardous waste disposed at another site. This act further provided that the rates would increase $1 per year until 1998. Additional provisions of the 1988 Act were the imposition of a tax of $25 per dry-weight ton of extremely hazardous waste disposed in Louisiana and for the taxation of waste imported into Louisiana for disposal or storage.

The tax rates were again increased in 1990 by the passage of Act 391. This legislation changed the rates from $10, $20, and $25 per dry-weight ton to $30, $60, and $100, respectively. An additional provision allowed a credit of 0.5 percent of the tax due for collecting and remitting the tax timely. A tax on the transportation of hazardous and extremely hazardous wastes was also levied at the rate of $25 per gross-weight ton of hazardous or extremely hazardous wastes transported in Louisiana for disposal or storage in Louisiana.

During the 1992 Regular Legislative Session, Act 526 was enacted which reduced the tax on the disposal of waste at a site other than where produced from $60 per dry-weight ton to $40 per dry-weight ton. This legislation also repealed the tax on transporting hazardous or extremely hazardous waste effective July 1, 1992.

Tax Base
Dry-weight ton, or fraction thereof, of hazardous or extremely hazardous wastes disposed in Louisiana and of hazardous wastes stored for more than 90 days

Tax Rate
Effective July 1, 1992:

- $30 per ton of hazardous waste disposed at the site where produced
- $40 per ton of hazardous waste disposed at a site other than where produced
- $100 per ton of extremely hazardous waste disposed

Imported wastes produced out-of-state and disposed in Louisiana are taxed at either the current effective tax rate or at the rate that would be paid for disposal in the generating state, whichever is higher.

Types of Tax Exemptions
For hazardous waste disposal tax purposes, the tax exemption is in the form of a credit. Credits are generally defined as a reduction to the amount of tax due.

Corporation Income Tax Exemptions
Introduction

The Louisiana corporation income tax was authorized by the 1921 state constitution. The first tax was levied in 1934 at the rate of four percent of corporate earnings exceeding $3,000. In 1977, Louisiana raised the income tax rate from a flat rate of four percent to a five-tier tax rate schedule that ranged from four percent of the first $25,000 of taxable income to a maximum of eight percent of the taxable income exceeding $200,000. In 2021, Louisiana reduced the income tax rate to a three-tier tax rate schedule that ranged from three and one half percent of the first $50,000 of taxable income to a maximum of seven and one half percent of the taxable income exceeding $150,000. Louisiana allows a deduction in computing taxable income for 100 percent of the federal income taxes paid on income taxable to Louisiana, which reduces the effective corporation income tax through 2021. For tax periods beginning on or after January 1, 2022, the deduction for the federal income taxes paid on income taxable to Louisiana was repealed in order to reduce the actual tax rates.

Like many other states that impose a corporate income tax, Louisiana closely follows the federal system. That is, the state employs the federal definition of income and deductions with certain modifications. Act 16 of the First Extraordinary Session of 1986 enacted R.S. 47:287.2 through 47:287.785 relative to corporation income tax and provided for the conformance of this tax to the federal tax system.

For multi-state corporations, Louisiana net income is generally determined through formula apportionment. Under the formula apportionment method, total net income is generally apportioned to Louisiana based on the average of three factors: property, revenue, and wages.

Domestic corporations and other entities taxed as corporations for federal income tax purposes that organized under the laws of Louisiana, unless specifically exempted, must file an income tax return each year. Foreign corporations and other entities taxed as corporations for federal income tax purposes, organized under the laws of other states, who derive income from Louisiana sources, regardless of whether or not they have net income, must file an income tax return unless specifically exempted.

An income tax return is due by the fifteenth day of the fourth month following the close of an accounting period. For income tax periods beginning on and after January 1, 2016, the income tax return is due by the fifteenth day of the fifth month following the close of an accounting period.

R.S. 47:287.2 through 47:287.785

Tax Base
Taxable income earned within or derived from sources within Louisiana.

Tax Rate
For tax periods beginning before January 1, 2022, four percent on the first $25,000; five percent on the next $25,000; six percent on the next $50,000; seven percent on the next $100,000; eight percent on the taxable income above $200,000. For tax periods beginning on or after January 1, 2022, three and one half percent on the first $50,000; five and one half percent on the next $100,000; seven and one half percent on the taxable income above $150,000.

Type of Tax Exemptions
Corporation income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. An exemption/exclusion generally means that a corporation is statutorily exempt from the imposition of the corporate income tax because of the nature of the corporation's business or a specific item of income that is not taxed. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to corporation income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the others and appears at the end of this section.

Significant Changes
2021 Regular Legislative Session
Act 54 provides an exemption from individual and corporation income tax for all COVID-19 relief benefits received by a taxpayer. "COVID-19 relief benefits" means any gratuitous grant, loan, rebate, tax credit, advance refund, or other qualified disaster relief benefit directly or indirectly provided to a taxpayer by the state or federal government including but not limited to benefits provided pursuant to the Coronavirus Aid, Relief, and Economic Security Act, the Taxpayer Certainty and Disaster Relief Act, the COVID-Related Tax Relief Act, the Consolidated Appropriations Act of 2021, the State Coronavirus Relief Program, the Coronavirus Local Recovery Allocation Program, the Louisiana Main Street Recovery Program, the Critical Infrastructure Worker’s Hazard Pay Rebate, and pursuant to any other existing or subsequent state or federal COVID-19 relief
Corporation Income Tax

legislation. A COVID-19 relief benefit does not include any unemployment compensation benefits provided to a taxpayer. Effective January 1, 2022.

Act 287 authorizes a partnership to report and pay any taxes assessed either as a result of a federal adjustment arising from an IRS audit or other action by the IRS at the partnership level, rather than the partner level. The partnership can also request a refund of an overpayment of tax arising from final federal adjustments. In addition, authorizes the Department to adopt similar procedures for purposes of state tax. The bill allows both corporations and partnerships to make estimated tax payments due to federal audit. It also changes the due date for the partnership return and requires all partnerships to file the return with LDR. Effective June 14, 2021.

Act 385 accelerates the sunset date from January 1, 2022 to July 1, 2021 for the cost of qualified clean-burning motor-fuel property which is related to a conversion of a motor fuel vehicle propelled by gasoline or diesel to a motor vehicle propelled by an alternative fuel or the purchase of a new vehicle originally equipped to be propelled by an alternative fuel. Effective July 1, 2021.

Act 378 creates a non-refundable income tax credit for certain donations made by taxpayers to a qualified foster care organization during a taxable year. Effective for taxable periods beginning on or after January 1, 2022.

Act 396 changes the rates and brackets for purpose of the imposition of tax on corporations to 3.5% on the first $50,000 of Louisiana taxable income, 5.5% on amounts above $50,000 but not in excess of $150,000, and 7.5% on amounts in excess of $150,000. In addition, Act 396 repeals the deduction for federal taxes paid for corporations. For taxpayers making the PTE Election, Act 396 changes the rates from 2%, 4% and 6% to 1.85%, 3.5%, and 4.25% respectively. Effective January 1, 2022.

Act 453 creates the Louisiana Work Opportunity Tax Credit, which authorizes a nonrefundable corporation income and franchise tax credit for a business that hires an eligible re-entrant. “Eligible re-entrant” means an inmate or former inmate who is eligible to participate and is actively participating in a work release program provided for in R.S. 15:11, 1111, 1199.9, or 1199.10 and meets all of the criteria provided for in R.S. 15:1199.7. The credit is equal to 5% of the total wages paid to an eligible re-entrant in an eligible job for twelve consecutive months following release of the eligible re-entrant from imprisonment. The credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Dept. of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant and the credit may be carried forward for a period not to exceed 5 years.

Credit is effective for employment of eligible re-entrants with a release date occurring on or after January 1, 2021. Effective June 23, 2021.

Act 454 creates the Louisiana Youth Jobs Tax Credit Program, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires one or more eligible youths on or after July 1, 2021. “Eligible youths” means an individual who has attained the age of 16 but has not yet attained the age of 24, is unemployed prior to being hired by a business applying for the credit, will be working full-time or part-time that pays wages that are equivalent to the wages paid for similar jobs, with adjustments for experience or training, and meets at least one of other enumerated criteria. The credit is equal to $1,250 for each eligible youth hired in a full-time position and $750 for each eligible youth hired in a part-time position. The credit is capped at $5 million per calendar year. Effective June 23, 2021.

Act 454 also creates the Apprenticeship Tax Credit, which authorizes a nonrefundable income and corporation franchise tax for a business that hires an eligible apprentice. An “Eligible Apprentice” means: 1.) a person who has entered into a written apprenticeship agreement with an employer or an association of employers pursuant to a registered apprenticeship program provide for in Chapter 4 of Title 23 of LA Revised Statutes of 1950; or 2.) is enrolled in a training program accredited by the National Center for Construction Education and Research which has no less than four levels of training and no less than 500 hours of instruction. For each eligible apprentice employed for a minimum of 250 hours, the credit is equal to $1.25 per hour of employment for a maximum credit of $1,250 per eligible apprentice. The credit is applicable to taxable periods beginning after December 31, 2021 and may be carried forward for a period no to exceed 5 years. The credit is capped at $2 million dollars per calendar year. Effective June 23, 2021.

Act 459 provides that for all claims for a net operating loss deduction filed on or after January 1, 2022, starting with losses from 2001, any unused loss may be carried forward to each taxable year following the loss until the loss is fully utilized. Effective June 24, 2021.

SCR 49 requires a joint report by LDR and DOE on the Donations to School Tuition Organization credit, rebate, and scholarships to the Senate committees on education, revenue and fiscal affairs, and finance, and the House committees on education, ways and means, and appropriations.

1. Credit Unions

Credit unions, together with all accumulations therein, are exempt from all taxes except for immovable property owned. The shares of a credit union are not subject to a stock-transfer tax when issued by the corporation or when transferred from one member to another. No fees or taxes, nor any of the stipulations as to capital stock set forth in general statutes for corporations, apply to credit unions. The purpose of this exemption is to minimize the tax burden on these nonprofit organizations.

2. Certain Foreign Corporations

Foreign corporations operating as mutual savings banks, mutual savings funds societies, real estate investment trusts, state banks or trust companies, insurance companies, corporations associated with real estate investment trusts, group insurance and annuity corporations, and nonprofit or nontrading corporations are exempt from state corporation income tax if their Louisiana operations are limited to certain activities related to making, acquiring, or participating in loans. The purpose of this exemption is to make it easier for Louisiana businesses and individuals to borrow money.

5. Dividends from National Banking Corporations and State Banking Corporations

Dividends from national banking corporations and state banking corporations are excluded from the gross income of corporations. The federal law in effect at the time the state income tax statutes were enacted prohibited states from taxing dividends of national banking corporations. Although this prohibition was removed, Louisiana did not change its statutes to tax these dividends. The purpose of this exclusion is to comply with federal laws in effect at the time of enactment.

7. Certain Exempt Entities

Organizations described in Internal Revenue Code sections 401(a) or 501 are exempt from corporation income tax to the extent that those organizations are exempt from income taxation under federal law. Also, the Louisiana corporation income statute exempts certain other entities. The purpose of this exemption is to provide financial assistance to these nonprofit organizations. The following is a list of exempt entities:

A. Labor, agricultural, and horticultural organizations that are educational or instructive in character, and are designed to encourage the development of agricultural and horticultural products. The income from these organizations must be used exclusively to meet the necessary expenses of upkeep and operation.

B. Mutual savings banks, national banking corporations, and banking corporations organized under the laws of the state of Louisiana, who pay a tax for their shareholders, or whose shareholders pay a tax on their shares of stock under other laws of this state, and building and loan associations.

C. Fraternal beneficiary societies, orders, or associations operating under the lodge system, or for the exclusive benefit of the members of a fraternity itself operating under the lodge system, and providing for the payment of life, sick, accident, or other benefits to members of the society, order, or association or their dependents.

D. Nonprofit cemetery companies owned and operated exclusively for the benefit of their members.

E. Any corporation, community chest, or fund, organized and operated exclusively for religious, charitable, scientific, literary or educational purposes, or for the prevention of cruelty to children or animals.

F. Business leagues, chambers of commerce, real estate boards, or boards of trade not organized for profit and no part of the net earnings benefits any private shareholder or individual.

G. Nonprofit civic leagues or organizations operated exclusively for charitable, educational, or recreational purposes.

H. Clubs organized and operated exclusively for pleasure, recreation, or other nonprofit purposes.

I. Benevolent life insurance associations of a purely local character, mutual ditch or irrigation companies, mutual or cooperative telephone companies, or like organizations, but only if 85 percent or more of the income consists of amounts collected from members for the sole purpose of meeting losses and expenses.

J. Farmers’ or other mutual hail, cyclone, casualty, or fire insurance companies or associations (including interinsurers and reciprocal underwriters), but only if the income of which is used or held for the purpose of paying losses or expenses.

K. Certain farmers, fruit growers, or like associations organized and operated on a cooperative basis for the purpose of marketing products or purchasing supplies and equipment.

L. Corporations organized by exempt farmers’ cooperatives to finance crop operations of members.

M. Corporations organized for the exclusive purpose of holding title to property, collecting income therefrom, and turning over the entire amount thereof, less expenses, to organizations that are organized and operated exclusively for religious, charitable, scientific, literary, and educational purposes. No part of the net earnings can benefit any private stockholder.

N. Voluntary employees’ beneficiary associations providing for the payment of life, sick, accident, or other benefits to the members of the association or their dependents.

O. Teachers’ retirement fund associations of a purely local character, if no part of their net earnings (other than through payment of retirement benefits) benefits a private stockholder or individual, and if the income consists solely of amounts received from public taxation, amounts received from assessments upon the teaching salaries of members, and income in respect of investments.

8. **Governmental Subsidies for Operating Public Transportation Systems**

Funds received by a corporation from a governmental entity to subsidize the operation and maintenance of a public transportation system are excluded from gross income. The purpose of this exclusion is to provide financial assistance to public transportation systems.

For returns filed on or after July 1, 2015, but before June 30, 2018, regardless of the tax year to which it relates, and returns for tax periods beginning during the calendar years of 2015, 2016, and 2017, regardless of date filed, the exemption is limited to 72 percent of the funds received.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the exemption is reduced; but one-third of the reduced portion of the exemption may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

9. **Subchapter S Corporation**

Corporations classified as S corporations under Subchapter S of the Internal Revenue Code are required to file Louisiana corporation income tax returns. To arrive at taxable income Subchapter S corporations may exclude a percentage of their Louisiana net income. The excludable percentage is determined by dividing the number of issued and outstanding shares of capital stock of the Subchapter S corporation owned by Louisiana “resident individuals” on the last day of the corporation's tax year by the total number of issued and outstanding shares of capital stock of the corporation on the last day of the corporation's tax year. No share will be excluded unless its owner has filed a Louisiana individual income tax return that includes the owner’s share of the Subchapter S corporation's income. The purpose of this exclusion is to limit income taxation on Subchapter S corporation income to either the corporate or shareholder level. The revenue loss associated with this exclusion is the gross revenue loss calculated using corporate income tax return data and is not offset by the amount of income tax paid on the Subchapter S corporation income included on individual income tax returns.

12. **Percentage Depletion**

Louisiana allows a depletion deduction for oil and gas wells that is the greater amount of cost depletion determined under federal law, or percentage depletion determined under Louisiana law (Louisiana depletion). For returns filed before July 1, 2015, Louisiana depletion was 22 percent of each property’s gross income less 100 percent of rents or royalties paid in relation to the property, limited to 50 percent of the net income of the property. For returns filed on or after July 1, 2015, but before June 30, 2018, regardless of the tax year to which it relates, and returns for tax periods beginning during the calendar years of 2015, 2016, and 2017, regardless of date filed, Louisiana depletion is 15.8 percent of each property’s gross income less 72 percent of any rents or royalties paid in relation to the property, limited to 36 percent of the net income of the property. The purpose of this deduction is to promote oil and gas exploration and production.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the exemption is reduced; but one-third of the reduced portion of the exemption may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

**Estimated Fiscal Effect**
The Department has no data on this deduction and is unable to determine its estimated fiscal effect.

13. **Net Louisiana Operating Loss**

The purpose of this deduction is to allow corporations to offset losses made in one tax year with income earned in another. Corporations are allowed to carry a net operating loss deduction forward for 20 years for returns filed on or after July 1, 2015, regardless of the tax year to which it relates. For losses related to a loss year beginning on or after January 1, 2001, the loss can be carried forward until the loss is fully utilized for returns filed on or after January 1, 2022. For returns filed prior to July 1, 2015, corporations were allowed to carry a net operating loss deduction back for 3 years and forward for 15 years.

Originally, the net operating loss deduction must be applied in order of the year of loss, beginning with the earliest taxable year first. Beginning with the 2017 tax year, the most recent taxable year is to be applied first. Beginning with the 2020 tax year, net operating loss deductions must again be applied beginning with the earliest taxable year first.

For returns filed prior to July 1, 2015, the deduction was not limited. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the deduction is equal to 72% of the available net operating loss, limited to 72 percent of net income.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the deduction is reduced; but one-third of the reduced portion of the deduction may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

14. I.R.C. Section 280E Expense

A deduction is allowed for any expenses that are disallowed under I.R.C. Section 280E. For federal purposes, taxpayers cannot claim expenses related to carrying on a trade or business if the trade or business involves trafficking controlled substances prohibited by federal law. This deduction allows the taxpayer to reduce their federal taxable income by the amount of the deduction that was disallowed for federal income tax purposes that is related to the production or dispensing of therapeutic marijuana. This deduction is only allowed for taxpayers who are licensee of this state pursuant to Part X-E, Chapter 4 of Title 40 of the Louisiana Revised Statutes.

Legal Citation

15. I.R.C. Section 280C Expense

A deduction is allowed for any expenses that are disallowed under I.R.C. Section 280C. For federal purposes, taxpayers cannot claim certain tax credits and deduct certain expenses associated with those credits. I.R.C. Section 280C requires a taxpayer who elects to claim certain credits that are based on an expense to reduce the federal deduction for the expense by the dollar amount of the credit claimed. This deduction allows the taxpayer to reduce their federal taxable income by the amount of the deduction that was disallowed for federal income tax purposes.

For returns filed on or after July 1, 2015, but before June 30, 2018, regardless of the tax year to which it relates, and returns for tax periods beginning during the calendar years of 2015, 2016, and 2017, regardless of date filed, the deduction is limited to 72 percent of the expenses disallowed under I.R.C. Section 280C.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the exemption is reduced; but one-third of the reduced portion of the exemption may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

Beneficiaries
Corporations claiming certain credits on their federal returns

Estimated Fiscal Effect
The Department has no data on this deduction and is unable to determine its estimated fiscal effect.
16. Interest Income and Dividend Income

A deduction is allowed from gross income of an amount equal to interest and dividend income that is included on the federal income tax return.

For returns filed on or after July 1, 2015, but before June 30, 2018, regardless of the tax year to which it relates, and returns for tax periods beginning during the calendar years of 2015, 2016, and 2017, regardless of date filed, the deduction is limited to 72 percent of the dividends that would otherwise be included in gross income.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the exemption is reduced; but one-third of the reduced portion of the exemption may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

Legal Citation
R.S. 47:287.738(F)

Beneficiaries
Taxpayers who have received interest income or dividend income that was included on their federal income tax return

Estimated Fiscal Effect
The Department has no data on this deduction and is unable to determine its estimated fiscal effect.

17. Hurricane Recovery Entity Benefits

Corporations who received funds from a hurricane recovery entity and were required to include those funds on the federal income tax return are allowed a deduction for such funds. The deduction is for hurricane recovery benefits provided by the Road Home Corporation, the Louisiana Recovery Authority, the Louisiana Family Recovery Corps, the Disaster Recovery Unit, and Restore Louisiana for recovery from the Great Flood of 2016.

For returns filed on or after July 1, 2015, but before June 30, 2018, regardless of the tax year to which it relates, and returns for tax periods beginning during the calendar years of 2015, 2016, and 2017, regardless of date filed, the deduction is limited to 72 percent of the funds from a hurricane recovery entity if such benefit was included in federal net income.

If an extension was granted prior to July 1, 2015, and the return was filed by the extended due date, the exemption is reduced; but one-third of the reduced portion of the exemption may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

20. **Insurance Company Premium Tax**

A non-refundable credit is allowed for any premium taxes paid to the Insurance Commissioner of the state of Louisiana. The purpose of this credit is to allow an offset for the premium taxes paid. An offset provided under R.S. 22:832 and R.S. 22:2058 against the premium tax liability has reduced the impact of the premium tax credit. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit allowed is for 72 percent of the premium taxes paid. Acts 2017, No. 403 repealed this reduction effective June 26, 2017.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

36. Certain Refunds Issued by Utilities

Refunds made by utility companies, resulting from denial of rate increases, may be credited against gross income. If a deduction from gross income would result in a net loss, the utility company may elect to take a non-refundable credit subject to certain limitations. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is equal to 72 percent of the income tax increase. The purpose of this credit is to accurately reflect the utility company’s gross income.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years during calendar years 2017, 2018, and 2019.

40. **Louisiana Community Development Financial Institutions Act**

This provision creates the Louisiana Community Development Financial Institutions (LCDFI) Act. A LCDFI is any legal entity whose primary business activity is the investment of cash to acquire equity in or provide financing assistance as a licensed business and industrial development corporation to qualified Louisiana businesses in low-income communities and provides for an income and franchise tax credit for individuals and businesses that invest in LCDFIs. The credits are transferable and can be carried forward indefinitely. Any unused allocation of credits from a previous year may be carried forward and granted in the next year. For returns filed prior to July 1, 2015, the non-refundable credit is to be calculated as 75 percent of the investment. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is to be calculated as 54 percent of the investment.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

46. Inventory Tax/Ad Valorem Tax

A refundable tax credit is allowed for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the credit allowed is equal to 100 percent of the ad valorem taxes paid if the amount paid is less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75 percent of the excess credit over tax can be refunded with the remaining 25 percent carried forward for five years.

For returns filed on or after July 1, 2016:

- Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability.
- If the total amount eligible for the credit is less than or equal to $500,000, 100 percent of any excess credit is refundable, and for total eligible amounts above $500,000, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100 percent of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- The credit is nonrefundable for taxes paid on inventory by any manufacturer who claimed the property tax exemption under the Industrial Tax Exemption Program (ITEP) during the same year the inventory taxes were paid, and for taxes paid by any company related to such manufacturer on inventory that is related to the business of such manufacturer.

For tax periods beginning on or after January 1, 2016, certain property held by persons engaged in the short term rental of such items qualifies for the credit. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to LDR for at least one month within each of the first three quarters of calendar year 2020 and the total amount eligible for the credit is less than or equal to $1 million, 100 percent of any excess credit is refundable. Act 59 does not apply to any manufacturer who claimed the property tax exemption under ITEP during the same year the inventory taxes were paid.

For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to LDR for at least one month within each of the first three quarters of calendar year 2020 and the total amount eligible for the credit is less than or equal to $1 million, 100 percent of any excess credit is refundable. Act 59 does not apply to any manufacturer who claimed the property tax exemption under ITEP during the same year the inventory taxes were paid.
48. **Ad Valorem Tax on Offshore Vessels**

A refundable credit is allowed for ad valorem taxes paid on vessels that operate principally in Outer Continental Shelf Lands Act waters. To qualify for the credit, the taxpayer must certify to the assessor that the vessel operated principally in outer continental shelf waters within the calendar year immediately before the tax year of assessment of the vessel and the ad valorem tax must have been paid to the political subdivision without protest. However, for taxable periods beginning on or after January 1, 2018, a taxpayer who pays the ad valorem tax under protest must notify the Department of Revenue within five business days of the date that the lawsuit is filed. The credit is equal to 100 percent of the taxes paid.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit.

50. Purchases from Prison Industry Enhancement Contractors

For returns filed prior to July 1, 2015, a refundable credit is allowed for the state sales and use taxes paid on purchases of specialty apparel items from a Private Sector Prison Industry Enhancement (PIE) contractor. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, a credit is allowed for 72 percent of the state sales and use taxes paid on purchases of specialty apparel items from a PIE contractor. PIE contractors use inmate labor to produce items for sale and then pay 30 percent of the salary paid to the inmates back to the state.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

51. LA Citizens Property Insurance Corporation Assessment

A refundable credit is allowed for the amount of surcharges, market equalization charges, or assessments paid as a result of the assessments levied by the Louisiana Citizens Property Insurance Corporation due to Hurricanes Katrina and Rita. This credit is available to taxpayers who paid the assessments as a part of their property’s insurance premium. For returns filed prior to July 1, 2015, the credit is equal to 100 percent of the assessment paid.

For returns filed on or after July 1, 2015, the credit is for 72 percent of the assessment paid. For taxable periods beginning on or after January 1, 2016, the credit is 25 percent.

A taxpayer can claim the credit after payment is made on a form provided by the secretary instead of on their Louisiana income tax return.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

52. Solar Energy System

As of January 1, 2017, a refundable credit is allowed for taxpayers who purchased and installed, through a lease with the residence owner, a solar electric system at a single-family detached residence located in the state. Only one credit is allowed per residence including prior installations for which a credit was received. The credit is equal to 38 percent of the first $20,000 of the cost of such system. For the purpose of determining the amount of the credit on leased systems, the cost of a system is limited to no more than $2 per watt. Since the system is limited to providing for no more than six kilowatts of energy, the maximum credit base for leased systems is $12,000. The credit may be used in addition to any federal tax credits earned for the same system, except that, a taxpayer may not receive any other state tax credit, exemption, exclusion, deduction, or any other tax benefit for property for which a tax credit has been received under this Section. Only one tax credit is available for any eligible system and use of the credit must be disclosed when the property is sold.

The cap on the credit for non-leased systems has been reached for FYE 6-16, 6-17 and 6-18. The cap on the credit for leased systems has been reached for FYE 6-15. Act 413 of the 2017 Regular Session provides for payment of solar tax credit claims in annual installments for eligible taxpayers who were denied or would have been denied as a result of the credit cap provisions imposed by Act 131 of the 2015 Regular Session. The annual installments will be paid in equal parts over three fiscal years beginning in FYE 6-18 and ending in FYE 6-20.

53. Milk Producers

A refundable credit is allowed for resident taxpayers engaged in the business of producing milk for sale. The credit is allowed when the USDA Uniform Price in Federal Order Number 7 drops below the announced production price established by the Department of Agriculture and Forestry at any time during the calendar year. Qualified taxpayers are eligible for tax credits based on the production and sale of milk below the announced production price over a calendar year.

The Department of Health must certify to the Department of Revenue, by January 31 of the following year, which milk producers are eligible to receive the credits. Any producer not certified by the Department of Health will not be entitled to the credits. For returns filed prior to July 1, 2015, the credits allowed for each milk producer may not exceed $30,000 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $2.5 million per calendar year. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credits allowed for each milk producer may not exceed $21,600 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $1.8 million per calendar year.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

54. Conversion of Vehicles to Alternative Fuel

A refundable credit is allowed for the cost of the qualified clean burning motor vehicle fuel property for the taxable period in which the property is purchased and installed provided the motor vehicle is registered in Louisiana. The purpose of this credit is to provide an incentive to persons or corporations to invest in qualified clean-burning motor vehicle fuel property.

For returns filed prior to July 1, 2015, the credit is for 50 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified clean burning motor vehicle fuel property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 10 percent of the cost of the motor vehicle or $3,000, whichever is less.

For purchases made July 1, 2015 through June 21, 2017, the credit is for 36 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 7.2 percent of the cost of the motor vehicle or $1,500, whichever is less.

For purchases installed in a vehicle conversion or building of fueling stations after June 21, 2017, the credit is 30 percent of the cost. For qualifying new vehicle purchased on or before June 26, 2017, but before June 26, 2017, the credit is for 7.2 percent of the cost of the qualified vehicle or $1,500, whichever is less. For qualifying new vehicle purchased on or after June 26, 2017, the credit is equal to 10 percent of the cost of the qualified vehicle or $2,500, whichever is less. For all purchases of qualified clean-burning motor fuel property on or after January 1, 2018, the credit is non-refundable.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

The School Readiness Tax Credits are a comprehensive effort to support Quality Start, a voluntary, quality rating system by the Department of Education for child care centers through tax breaks to families, child care providers, child care teachers and directors, as well as businesses that support child care.

A refundable credit is allowed for a taxpayer whose business pays fees and grants to child care resource and referral agencies. These are private agencies that contract with the Department of Education to provide important information and services to parents and child care providers. The credit is equal to the amount donated but cannot exceed $5,000 per tax year.

58. COVID-19 Pandemic ATC License

A refundable credit is allowed for the amount of the 2020 annual state license and permit fees imposed by Alcohol and Tobacco Control (“ATC”) paid by a business such as a bar that is licensed to sell or serve alcoholic beverages for consumption on their premises by paying customers.

The credit is equal to the amount paid for the annual state license and permit fees that is attributable to any calendar month, or fraction thereof, during 2020 that the permit holder was required to temporarily close operations pursuant to Proclamation Number 30 JBE 2020, or any subsequent proclamation declaring the existence of a statewide COVID-19 public health emergency. For purposes of this credit, a business qualifies for the credit for the months they were not able to exercise their ATC permit to sell alcohol.

Fiduciary Income Tax Exemptions
{ Introduction }

Louisiana's fiduciary income tax was first imposed in 1934. In 1996, the Louisiana Legislature enacted legislation to conform Louisiana income tax laws on estates and trusts to the Internal Revenue Code for purposes of simplifying preparation and filing of returns as well as to improve enforcement and aiding in the interpretation of the income tax law. Resident estates and trusts with income from whatever source derived must file a fiduciary income tax return in Louisiana. Nonresident estates and trusts must file a fiduciary income tax return in Louisiana if they have income earned within or derived from sources within the state.

Like other states that impose a fiduciary income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Louisiana taxable income is a modified federal taxable income less federal income taxes paid for tax periods beginning before January 1, 2022, and a modified federal taxable income for tax periods beginning on or after January 1, 2022.

Any resident or nonresident estate or trust required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year.

Tax Base
For tax periods beginning before January 1, 2022, the tax base is comprised of federal taxable income less federal income taxes paid with adjustments for other modifications to federal taxable income. For tax periods beginning on or after January 1, 2022, the tax base is comprised of federal taxable income with adjustments for other modifications to federal taxable income.

Tax Rate
For tax periods beginning before January 1, 2022, the tax is assessed on the taxable base at a rate of 2% on the first $10,000 of Louisiana taxable income, 4% on the next $40,000 of Louisiana taxable income and 6% on Louisiana taxable income in excess of $50,000. For tax periods beginning on or after January 1, 2022, the tax is assessed on the taxable base at a rate of 1.85% on the first $10,000 of Louisiana taxable income, 3.5% on the next $40,000 of Louisiana taxable income and 4.25% on Louisiana taxable income in excess of $50,000.

Types of Tax Exemptions
Fiduciary income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to fiduciary income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section.

Significant Changes
2021 Regular Legislative Session
Act 378 creates a non-refundable income tax credit for certain donations made by taxpayers to a qualified foster care organization during a taxable year. Effective for taxable periods beginning on or after January 1, 2022.

Act 385 accelerates the sunset date from January 1, 2022 to July 1, 2021 for the cost of qualified clean-burning motor-fuel property which is related to a conversion of a motor fuel vehicle propelled by gasoline or diesel to a motor vehicle propelled by an alternative fuel or the purchase of a new vehicle originally equipped to be propelled by an alternative fuel. Effective July 1, 2021.

Act. 395 changes the imposed rates for both individual and fiduciary taxpayers from 2%, 4% and 6% to 1.85%, 3.5%, and 4.25%, respectively, as well as repeals the statutory deduction for federal taxes paid. In addition, Act No. 395 limits the individual deduction for excess itemized deductions to the amount of the itemized expense for medical care which exceeds the standard deduction.

Act 395 also contains a trigger, which automatically reduces the imposed rates by a percentage of individual collections in excess of the growth factor (calculated as collections for Fiscal Year 2018-19, adjusted annually by the growth factor, as provided in Article VII, Section 10(C) of the Constitution.) The trigger is activated only when numerous benchmarks are met, including: 1.) The prior year's actual total tax, licenses, and fees exceed the actual total tax, licenses and fees for Fiscal Year 2018-19, adjusted annually by the growth factor; and 2.) the Budget Stabilization Fund balance as determined by the Treasurer is at least 2.5 % of the total state revenue receipts from the prior fiscal year. Effective January 1, 2022.

{ Introduction }

Act 453 creates the Louisiana Work Opportunity Tax Credit, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires an eligible re-entrant. “Eligible re-entrant” means an inmate or former inmate who is eligible to participate and is actively participating in a work release program provided for in R.S. 15:11, 1111, 1199.9, or 1199.10 and meets all of the criteria provided for in R.S. 15:1199.7. The credit is equal to 5% of the total wages paid to an eligible re-entrant in an eligible job for twelve consecutive months following release of the eligible re-entrant from imprisonment. The credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Dept. of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant and the credit may be carried forward for a period not to exceed 5 years. Credit is effective for employment of eligible re-entrants with a release date occurring on or after January 1, 2021. Effective June 23, 2021.

Act 454 creates the Louisiana Youth Jobs Tax Credit Program, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires one or more eligible youths on or after July 1, 2021. “Eligible youths” means an individual who has attained the age of 16 but has not yet attained the age of 24, is unemployed prior to being hired by a business applying for the credit, will be working full-time or part-time that pays wages that are equivalent to the wages paid for similar jobs, with adjustments for experience or training, and meets at least one of other enumerated criteria. The credit is equal to $1,250 for each eligible youth hired in a full-time position and $750 for each eligible youth hired in a part-time position. The credit is capped at $5 million per calendar year. Effective June 23, 2021.

Act 454 also creates the Apprenticeship Tax Credit, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires an eligible apprentice. An “Eligible Apprentice” means: 1.) a person who has entered into a written apprenticeship agreement with an employer or an association of employers pursuant to a registered apprenticeship program provide for in Chapter 4 of Title 23 of LA Revised Statutes of 1950; or 2.) is enrolled in a training program accredited by the National Center for Construction Education and Research which has no less than four levels of training and no less than 500 hours of instruction. For each eligible apprentice employed for a minimum of 250 hours, the credit is equal to $1.25 per hour of employment for a maximum credit of $1,250 per eligible apprentice. The credit is applicable to taxable periods beginning after December 31, 2021 and may be carried forward for a period no to exceed 5 years. The credit is capped at $2 million dollars per calendar year. Effective June 23, 2021.

SCR 49 requires a joint report by LDR and DOE on the Donations to School Tuition Organization credit, rebate, and scholarships to the Senate committees on education, revenue and fiscal affairs, and finance, and the House committees on education, ways and means, and appropriations.

**Estimated Fiscal Effect**
The Department is unable to estimate the fiscal effect; there were no deductions reported in the Fiscal Year 2020-21.
7. **Net Income Taxes Paid to Other States**

For returns filed prior to July 1, 2015, a non-refundable credit is allowed for net income taxes paid to other states. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is limited to the amount of Louisiana income tax that would have been imposed if the income earned in the other state had been earned in Louisiana and is not allowed for income taxes paid to a state that allows nonresidents a credit against the income taxes imposed by that state for taxes paid or payable to the state of residence. The provisions for returns filed on or after July 1, 2015, are effective through tax year 2023.

Starting with tax year 2018, the credit is calculated by multiplying a taxpayer’s Louisiana income tax liability by a ratio, the numerator of which is the taxpayer’s Louisiana tax table income attributable to other states on which tax has been paid, and the denominator of which is the taxpayer’s total Louisiana tax table. The purpose of this credit is to allow taxpayers to deduct the income tax paid to other states on income also taxed by Louisiana, so as not to subject the taxpayer to double taxation.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

8. **Contribution of Tangible Property of a Sophisticated & Technological Nature to Educational Institutions**

A non-refundable credit is allowed for contributions of tangible property of a sophisticated and technological nature to educational institutions. For returns filed prior to July 1, 2015, the credit allowed is 40 percent of the property's value, or, in the case of sales below cost, 40 percent of the difference between the price received and the property's value, subject to the limitations prescribed in the statute. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit allowed is for 29 percent, subject to the limitations prescribed in the statute. The purpose of this credit is to allow a tax credit to corporations, persons, estates, and trusts that donate, sell below cost, or contribute properties of a sophisticated and technological nature to educational institutions in the state of Louisiana. If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

**Legal Citation**

**Sunset Date**

December 31, 2019

**Beneficiaries**

Educational institutions, students, teachers, the state as a whole, and donors who make a contribution of equipment

**Estimated Fiscal Effect**

This credit sunsets December 31, 2019. No activity is anticipated.
9. **Certain Refunds Issued by Utilities**

Refunds made by utility companies, resulting from denial of rate increases, may be credited against gross income. If a deduction from gross income would result in a net loss, the utility company may elect to take a non-refundable credit subject to certain limitations. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is equal to 72 percent of the income tax increase. The purpose of this credit is to accurately reflect the utility company’s gross income.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years during calendar years 2017, 2018, and 2019.

**Legal Citation**
R.S. 47:265, R.S. 47:287.664

**Origin**

**Effective Date**
1960

**Beneficiaries**
Utility companies making refunds under these circumstances

**Estimated Fiscal Effect**
The effects of this credit have been replaced by the provisions of the net operating loss statute. (See R.S. 47:287.86.) Therefore, as long as $287.86 is valid there should be no fiscal effect.

10. **Louisiana Work Opportunity**

A nonrefundable credit is allowed for a business that hires an eligible re-entrant. “Eligible re-entrant” means an inmate or former inmate who is eligible to participate and is actively participating in a work release program provided for in R.S. 15:11, 1111, 1199.9, or 1199.10 and meets all of the criteria provided for in R.S. 15:1199.7. The credit is equal to 5% of the total wages paid to an eligible re-entrant in an eligible job for twelve consecutive months following release of the eligible re-entrant from imprisonment. The credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Dept. of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant and the credit may be carried forward for a period not to exceed 5 years.

26. Inventory Tax/Ad Valorem Tax

A refundable tax credit is allowed for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the credit allowed is equal to 100 percent of the ad valorem taxes paid if the amount paid is less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75 percent of the excess credit over tax can be refunded with the remaining 25 percent carried forward for five years.

For returns filed on or after July 1, 2016:

- Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability.

- If the total amount eligible for the credit is less than or equal to $500,000, 100 percent of any excess credit is refundable, and for total eligible amounts above $500,000, 75 percent of any excess credit up to a maximum of $750,000 is refundable.

- For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100 percent of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75 percent of any excess credit up to a maximum of $750,000 is refundable.

- The credit is nonrefundable for taxes paid on inventory by any manufacturer who claimed the property tax exemption under the Industrial Tax Exemption Program (ITEP) during the same year the inventory taxes were paid, and for taxes paid by any company related to such manufacturer on inventory that is related to the business of such manufacturer.

For tax periods beginning on or after January 1, 2016, certain property held by persons engaged in the short term rental of such items qualifies for the credit. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. 32. Solar Energy System

As of January 1, 2017, a refundable credit is allowed for taxpayers who purchased and installed, through a lease with the residence owner, a solar electric system at a single-family detached residence located in the state. Only one credit is allowed per residence including prior installations for which a credit was received. The credit is equal to 38 percent of the first $20,000 of the cost of such system. For the purpose of determining the amount of the credit on leased systems, the cost of a system is limited to no more than $2 per watt. Since the system is limited to providing for no more than six kilowatts of energy, the maximum credit base for leased systems is $12,000. The credit may be used in addition to any federal tax credits earned for the same system, except that, a taxpayer may not receive any other state tax credit, exemption, inclusion, deduction, or any other tax benefit for property for which a tax credit has been received under this Section. Only one tax credit is available for any eligible system and use of the credit must be disclosed when the property is sold.

The cap on the credit for non-leased systems has been reached for FYE 6-16, 6-17 and 6-18. The cap on the credit for leased systems has been reached for FYE 6-15. Act 413 of the 2017 Regular Session provides for payment of solar tax credit claims in annual installments for eligible taxpayers who were denied or would have been denied as a result of the credit cap provisions imposed by Act 131 of the 2015 Regular Session. The annual installments will be paid in equal parts over three fiscal years beginning in FYE 6-18 and ending in FYE 6-20.

33. Milk Producers

A refundable credit is allowed for resident taxpayers engaged in the business of producing milk for sale. The credit is allowed when the USDA Uniform Price in Federal Order Number 7 drops below the announced production price established by the Department of Agriculture and Forestry at any time during the calendar year. Qualified taxpayers are eligible for tax credits based on the production and sale of milk below the announced production price over a calendar year.

The Department of Health must certify to the Department of Revenue, by January 31 of the following year, which milk producers are eligible to receive the credits. Any producer not certified by the Department of Health will not be entitled to the credits. For returns filed prior to July 1, 2015, the credits allowed for each milk producer may not exceed $30,000 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $2.5 million per calendar year. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credits allowed for each milk producer may not exceed $21,600 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $1.8 million per calendar year.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

34. Conversion of Vehicles to Alternative Fuel

A refundable credit is allowed for the cost of the qualified clean burning motor vehicle fuel property for the taxable period in which the property is purchased and installed provided the motor vehicle is registered in Louisiana. The purpose of this credit is to provide an incentive to persons or corporations to invest in qualified clean-burning motor vehicle fuel property.

For returns filed prior to July 1, 2015, the credit is for 50 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified clean burning motor vehicle fuel property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 10 percent of the cost of the motor vehicle or $3,000, whichever is less.

For purchases made July 1, 2015 through June 21, 2017, the credit is for 36 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 7.2 percent of the cost of the motor vehicle or $1,500, whichever is less.

For purchases installed in a vehicle conversion or building of fueling stations after June 21, 2017, the credit is 30 percent of the cost. For qualifying new vehicle purchased on or after June 22, 2017, but before June 26, 2017, the credit is for 7.2 percent of the cost of the qualified vehicle or $1,500, whichever is less. For qualifying new vehicle purchased on or after June 26, 2017, the credit is equal to 10 percent of the cost of the qualified vehicle or $2,500, whichever is less. For all purchases of qualified clean-burning motor fuel property on or after January 1, 2018, the credit is non-refundable.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

35. **COVID-19 Pandemic ATC License**

A refundable credit is allowed for the amount of the 2020 annual state license and permit fees imposed by Alcohol and Tobacco Control ("ATC") paid by a business such as a bar that is licensed to sell or serve alcoholic beverages for consumption on their premises by paying customers.

The credit is equal to the amount paid for the annual state license and permit fees that is attributable to any calendar month, or fraction thereof, during 2020 that the permit holder was required to temporarily close operations pursuant to Proclamation Number 30 JBE 2020, or any subsequent proclamation declaring the existence of a statewide COVID-19 public health emergency. For purposes of this credit, a business qualifies for the credit for the months they were not able to exercise their ATC permit to sell alcohol.

36. **Donations to School Tuition Organization**

A rebate is available for taxpayers who donate to certain school tuition organizations (STO). In order to qualify to receive the rebate the taxpayer must file an income tax return with LDR. The rebate is equal to the amount of the donation used by the STO to fund a scholarship, not including any administrative costs paid by the donation. Rebates will be claimed and paid after the conclusion of the school year after receiving certification by the STO and the Department of Education.

Act 377 of the 2017 Legislative Session changed the rebate to a non-refundable credit for donations made on or after January 1, 2018.

Individual Income Tax Exemptions
Individual Income Tax

{ Introduction }

Louisiana’s individual income tax was first imposed in 1934. The tax is assessed on a resident individual’s income derived from all sources and a nonresident individual’s income derived from Louisiana sources. Resident individuals are allowed a credit for income tax paid to other states on income that is also taxed by Louisiana.

Like other states that impose a personal income tax, Louisiana closely follows the federal system utilizing the federal definition of income and deductions with certain modifications. Louisiana tax-table income is a modified federal adjusted gross income less federal income taxes paid for tax periods beginning before January 1, 2022, and a modified federal adjusted gross income for tax periods beginning on or after January 1, 2022.

The income tax base is partially diminished by a combined personal exemption/standard deduction of $4,500 for single filers and married taxpayers filing separately or $9,000 for married taxpayers filing jointly, head-of-household filers, and qualifying widowers. Additional $1,000 deductions are given for each dependent and each taxpayer who is blind or 65 years of age or older.

Any resident, nonresident, or part-year resident required to file a tax return must do so by the fifteenth day of the fifth month after the close of their taxable year.

Tax Base
For tax periods beginning before January 1, 2022, the tax base is comprised of federal adjusted gross income less federal income tax and the portion of federal itemized deductions that were in excess of the federal standard deduction with adjustments for other modifications to federal adjusted gross income.

For tax periods beginning on or after January 1, 2022, the tax base is comprised of federal adjusted gross income less the portion of federal itemized deductions for medical expenses that were in excess of the federal standard deduction with adjustments for other modifications to federal adjusted gross income.

Types of Tax Exemptions
Individual income tax exemptions are in the form of exemptions/exclusions, deductions, and credits. Exemptions/exclusions generally mean a specific item of income that is not included in taxable income. Deductions are generally defined as a reduction in net income to arrive at taxable income. Credits are generally defined as a reduction to the amount of tax due. All exemptions related to individual income tax are contained in this report.

The federal income tax deduction, although a statutory deduction, is also required by the state constitution. Repeal of this deduction requires a vote of the people. For this reason, this deduction has been separated from the other exemptions and appears at the end of this section.
Individual Income Tax

{ Introduction }

Significant Changes
2021 Regular Legislative Session

Act 3 provides a checkoff on individual income tax returns to designate a donation of all or part of the tax refund amount to the Sexual Trauma Awareness and Response (STAR) organization.

Act 52 creates a deduction from state income tax for deposits made to a Louisiana Student Tuition Assistance and Revenue Trust K12 Program in the amount of $1,200 per account for single filers and $2,400 per account for joint filers. Effective for taxable periods beginning on or after January 1, 2022.

Act 54 provides an exemption from individual and corporation income tax for all COVID-19 relief benefits received by a taxpayer. “COVID-19 relief benefits” means any gratuitous grant, loan, rebate, tax credit, advance refund, or other qualified disaster relief benefit directly or indirectly provided to a taxpayer by the state or federal government including but not limited to benefits provided pursuant to the Coronavirus Aid, Relief, and Economic Security Act, the Taxpayer Certainty and Disaster Relief Act, the COVID-Related Tax Relief Act, the Consolidated Appropriations Act of 2021, the State Coronavirus Relief Program, the Coronavirus Local Recovery Allocation Program, the Louisiana Main Street Recovery Program, the Critical Infrastructure Worker’s Hazard Pay Rebate, and pursuant to any other existing or subsequent state or federal COVID-19 relief legislation. A COVID-19 relief benefit does not include any unemployment compensation benefits provided to a taxpayer. Effective January 1, 2022.

Act 161 increases the state income tax exemption for members of the United States armed forces who performed services outside the state to $50,000 effective for taxable periods beginning on or after January 1, 2022.

Act 185 allows an exemption of military survivor benefit plan payments made to a surviving spouse or other plan named beneficiary from state income tax. Effective for taxable periods beginning on or after January 1, 2022.

Act 228 provides a checkoff on individual income tax returns to designate a donation of all or part of the tax refund amount to the Board of Supervisors of Louisiana State University and Agricultural and Mechanical College for the Louisiana State University Agricultural Center Grant Walker Educational Center (4-H Camp Grant Walker).

Act 285 adds a requirement that service recipients who are required to file Forms 1099-NEC with the IRS must file copies of any Forms 1099-NEC issued for services provided in Louisiana to the Department of Revenue. This bill also provides an exception to R.S. 47:1508 to allow LDR to share the Form 1099-NECs with DCFS for purposes of child support enforcement.

Act 287 authorizes a partnership to report and pay any taxes assessed either as a result of a federal adjustment arising from an IRS audit or other action by the IRS at the partnership level, rather than the partner level. The partnership can also request a refund of an overpayment of tax arising from final federal adjustments. In addition, authorizes the Department to adopt similar procedures for purposes of state tax. The bill allows both corporations and partnerships to make estimated tax payments due to federal audit. It also changes the due date for the partnership return and requires all partnerships to file the return with LDR. Effective June 14, 2021.

Act 296 extends the disaster loss relief of increasing an individual’s federal income tax deduction provided for under existing law to those who use the standard deduction on federal returns and adds Hurricane Zeta to the list of qualifying disasters.

Act 297 enacts the Fresh Start Proper Worker Classification Initiative which is a 1-year program which allows employers who have been misclassifying a certain class or classes of workers to voluntarily reclassify those workers as employees without liability for any previous withholding or unemployment taxes or penalties. The employer must have consistently treated the class or classes of workers as nonemployees for the previous 3 years, and must have filed any required Forms 1099-NEC with the IRS to qualify.

Act 297 also enacts a voluntary disclosure program specifically for withholding taxes and unemployment taxes. The provisions are substantially the same as the Department of Revenue’s current voluntary disclosure program except that the look-back period is the current calendar year up to the date of registration with the Department of Revenue and Louisiana Workforce Commission, and the one immediately preceding calendar year. Additionally, the applicant must obtain workers compensation coverage for his employees and provide proof as part of his application. The Act provide for safe harbor provisions for withholding tax audits.

Act 378 creates a non-refundable income tax credit for certain donations made by taxpayers to a qualified foster care organization during a taxable year. Effective for taxable periods beginning on or after January 1, 2022.

Act 378 creates a deduction of $5,000 from taxable income for a taxpayer who adopts an unrelated infant who is less than one

year of age through a private agency, as defined in Children's Code Article 1169(1), or an unrelated infant who is less than one year of age through an attorney. The deduction is in lieu of the deduction for dependents under R.S. 47:294(B). Effective for taxable periods beginning on or after January 1, 2022.

Act 378 creates a deduction of $5,000 from taxable income for a taxpayer who adopts a child who is in foster care, as defined in Children's Code Article 603, or a youth receiving extended foster care services pursuant to the Extended Foster Care Program Act. The deduction is in lieu of the deduction for dependents under R.S. 47:294(B). Effective for taxable periods beginning on or after January 1, 2022.

Act 383 eliminates the requirement for employers to withhold taxes and report income earned by nonresident employees who performed their duties within the state of Louisiana for 25-days or fewer during a calendar year; with the exception of professional athletes, staff members of a professional athletic team, professional entertainers, public figures, or qualified production employees. The act also provides an exemption for the employee for the income earned in the 25 days. Furthermore, if a nonresident employee performs their duties in the state of Louisiana for more than 25-days then the employer is again required to withhold and report income for the entire period that the employee performed work in the state of Louisiana. Effective for taxable periods beginning on or after January 1, 2022.

Act 385 accelerates the sunset date from January 1, 2022 to July 1, 2021 for the cost of qualified clean-burning motor-fuel property which is related to a conversion of a motor fuel vehicle propelled by gasoline or diesel to a motor vehicle propelled by an alternative fuel or the purchase of a new vehicle originally equipped to be propelled by an alternative fuel. Effective July 1, 2021.

Act 387 allows digital nomads who meet the requirements under R.S. 47:297.16(B)(5) to exclude 50% of their gross wages, not to exceed $150,000, from the state income tax. The taxpayer will only be allowed to claim the exemption for two taxable years beginning with tax year 2022 and ending with tax year 2025. Effective June 16, 2021.

Act 395 changes the imposed rates for both individual and fiduciary taxpayers from 2%, 4% and 6% to 1.85%, 3.5%, and 4.25%, respectively, as well as repeals the statutory deduction for federal taxes paid. In addition, Act No. 395 limits the individual deduction for excess itemized deductions to the amount of the itemized expense for medical care which exceeds the standard deduction.

Act 395 also contains a trigger, which automatically reduces the imposed rates by a percentage of individual collections in excess of the growth factor (calculated as collections for Fiscal Year 2018-19, adjusted annually by the growth factor, as provided in Article VII, Section 10(C) of the Constitution.) The trigger is activated only when numerous benchmarks are met, including: 1.) The prior year’s actual total tax, licenses, and fees exceed the actual total tax, licenses and fees for Fiscal Year 2018-19, adjusted annually by the growth factor; and 2.) the Budget Stabilization Fund balance as determined by the Treasurer is at least 2.5 % of the total state revenue receipts from the prior fiscal year. Effective January 1, 2022.  

Act 435 creates the Louisiana Work Opportunity Tax Credit, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires an eligible re-entrant. “Eligible re-entrant” means an inmate or former inmate who is eligible to participate and is actively participating in a work release program provided for in R.S. 15:11, 1111, 1199.9, or 1199.10 and meets all of the criteria provided for in R.S. 15:1199.7. The credit is equal to 5% of the total wages paid to an eligible re-entrant in an eligible job for twelve consecutive months following release of the eligible re-entrant from imprisonment. The credit is limited to $2,500 per eligible re-entrant and is earned upon certification from the Dept. of Public Safety and Corrections or the applicable sheriff. Only one credit may be earned per eligible re-entrant and the credit may be carried forward for a period not to exceed 5 years. Credit is effective for employment of eligible re-entrants with a release date occurring on or after January 1, 2021. Effective June 23, 2021.

Act 454 creates the Louisiana Youth Jobs Tax Credit Program, which authorizes a nonrefundable income and corporation franchise tax credit for a business that hires one or more eligible youths on or after July 1, 2021. “Eligible youths” means an individual who has attained the age of 16 but has not yet attained the age of 24, is unemployed prior to being hired by a business applying for the credit, will be working full-time or part-time that pays wages that are equivalent to the wages paid for similar jobs, with adjustments for experience or training, and meets at least one of other enumerated criteria. The credit is equal to $1,250 for each eligible youth hired in a full-time position and $750 for each eligible youth hired in a part-time position. The credit is capped at $5 million per calendar year. Effective June 23, 2021.
Act 454 also creates the Apprenticeship Tax Credit, which authorizes a nonrefundable income and corporation franchise tax for a business that hires an eligible apprentice. An “Eligible Apprentice” means: 1.) a person who has entered into a written apprenticeship agreement with an employer or an association of employers pursuant to a registered apprenticeship program provide for in Chapter 4 of Title 23 of LA Revised Statutes of 1950; or 2.) is enrolled in a training program accredited by the National Center for Construction Education and Research which has no less than four levels of training and no less than 500 hours of instruction. For each eligible apprentice employed for a minimum of 250 hours, the credit is equal to $1.25 per hour of employment for a maximum credit of $1,250 per eligible apprentice. The credit is applicable to taxable periods beginning after December 31, 2021 and may be carried forward for a period no to exceed 5 years. The credit is capped at $2 million dollars per calendar year. Effective June 23, 2021.

Act 467 creates a refundable credit of $2,000 for taxpayers who have undergone delivery of a stillborn child. Effective for taxable periods beginning on or after January 1, 2022.

Act 470 creates a refundable credit for funeral expenses paid, not to exceed $5,000. The credit is claimed by the estate of the deceased person, or, if the estate of the deceased person does not claim the credit, the individual who actually paid the reasonable funeral and burial expenses. Effective for taxable periods beginning on or after January 1, 2022.

SCR 49 requires a joint report by LDR and DOE on the Donations to School Tuition Organization credit, rebate, and scholarships to the Senate committees on education, revenue and fiscal affairs, and finance, and the House committees on education, ways and means, and appropriations.

22. START Savings Program Contribution

Relative to the Student Tuition Assistance and Revenue Trust Program, the amount an owner deposits into an education savings account shall be deducted from taxable income up to a maximum of $2,400 per account owned per taxable year for account owners filing single returns and up to a maximum of $4,800 per beneficiary per taxable year for account owners filing joint returns. An individual may designate on his income tax return that any part of his income tax refund be deposited into the fund. Any funds withdrawn from the account to pay expenses other than qualified higher education expense as defined in R.S. 17:3092(10) are included in taxable income. The law was amended in 2001 to allow for the difference between the total deposited, if less than the maximum and $2,400 to be carried forward to subsequent years.

23. I.R.C. Section 280C Expense

A deduction is allowed for any expenses that are disallowed under I.R.C. Section 280C. For federal purposes, taxpayers cannot claim certain tax credits and deduct certain expenses associated with those credits. I.R.C. Section 280C requires a taxpayer who elects to claim certain credits that are based on an expense to reduce the federal deduction for the expense by the dollar amount of the credit claimed. This deduction allows the taxpayer to reduce their federal adjusted gross income by the amount of the deduction that was disallowed for federal income tax purposes.

33. COVID-19 Educational Expenses

Residents with dependents attending a public elementary or secondary school, a nonpublic elementary or secondary school which complies with the criteria set forth in Brumfield, et al. v. Dodd, et al. 425 F. Supp. 528 and Section 501(c)(3) of the Internal Revenue Code, or any public elementary or secondary laboratory school operated by a public college or university are allowed a deduction for educational coaching services paid or incurred by a taxpayer between March 13, 2020, and Dec. 31, 2020, as a result of the COVID-19 pandemic. The deduction is allowed for a child who was claimed as a dependent on the current or prior year’s tax return and is equal to the actual amount paid, limited to $5,000 per child.

The “in-person facilitator of virtual education” is an individual that provided in-person instruction or assistance to one or more elementary or secondary school students. The facilitator must have been at least 18 years of age at the time the coaching services were provided or, if not 18 years of age at the time the services were provided, have graduated from high school. The facilitator cannot be the taxpayer, the taxpayer’s spouse, the child of the taxpayer, the spouse of the taxpayer’s children, the taxpayer’s brothers, sisters or their spouses, the taxpayer’s parents, or the parents of the taxpayer’s spouse.

Expenses for this deduction cannot also be used for the Elementary and Secondary School Tuition deduction, Educational Expenses for Home-Schooled Children deduction, Educational Expenses for a Quality Public Education deduction, or the Child Care credit.

36. **Net Income Taxes Paid to Other States**

For returns filed prior to July 1, 2015, a non-refundable credit is allowed for net income taxes paid to other states. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is limited to the amount of Louisiana income tax that would have been imposed if the income earned in the other state had been earned in Louisiana and is not allowed for income taxes paid to a state that allows nonresidents a credit against the income taxes imposed by that state for taxes paid or payable to the state of residence. The provisions for returns filed on or after July 1, 2015 are effective through tax year 2023.

Starting with tax year 2018, the credit is calculated by multiplying a taxpayer’s Louisiana income tax liability by a ratio, the numerator of which is the taxpayer’s Louisiana tax table income attributable to other states on which tax has been paid, and the denominator of which is the taxpayer’s total Louisiana tax table. The purpose of this credit is to allow taxpayers to deduct the income tax paid to other states on income also taxed by Louisiana, so as not to subject the taxpayer to double taxation.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

37. **Contribution of Tangible Property of a Sophisticated & Technological Nature to Educational Institutions**

A non-refundable credit is allowed for contributions of tangible personal property of a sophisticated and technological nature to educational institutions. For returns filed prior to July 1, 2015, the credit allowed is 40 percent of the property’s value, or, in the case of sales below cost, 40 percent of the difference between the price received and the property’s value, subject to the limitations prescribed in the statute. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit allowed is for 29 percent, subject to the limitations prescribed in the statute. The purpose of this credit is to allow a tax credit to corporations, persons, estates, and trusts that donate, sell below cost, or contribute properties of a sophisticated and technological nature to educational institutions in the state of Louisiana.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

40. **Special Allowable Credits**

A non-refundable credit is allowed for a percentage of certain federal income tax credits. Beginning in 1975, the use of federal tax as an entry into state tax tables gave taxpayers benefit of the following credits:

- credit for contributions to candidates for public office
- credit for the elderly
- investment credit
- foreign tax credit
- work incentive credit
- jobs credit
- residential energy credit

In 1980, the method was changed to use federal adjusted gross income to calculate the amount of tax due. Because the change eliminated federal tax credits, this provision was enacted. Beginning in 1986, the credit is equal to 10 percent, limited to $25. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is 7.2 percent, limited to $18.

For taxable periods beginning on or after January 1, 2017, the credit is equal to 7 percent, limited to $18. The purpose of this credit is to allow some of the federal credits to also be applied against the state tax liability.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

41. **Education**

A non-refundable credit is allowed for each qualified dependent child who was in school in kindergarten through 12th grade at least part of the year. This credit enacted in 1980, was suspended beginning with the tax year 1986 through tax year 1995. The credit was again suspended beginning with the tax year 2000 through tax year 2005.

Until the end of FYE 6-15, the credit is equal to $25 per qualified dependent child. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is equal to $18. Starting with tax year 2015, the credit is limited to Louisiana residents for dependents attending school in Louisiana who does not claim the elementary and secondary school tuition deduction. The credit is sunsets and is no longer available starting with tax year 2017.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

42. Certain Child Care Expenses

Taxpayers are allowed a credit for a percentage of the federal child and dependent care credit taken on a resident’s federal income tax return. If a federal credit was not taken because of the alternative minimum tax, then no state credit is allowed because the Louisiana credit is based on the credits taken on the federal return.

The state child care tax credit is allowed as follows:

<table>

43. Gasoline & Special Fuels Taxes for Commercial Fisherman

A non-refundable credit is allowed for gasoline and special fuels taxes paid for operating or propelling any commercial fishing boat, if a refund of the taxes has not been received pursuant to R.S. 47:802.2 and R.S. 47:1681. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is equal to 72 percent of the gasoline and special fuels taxes. The purpose of this credit is to allow taxpayers additional time to obtain a refund of the taxes since under R.S. 47:802.2 and R.S. 47:1681 the refund application period is only six months.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

51. Accessible and Barrier-Free Constructed Home

A non-refundable credit is allowed for taxpayers who include accessible and barrier-free design elements in the construction of a new one- or two-family dwelling. The taxpayer must own the newly constructed one- or two-family dwelling and must qualify for and claim the homestead exemption on the home and the credit must be taken in the taxable year in which the construction of the dwelling is completed. Only one tax credit may be granted per dwelling. For tax years beginning before 2018, the credit is for the lesser of 72 percent of the tax due or $720.

Beginning with tax year 2018, the credit is for $5,000, or the cost of the construction of a new one- or two-family dwelling or the renovation of an existing dwelling, whichever is less. The taxpayer must own the newly constructed one- or two-family dwelling and must qualify for and claim the homestead exemption on the home. The taxpayer shall be allowed the credit in any case where there is a valid enforceable contract of a lease, as defined in Civil Code Article 2668, between the taxpayer and any individual who has a physical disability that requires or will require, the inclusion of accessible and barrier-free design elements in the dwelling and who occupies and resides in any portion of such dwelling pursuant to the terms of the contract of lease. The total amount of credits allowed in any calendar year may not exceed $500,000.

62. Purchase of Qualified Recycling Equipment

A non-refundable credit is allowed for the purchase of new recycling manufacturing or process equipment and/or qualified service contracts. If the equipment is sold before the total credit is claimed, the credit otherwise allowable may be claimed in the tax year of the sale and any unused credit is canceled for future periods.

The amount of the credit is computed at 20 percent of the cost of the equipment less other tax credits received for the purchase of the equipment, but may not exceed 50 percent of the tax liability before the credit for returns filed prior to July 1, 2015. Total credits certified by the secretary of the Department of Environment Quality in any calendar year shall not exceed five million dollars. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credit is allowed for 14.4 percent of the qualifying purchase or contract. For tax years beginning on or after January 1, 2017, the credit is allowed for 14 percent. The total credits certified in any calendar year shall not exceed $3.6 million.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer’s return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

76. Inventory Tax/Ad Valorem Tax

A refundable tax credit is allowed for ad valorem taxes paid to political subdivisions on inventory held by manufacturers, distributors, and retailers for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the credit allowed is equal to 100 percent of the ad valorem taxes paid if the amount paid is less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75 percent of the excess credit over tax can be refunded with the remaining 25 percent carried forward for five years.

For returns filed on or after July 1, 2016:

- Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability.
- If the total amount eligible for the credit is less than or equal to $500,000, 100 percent of any excess credit is refundable, and for total eligible amounts above $500,000, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100 percent of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- The credit is nonrefundable for taxes paid on inventory by any manufacturer who claimed the property tax exemption under the Industrial Tax Exemption Program (ITEP) during the same year the inventory taxes were paid, and for taxes paid by any company related to such manufacturer on inventory that is related to the business of such manufacturer.

For tax periods beginning on or after January 1, 2016, certain property held by persons engaged in the short term rental of such items qualifies for the credit. For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their inventory taxes paid in order to determine the amount of the excess credit that is refundable.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location

77. **Ad Valorem Tax on Natural Gas**

A refundable tax credit is allowed for the amount of ad valorem taxes paid to political subdivisions of Louisiana on natural gas held, used, or consumed in providing natural gas storage services or operating natural gas storage facilities for returns filed prior to July 1, 2015. For returns filed on or after July 1, 2015, but before July 1, 2016, regardless of the tax year to which it relates, the credit allowed is equal to 100 percent of the ad valorem taxes paid if the amount paid is less than $10,000. If the ad valorem taxes paid are $10,000 or more, only 75 percent of the excess credit over tax can be refunded with the remaining 25 percent carried forward for five years.

For returns filed on or after July 1, 2016:

- Groups of affiliated companies are required to be treated as one taxpayer for purposes of the limitations on refundability.
- If the total amount eligible for the credit is less than or equal to $500,000, 100 percent of any excess credit is refundable, and for total eligible amounts above $500,000, 75 percent of any excess credit up to a maximum of $750,000 is refundable.
- For new business entities formed or first registered to do business in Louisiana after April 15, 2016, if the total amount eligible for the credit is less than $10,000, 100 percent of any excess credit is refundable, and for total eligible amounts $10,000 or more, 75 percent of any excess credit up to a maximum of $750,000 is refundable.

For returns filed on or after July 1, 2017, only taxpayers that are included on the same consolidated federal income tax return are required to combine their taxes paid in order to determine the amount of the excess credit that is refundable.

For taxable years ending after December 31, 2020, the carryover period for the nonrefundable portion has increased from five (5) years to 10 years.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit. For the 2020 tax year only, taxpayers, including members included in a consolidated federal tax return that are treated as one taxpayer, who employed a minimum of 100 full-time employees at each location in the state for whom withholding tax was remitted to LDR for at least one month within each of the first three quarters of calendar year 2020 and the total amount eligible for the credit is less than or equal to $1 million, 100 percent of any excess credit is refundable. Act 59 does not apply to any manufacturer who claimed the property tax exemption under ITEP during the same year the inventory taxes were paid.
78. **Ad Valorem Tax on Offshore Vessels**

A refundable credit is allowed for ad valorem taxes paid on vessels that operate principally in Outer Continental Shelf Lands Act Waters. To qualify for the credit, the taxpayer must certify to the assessor that the vessel operated principally in outer continental shelf waters within the calendar year immediately before the tax year of assessment of the vessel and the ad valorem tax must have been paid to the political subdivision without protest. However, for taxable periods beginning on or after January 1, 2018, a taxpayer who pays the ad valorem tax under protest must notify the Department of Revenue within five business days of the date that the lawsuit is filed. The credit is equal to 100 percent of the taxes paid.

Taxpayers who make payment of ad valorem taxes after December 31, 2020, and before April 16, 2021, may elect to treat these payments as having been made on December 31, 2020, for purposes of the credit.

82. Solar Energy System

As of January 1, 2017, a refundable credit is allowed for taxpayers who purchased and installed, through a lease with the residence owner, a solar electric system at a single-family detached residence located in the state. Only one credit is allowed per residence including prior installations for which a credit was received. The credit is equal to 38 percent of the first $20,000 of the cost of such system. For the purpose of determining the amount of the credit on leased systems, the cost of a system is limited to no more than $2 per watt. Since the system is limited to providing for no more than six kilowatts of energy, the maximum credit base for leased systems is $12,000. The credit may be used in addition to any federal tax credits earned for the same system, except that, a taxpayer may not receive any other state tax credit, exemption, exclusion, deduction, or any other tax benefit for property for which a tax credit has been received under this Section. Only one tax credit is available for any eligible system and use of the credit must be disclosed when the property is sold.

The cap on the credit for non-leased systems has been reached for FYE 6-16, 6-17 and 6-18. The cap on the credit for leased systems has been reached for FYE 6-15. Act 413 of the 2017 Regular Session provides for payment of solar tax credit claims in annual installments for eligible taxpayers who were denied or would have been denied as a result of the credit cap provisions imposed by Act 131 of the 2015 Regular Session. The annual installments will be paid in equal parts over three fiscal years beginning in FYE 6-18 and ending in FYE 6-20.

83. Milk Producers

A refundable credit is allowed for resident taxpayers engaged in the business of producing milk for sale. The credit is allowed when the USDA Uniform Price in Federal Order Number 7 drops below the announced production price established by the Department of Agriculture and Forestry at any time during the calendar year. Qualified taxpayers are eligible for tax credits based on the production and sale of milk below the announced production price over a calendar year.

The Department of Health must certify to the Department of Revenue, by January 31 of the following year, which milk producers are eligible to receive the credits. Any producer not certified by the Department of Health will not be entitled to the credits. For returns filed prior to July 1, 2015, the credits allowed for each milk producer may not exceed $30,000 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $2.5 million per calendar year. For returns filed on or after July 1, 2015, regardless of the tax year to which it relates, the credits allowed for each milk producer may not exceed $21,600 per calendar year, and the total amount of tax credits allowed for all producers may not exceed $1.8 million per calendar year.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

84. Conversion of Vehicles to Alternative Fuel

A refundable credit is allowed for the cost of the qualified clean burning motor vehicle fuel property for the taxable period in which the property is purchased and installed provided the motor vehicle is registered in Louisiana. The purpose of this credit is to provide an incentive to persons or corporations to invest in qualified clean-burning motor vehicle fuel property.

For returns filed prior to July 1, 2015, the credit is for 50 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified clean burning motor vehicle fuel property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 10 percent of the cost of the motor vehicle or $3,000, whichever is less.

For purchases made July 1, 2015 through June 21, 2017, the credit is for 36 percent of the cost of the qualified property. If the taxpayer purchases a new motor vehicle equipped with qualified property and is unable to or elects not to determine the exact cost attributable to the property, the taxpayer may claim a credit equal to 7.2 percent of the cost of the motor vehicle or $1,500, whichever is less.

For purchases installed in a vehicle conversion or building of fueling stations after June 21, 2017, the credit is 30 percent of the cost. For qualifying new vehicle purchased on or after June 22, 2017, but before June 26, 2017, the credit is for 7.2 percent of the cost of the qualified vehicle or $1,500, whichever is less. For qualifying new vehicle purchased on or after June 26, 2017, the credit is equal to 10 percent of the cost of the qualified vehicle or $2,500, whichever is less. For all purchases of qualified clean-burning motor fuel property on or after January 1, 2018, the credit is non-refundable.

If a filing extension was granted prior to July 1, 2015, and the return filed after July 1, 2015, one-third of the reduced portion of the credit may be claimed on the taxpayer's return for each of the taxable years beginning during calendar years 2017, 2018, and 2019.

The School Readiness Tax Credits are a comprehensive effort to support Quality Start, a voluntary, quality rating system by the Department of Education for child care centers through tax breaks to families, child care providers, child care teachers and directors, as well as businesses that support child care.

Child care teachers and directors will be eligible for the refundable credit based on the level of their education if they teach in centers participating in Quality Start. As long as the center is participating in Quality Start, and therefore has at least one star, then the teachers and directors are eligible to apply for the credit. Eligible teachers and directors must meet all of the educational requirements and must have worked at least 6 months of the calendar year at the same child care center.

The credit is adjusted annually by the percentage increase in the Consumer Price Index United States city average for all urban consumers (CPI-U), as prepared by the United States Department of Labor, Bureau of Labor Statistics, as determined by the secretary of the Department of Revenue on December first of the preceding calendar year.

The School Readiness Tax Credits are a comprehensive effort to support Quality Start, a voluntary, quality rating system by the Department of Education for child care centers through tax breaks to families, child care providers, child care teachers and directors, as well as businesses that support child care.

A refundable credit is allowed for a taxpayer who incurs eligible business-supported child-care expenses. The credit amount depends upon the quality rating of the child care facility to which the expenses are related or the quality rating of the child care facility that the child attends. Eligible business-supported child-care expenses include expenses to construct, renovate, or expand a child care center, purchase equipment for a center, maintain or operate a center, or subsidize child care for their employees.

90. COVID-19 Pandemic ATC License

A refundable credit is allowed for the amount of the 2020 annual state license and permit fees imposed by Alcohol and Tobacco Control (“ATC”) paid by a business such as a bar that is licensed to sell or serve alcoholic beverages for consumption on their premises by paying customers.

The credit is equal to the amount paid for the annual state license and permit fees that is attributable to any calendar month, or fraction thereof, during 2020 that the permit holder was required to temporarily close operations pursuant to Proclamation Number 30 JBE 2020, or any subsequent proclamation declaring the existence of a statewide COVID-19 public health emergency. For purposes of this credit, a business qualifies for the credit for the months they were not able to exercise their ATC permit to sell alcohol.

91. Donations to School Tuition Organization

A rebate is available for taxpayers who donate to certain school tuition organizations (STO). In order to qualify to receive the rebate the taxpayer must file an income tax return with LDR. The rebate is equal to the amount of the donation used by the STO to fund a scholarship, not including any administrative costs paid by the donation. Rebates will be claimed and paid after the conclusion of the school year after receiving certification by the STO and the Department of Education.

Act 377 of the 2017 Legislative Session changed the rebate to a non-refundable credit for donations made on or after January 1, 2018.

92. Frontline Workers COVID-19 Hazard Pay

A one-time hazard pay rebate is available for essential critical infrastructure workers within the Enterprise Zone Program. Eligible workers must be Louisiana residents who worked at least 200 hours in an eligible job category between March 22, 2020, and May 14, 2020, providing in-person services to the public. The rebate is equal to $250 for workers whose adjusted gross income is $50,000 or less on the worker’s 2019 or, if unavailable at filing, 2018 Louisiana individual income tax return. Applications must be submitted between July 15, 2020, and October 31, 2020.

The total amount of rebates that can be issued is limited to $50 million. The rebates are funded by $25 million from the Coronavirus Local Recovery Allocation Fund (R.S. 39:100.43) and $25 million from the Louisiana Main Street Recovery Fund (R.S. 39:100.44). However, additional rebates may be paid if monies are made available for the payment of these rebates and the Joint Legislative Committee on the Budget approves the payment of additional rebates.

Industrial Hemp-Derived CBD Tax Exemptions
Industrial Hemp-Derived CBD Tax

{ Introduction }

Act 247 of the 2019 Regular Legislative Session levied an excise tax on industrial hemp-derived CBD products which is three percent of the retail sales price. The tax is paid by the retailer on a monthly basis, and is in addition to any other state and local sales tax due on the retail sale. Collections from this tax are dedicated to the Early Childhood Education Fund. The tax applies to tax periods beginning on or after January 1, 2020.

Liquors-Alcoholic Beverage Tax Exemptions
Liquors-Alcoholic Beverage Tax

{ Introduction }

The alcoholic beverage tax law encompasses the taxation of two categories of alcoholic beverages: (a) beverages of low-alcoholic content that are defined as alcoholic beverages containing not more than six percent alcohol by volume, and (b) beverages of high-alcoholic content that are defined as alcoholic beverages containing more than six percent alcohol by volume. Act 2 of the Extraordinary Session of 1933 first imposed an alcoholic beverage tax of $1 per 31-gallon barrel on beer, porter, ale, fruit juices and wine. Act 15 of the 1934 Regular Session imposed a tax on liquor at 50¢ per wine gallon; sparkling wines at 50¢ per wine gallon; still wines not more than 14 percent alcohol by volume at 5¢ per wine gallon; still wines between 14 percent and 24 percent alcohol by volume at 10¢ per wine gallon; still wines over 24 percent alcohol by volume at 50¢ per wine gallon; and beer at $1.50 per 31-gallon barrel. Tax stamps were used to indicate that the appropriate taxes had been paid. A discount of five percent of the face value of the stamps purchased in lots of $100 or more was allowed to dealers.

The tax rates of beverages of alcoholic content have changed numerous times since 1934 as shown below:

The provisions related to the use of tax stamps for alcoholic beverages and the purchase discount were repealed in 1964 and were replaced by a six percent discount for timely filing and remitting the taxes on beverages of high alcohol content. This discount was reduced to three and one-third percent in 1972 and a two percent discount was enacted for beverages of low alcohol content. Acts 1978, No. 441 changed the measurement of liquor and wines from gallons to liters for tax purposes. The rates effectively remained unchanged as the per-gallon rates convert to the per-liter rates.
Liquors-Alcoholic Beverage Tax

{ Introduction }

Act 736 of the 1990 Regular Legislative Session enacted the Louisiana Native Wine Law. Rates for native wines were set the same as rates for other wines. This law was repealed in 2006.

The alcoholic beverage taxes are collected from the first handlers in Louisiana, usually bonded wholesale dealers. The bond required of manufacturers or wholesalers of alcoholic beverages is a minimum of $10,000 for each type of permit held.

During the 1998 Regular Legislative Session, Act 71 established provisions by which sparkling and still wines could be sold and shipped directly to consumers in Louisiana by a manufacturer or retailer of such beverage domiciled outside of Louisiana. Included in the statutory requirements were the stipulations that in order for the wine to be shipped into Louisiana, the applicable taxes must be paid in full, the consumer to whom the wine is being shipped must be 21 years of age or older, and the wine must be purchased for the consumer’s personal consumption.

Act 808 of the 2006 Regular Legislative Session repealed the Native Wine Law and defined and established permit procedures for wine producers. The Act permits wine producers, under certain conditions, to ship product directly to consumers.

Act 7 of the 2016 First Extraordinary Legislative Session reduced the discount for accurately reporting and remitting to 1 ½ percent on beverages of low alcoholic content (beer) and 2 ½ percent on beverages of high alcoholic content.

   c. Alcohol content over 24% – 55¢ per liter
4. Low alcohol 6% and under, malt beverages: $12.50 per barrel

Types of Tax Exemptions
For alcoholic beverage tax purposes, tax exemptions are exemptions, refunds/credits, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted. Refunds/credits are items that taxes were paid on initially, but the taxpayer has a right to request a refund or a credit. Discounts are a proportionate deduction from the gross amount reported. The tax exemptions for beer have been separated from those for liquor and wine.

There are several statutory tax exemptions that are also prohibited from taxation by federal law. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Significant Changes
Act 380 created a microwinery permit and provides that the product is taxed in the same manner and same rate as that produced by other manufacturers. Effective August 1, 2021.

Natural Resources-Severance Tax Exemptions
A severance tax is levied upon all natural resources severed from the soil or water, including all forms of timber, including pulp woods, and turpentine and other forest products; minerals such as oil, gas, natural gasoline, distillate, condensate, casinghead gasoline, sulphur, salt, coal, lignite, and ores; also marble, stone, gravel, sand, shells, and other natural deposits; and the salt content in brine.

Oil and gas collections account for almost 95 percent of all severance tax collections. Because of the significant revenues generated and the fact that only one minor exemption affects the other natural resources, the focus of this section is centered on the oil and gas taxes.

The first tax, based on the severance of oil and gas, was imposed in 1910. This tax was levied as an occupational license tax at a rate of 1/5¢ per 10,000 cubic feet or 10 MCF for gas, and 2/5¢ per barrel of oil.

Act 140 of 1922 carried into effect the 1921 constitutional authority for a severance tax. There have been many changes in the tax rates since 1910, including fluctuations from a volumetric to a percentage-of-value based tax. The changes are listed below in chronological order.

Natural Resources - Severance Tax

{ Introduction }

Tax Base
The tax is imposed upon severance of the oil and gas from the soil or water and is paid by the natural resource owners. The state of Louisiana has over 30,000 producing oil and gas wells.

Tax Rate
The capable tax rate for oil and condensate is 12.5 percent of value and accounts for over 95 percent of the oil and condensate tax collections. There is also an incapable rate and a stripper rate for low-producing oil wells. The capable rate for gas, presently 9.1¢ per MCF, is responsible for over 98 percent of total gas tax collections. There are also reduced tax rates for low-pressure oil-well gas and incapable gas-well gas. The current severance tax rates are:

Types of Tax Exemptions
Severance tax exemptions for oil, gas, and minerals are in the form of exclusions, exemptions, special rates, deductions, and suspensions. Exclusions are by statute and refer to specific categories of natural gas upon which the tax shall not accrue. Exemptions and suspensions are also statutorily mandated and exempt or suspend the tax on oil or gas severed from wells that meet certain criteria. Special rates reduce the tax on natural resources severed from wells that qualify under specified criteria. Deductions are defined as a credit against the tax or a reduction to the taxable base.

There are two exemptions that are also prohibited from taxation by federal law. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.
Significant Changes
2021 Regular Session
Act 391 enacted a new severance tax exemption for oil produced from certain oil wells. The exemption is applicable to an oil well that was previously designated as orphaned by the Department of Natural Resources, has had no production for at least 12 months and has undergone or is undergoing enhancements that require a Department of Natural Resources permit. To qualify for this exemption, production must commence between October 1, 2021 and June 30, 2031. Once a well is certified, the operator pays nothing for the first 3 months of production and for each month thereafter pays the amount that would be due in taxes to the Department of Revenue for credit to a Site Specific Trust Account established for that well in accordance with LA R.S. 30:88.2. Effective June 16, 2021.

{ Natural Gas Exclusions }

1. Injection
An exclusion is allowed for the injection of gas into producing reservoirs. The gas injected maintains reservoir pressure and enhances the recovery of hydrocarbons. Although excluded, the gas could eventually become taxable if later reproduced and sold. The purpose of this exclusion is to promote secondary recovery and repressurization programs.

2. Produced Outside the State of Louisiana
An exclusion is allowed for gas produced outside the state and transported into Louisiana to be injected. The purpose of this exclusion is to clarify that natural gas severed outside the state is not taxable.

Legal Citation
R.S. 47:633(9)(e)(ii)

Origin
Acts 1960, No. 2

Effective Date
1960

Beneficiaries
Unknown beneficiaries as the volume of gas imported is too small to benefit most companies and the only activity is around the three-mile offshore boundary separating state and federal leases

Estimated Fiscal Effect
A negligible amount for this exclusion was reported by taxpayers on the severance tax return data available at the time of publication.
3. **Flared or Vented**

An exclusion is allowed for gas flared or vented to the atmosphere, provided such gas is not otherwise sold. Gas is normally vented or flared when testing, waiting on sales line, or when produced in noncommercial quantities. The purpose of this exclusion is to provide financial relief to producers of natural and casinghead gas.

4. **Consumed in Field Operations**

An exclusion is allowed for gas used or consumed for fuel in maintaining the operation of a field. This includes gas used for heating, separating, producing, dehydrating, compressing, and pumping oil and gas in the field where produced provided that the gas is not otherwise sold. The purpose of this exclusion is to provide financial assistance to qualifying producers.

6. **Used in the Manufacture of Carbon Black**

An exclusion is allowed for gas consumed in the manufacture of carbon black in plants. The producer and seller of the gas are allowed an exclusion from the severance tax that in turn lowers the sales price. The purpose of this exclusion is to provide financial assistance to carbon-black manufacturers.

Natural Resources - Severance Tax

{ Natural Gas Suspensions }  

7. Horizontal Wells  

Any well drilled or recompleted horizontally from which production commences after July 31, 1994, shall have all severance tax suspended for 24 months or until payout of the well is achieved, whichever comes first. Payout of well cost shall be the cost of completing the well to the start of production. Acts 2015, No. 120 amended R.S. 47:633(7) for any production commencing after July 1, 2015. The suspension is now dependent on the average gas price determined by the secretary on July 1st of each year for the ensuing 12 month period. The purpose of this tax suspension is to encourage the drilling of horizontal wells.

Legal Citation

Beneficiaries  
Any producer who successfully completes or recompletes a well horizontally

Estimated Fiscal Effect  
In accordance with Acts 2015, No. 120, the secretary determined the price of natural gas for the FY 19-20 exemption period to be $2.10 per million BTU. Since this amount is below the $4.50 threshold for gas, the suspension is at 100 percent.

8. Inactive Wells  

Gas wells returned to service after being inactive for two or more years or having 30 days or less production for the past two years were allowed a severance tax exemption for five years. The June 30, 1996, deadline for applying for inactive status was extended to June 30, 1998, by Acts 1996, No. 16, and to June 30, 2000, by Acts 1998, No. 7. Acts 2002, No. 74 amended R.S. 47:633(7)(c)(iv) to reactivate the exemption effective for production beginning July 1, 2002, and ending June 30, 2006, and changed the suspension period from five to two years. Acts 2005, No. 492 extended the time for taxpayers to apply for certification from June 30, 2006, to June 30, 2010, and extended the suspension period from two to five years for any well granted inactive certification on or after January 1, 2005.

9. Deep Wells

The severance tax on gas wells drilled to a true vertical depth of more than 15,000 feet is suspended for a period of 24 months or until payout of the well cost, whichever occurs first. Production must start after July 31, 1994. The purpose of this tax suspension is to encourage gas operators to invest in the drilling of deep wells.

12. **Orphan Wells**

Production from a gas well designated by the Department of Natural Resources as being an orphan well for longer than sixty months is subject to a reduced severance tax rate equal to 25 percent of the full rate for a period of ten years. The gas production must be produced from the same perforated producing interval or from one hundred feet above and one hundred feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly orphaned well produced from before being designated as an orphan well. The purpose of this special rate is to encourage production from orphaned wells.

13. Inactive Wells

Production from a gas well designated by the Department of Natural Resources as being either inactive for two or more years or having 30 days or less production for the past two years is subject to a reduced severance tax rate equal to 50 percent of the full rate for a period of ten years. Eligible wells may apply for certification from July 1, 2018 through June 30, 2023. The gas production must be produced from the same perforated producing interval or from one hundred feet above and one hundred feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly inactive well produced from before being designated as an inactive well. 14. Produced Water Injection - Gas Wells

A 20 percent severance tax reduction is allowed on gas produced from wells in which produced water is injected into the reservoir to increase recovery. This incentive was enacted to reduce produced water discharge by providing severance tax savings for producers that inject produced waters into a gas reservoir to increase recovery of gas.

Origin
Acts 1991, No. 625

Effective Date
July 17, 1991

Beneficiaries
Gas producers that inject produced waters into a gas reservoir to increase the recovery of gas

Estimated Fiscal Effect
A negligible amount for this incentive was reported by taxpayers on the severance tax return data available at the time of publication.
15. **Trucking, Barging, and Pipeline Fees**

Oil and condensate are taxable at the higher of 12.5 percent of the gross receipts less charges for trucking, barging, and pipeline fees or the posted field price. The Department’s regulation, LAC 61:I.2903, allows producers transporting through their own facilities a 25¢ per barrel deduction; those with third-party transportation may deduct 25¢ per barrel or the actual amount charged. The purpose of the regulation is to allow a standard 25¢ per barrel deduction for all producers.

16. **Horizontal Wells**

Any well drilled or recompleted horizontally from which production begins after July 31, 1994, will have all severance tax suspended for 24 months or until payout of the well is achieved, whichever occurs first. Payout of well cost is the cost of completing the well to the start of production. Acts 2015, No. 120 amended R.S. 47:633(7) for any production commencing after July 1, 2015. The suspension is dependent on the average oil price determined by the secretary on July 1st of each year for the ensuing 12 month exemption period. The purpose of this tax suspension is to encourage drilling of horizontal wells.

Any producer who successfully completes or recompletes a well horizontally

**Estimated Fiscal Effect**
In accordance with Acts 2015, No. 120, the secretary determined the price of oil for the FY 19-20 exemption period to be $46.86 per barrel of oil. Since this amount is below the $70 per barrel threshold, the exemption is at 100 percent.

17. **Inactive Wells**

Oil wells returned to service after being inactive for two or more years or having 30 days or less production for the past two years were allowed a severance tax exemption for five years. The June 30, 1996, deadline for applying for inactive status was extended to June 30, 1998, by Acts 1996, No. 16, and to June 30, 2000, by Acts 1998, No. 7. Acts 2002, No. 74 amended R.S. 47:633(7)(c)(iv) to reactivate the exemption effective for production beginning July 1, 2002, and ending June 30, 2006, and changed the suspension period from five to two years. Acts 2005, No. 492 extended the time for taxpayers to apply for certification from June 30, 2006, to June 30, 2010, and extended the suspension period from two to five years for any well granted inactive certification on or after January 1, 2005.

18. **Deep Wells**

The severance tax on oil wells drilled to a true vertical depth of more than 15,000 feet is suspended for a period of 24 months or until payout of the well cost, whichever occurs first. Production must start after July 31, 1994. The purpose of this tax suspension is to encourage oil operators to invest in the drilling of deep wells.

19. **Tertiary Recovery**

This suspension, enacted in 1983, provides that no severance tax is due on crude oil produced from a qualified tertiary project approved by the Department of Natural Resources until the project has reached payout. The purpose of this suspension is to provide financial assistance to producers undertaking large-scale carbon dioxide injection projects; however, oil prices have not been conducive to the initiation of these projects.

22. Stripper Oil Wells - Value Less than $20 per Barrel

Oil produced from an oil well certified as a stripper well (incapable of producing an average of more than ten barrels of oil per producing day for the entire taxable month) is exempt from severance tax in any month in which the average posted price for a 30-day period is less than $20 per barrel. Act 43 of the 1998 Regular Legislative Session amended the law to provide that the same value used as a basis to impose the severance tax under R.S. 47:633(7)(a) be used to determine the exemption for certified stripper production. The purpose of this exemption is to encourage producers to continue the operation of low-producing oil wells. However, stripper wells already qualify for a reduced tax rate of 3.125 percent of value.

23. **Orphan Wells**

Production from an oil well designated by the Department of Natural Resources as being an orphan well for longer than sixty months is subject to a reduced severance tax rate equal to 25 percent of the full rate for a period of ten years. The oil production must be produced from the same perforated producing interval or from one hundred feet above and one hundred feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly orphaned well produced from before being designated as an orphan well. The purpose of this special rate is to encourage production from orphaned wells.

Production from an oil well designated by the Department of Natural Resources as being either inactive for two or more years or having 30 days or less production for the past two years is subject to a reduced severance tax rate equal to 50 percent of the full rate for a period of ten years. Eligible wells may apply for certification from July 1, 2018 through June 30, 2023. The oil production must be produced from the same perforated producing interval or from one hundred feet above and one hundred feet below the perforated producing interval for lease wells, and within the correlative defined interval for unitized reservoirs, that the formerly inactive well produced from before being designated as an inactive well. Oil Spill Contingency Fee Exemptions
Oil Spill Contingency Fee

Introduction

Act 7 of the 1991 First Extraordinary Session of the Legislature levied a fee of two cents per barrel of crude oil on every person owning crude oil in a vessel at the time such oil is transferred to or from a vessel at a marine terminal within the state of Louisiana, with the fee to be collected by the operator of the marine terminal and remitted on a quarterly basis. Initially, the two cents per barrel fee was to be levied until the state treasurer certified that the balance in the Oil Spill Contingency Fund had reached $15 million. Thereafter, if the balance in the fund fell below $8 million, collection of the two cents per barrel fee was to resume until the fund reached $15 million.

Additionally, the fee was to be levied at 4¢ per barrel upon certification by the state treasurer that (1) the balance in the fund was less than $8 million, (2) an unauthorized discharge of oil in excess of 100,000 gallons had occurred within the previous 30 days as certified by the Louisiana oil spill coordinator, and (3) expenditures from the fund for damages and removal costs was reasonably expected by the coordinator and interagency council to deplete the fund by more than 50% of the balance and this is certified to the state treasurer.

Act 740 of the 1995 Regular Legislative Session amended the thresholds to provide that the two cents per barrel fee was to be levied until the state treasurer certified that the balance in the Oil Spill Contingency Fund had reached $10 million, and thereafter, if the balance in the fund fell below $8 million, collection of the two cents per barrel fee was to resume until the fund reached $10 million. The amendments further provided that if the 4¢ per barrel fee was triggered, then it must be collected until the fund reached $10 million.

Act 1082 of the 2003 Regular Legislative Session amended the statutes to further reduce the fund balance thresholds. Following the 2003 amendments, the two cents per barrel fee was to be levied until the state treasurer certified that the balance in the Oil Spill Contingency Fund had reached $7 million, and thereafter, if the balance in the fund fell below $5 million, collection of the two cents per barrel fee was to resume until the fund reached $7 million. Additionally, the fee was to be levied at 4¢ per barrel upon certification by the state treasurer that (1) the balance in the fund was less than $5 million, (2) an unauthorized discharge of oil in excess of 100,000 gallons had occurred within the previous 30 days as certified by the Louisiana oil spill coordinator, and (3) expenditures from the fund for damages and removal costs was reasonably expected by the coordinator and interagency council to deplete the fund by more than 50% of the balance and this is certified to the state treasurer.

Act 384 of the 2013 Regular Legislative Session made significant changes to the fee structure. Act 384 reduced the fee to one-half of one cent per barrel for the period July 1, 2014 through December 31, 2015 and then to one-quarter of one cent per barrel beginning January 1, 2016. Act 384 also changed the parties responsible for paying and collecting the fee.

As of July 1, 2014, the fee is imposed on every person owning crude oil received by a refinery for storage or processing. The fee is now owed by the last owner of the crude oil prior to its transfer to the refinery or storage facility. The operator of the refinery is responsible for collecting the fee and remitting it on a quarterly basis. The fee increases to one-half cent per barrel if the Louisiana oil spill coordinator certifies, in writing, to the secretary of the Department of Revenue that (1) the Oil Spill Contingency Fund balance is less than $5 million and (2) that an unauthorized discharge of oil in excess of 100,000 gallons had occurred within the previous 30 days as certified by the Louisiana oil spill coordinator, and (3) expenditures from the fund for damages and removal costs was reasonably expected by the coordinator and interagency council to deplete the fund by more than 50% of the balance and this is certified to the state treasurer.

Petroleum Products Tax Exemptions
Petroleum Products Tax

{ Introduction }

A tax on gasoline and motor fuels was first levied in the 1921 Louisiana Constitution at the rate of 1¢ per gallon. Special fuels were first taxed at the rate of 7¢ per gallon under a Use Fuel Tax as levied by Act 244 of 1940. This act also required fuel permits. Various amendments through the years set the rates as follows:

- 1921  Gasoline tax first levied at 1¢ per gallon
- 1924  Gasoline at 2¢ per gallon
- 1928  Gasoline at 4¢ per gallon
- 1930  Gasoline at 5¢ per gallon
- 1936  Gasoline at 7¢ per gallon
- 1940  Special fuels tax first levied at 7¢ per gallon
- 1948  Gasoline and special fuels at 9¢ per gallon
- 1952  Gasoline and special fuels at 7¢ per gallon
- 1968  Gasoline and special fuels at 8¢ per gallon
- 1984  Gasoline and special fuels at combined rate of 16¢ per gallon
- 1990  Gasoline and special fuels at combined rate of 20¢ per gallon
- 2016  Special fuels (CNG and LNG) at 20¢ per gallon, LPG at 14.6¢ per gallon

Act 16 of the First Extraordinary Session of 1989 increased the total tax on gasoline, motor fuels, and special fuels to the current 20¢ per gallon, not by increasing the 16¢ per gallon rate imposed by R.S. 47:711 and R.S. 47:802, but by levying an additional 4¢ under a new part titled Transportation Infrastructure Model for Economic Development (TIMED). The money generated by this levy, which was effective January 1, 1990, was specifically dedicated. By the same legislation, the Transportation Trust Fund was created wherein the 16¢ per gallon tax collections would eventually be deposited.

Gasoline and Diesel Fuels Tax

The gasoline tax was collected from the dealer who first handles, sells, distributes, uses, or consumes the gasoline and motor fuel in Louisiana. However, Acts 2005, No. 252 enacted R.S. 47:818.1 et seq. to move the point of collection for tax on motor fuels to the terminal rack. Clear diesel fuel, as newly defined, will be subject to tax when the product leaves the terminal via the rack so that subsequent sales of the product should be of taxed fuel and any clear diesel ultimately used for a nontaxable purpose could be eligible for the refund of the fuel tax paid.

The Act also changed the discounts allowed to dealers and marketers. Previously a discount was allowed to gasoline dealers for three percent of the first 1¢ of tax; gasoline jobbers were allowed three percent of the first 4¢ of tax; and special fuel suppliers were allowed three percent of net taxable gallons. Acts 2005, No. 252 granted suppliers (refiners) a discount of 1.5 percent of the tax if they timely filed and remitted the taxes provided they passed on a one percent discount to the distributors (marketers). Under Acts 2015, No. 147, the discount for suppliers was reduced to 0.5 percent of the tax and .003 percent for a licensed distributor or importer.

Special Fuels Tax

Special fuels are defined as any gas or liquid, other than gasoline or diesel fuel, used or suitable for use as motor fuel in an internal combustion engine or motor to propel any form of vehicle, machine, or mechanical contrivance. Special fuels include compressed natural gas, liquefied natural gas, and liquefied petroleum gas. The tax on special fuels was paid by any person who operates a motor vehicle upon the highways that uses or is capable of using LPG or CNG. From July 1, 2006 to December 31, 2015, the tax was paid on an annual return using an annual flat rate or tax based on usage depending on the weight of the vehicle and evidenced by a decal that was issued to the owner or operator of motor vehicles.

Effective January 1, 2016, Acts 2015, No. 147 repealed R.S. 47:818.101 through 104 and enacted R.S. 47:818.111 through 132 which changed the manner in which fuel tax is collected on compressed natural gas (CNG), liquefied natural gas (LNG), and liquefied petroleum gas (LPG) when used to power a motor fuel vehicle. The tax is added to the price of the fuel dispensed at the pump or from the storage container and is to be paid by the retail dealer selling the fuel as a motor fuel, or from the special fuel fleet dealer when used in fleet operations.
Petroleum Products Tax

{ Introduction }

Fee for Inspection
To defray the expenses connected with the inspection, testing, and analyzing of petroleum products in the state, an inspection fee of 4/32 of one cent per gallon is collected on all petroleum products distributed, sold, or offered for sale or use or consumption in the state or used or consumed in the state. The fee, to be paid by the first person handling the fuel, must be paid before delivery to agents, dealers, or consumers in the state. The fee is not collected on liquefied petroleum gas, natural gas, or bulk sale or transfers and exports out of the state are not subject to the fee. In addition, no fee is due on fuels that are eligible for tax refunds under the provisions of R.S. 47:818.15(A)(5) or that are sold for use in or distributed to seagoing vessels as defined in R.S. 3:4602.

Special fuels of liquefied natural gas, liquefied petroleum gas, and compressed natural gas:
• Beginning January 1, 2016, the special fuel tax will be collected by any person or entity upon the delivery of the fuel into the fuel supply tank of a motor vehicle.
• Previously, the tax was collected by the purchase of a decal at an annual flat rate of $150 or a variable rate of 16¢ per gallon, but not to exceed $150, for each vehicle operating on one of these fuels.

School buses that transport Louisiana students:
• One-half of the lesser of the regular flat rate or one-half of the variable rate.

Types of Tax Exemptions
Petroleum products tax exemptions are in the form of exemptions, refunds, and discounts. Exemptions are items that were included in the tax base, but have been specifically exempted statutorily. Refunds are a restitution of taxes paid. Discounts are a proportionate deduction from the amounts reported.
Petroleum Products Tax

{ Introduction }

There are two statutory tax exemptions that are also prohibited from taxation by federal law. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Public Utilities and Carriers Taxes
Inspection and Supervision Fee

{ Introduction }

The Inspection and Supervision Fee was first imposed by Act 108 passed during the Extraordinary Session of 1921. This act established that each common carrier and public utility doing business in Louisiana and subject to the control and jurisdiction of the Public Service Commission would pay an annual fee for the inspection, control, and supervision of the business, service, and rates of such common carrier and public utility. The fee was set on a graduated scale, with a minimum annual fee established of $10 not to exceed a maximum of $500, to be due at the end of December. Changes to the fee and rate schedules occurred in 1928, 1935, 1962, 1970, and again in 1972 when a minimum annual fee of $35 was established and the maximum amount eliminated.

The year 1985 brought forth two pieces of legislation. Act 182 changed the due date from December 31 to April 1; while Act 561 implemented a supplemental fee of 20 percent of the inspection and supervision fee payment on each gas, electric, and telephone public utility. Act 700 of 1986 changed the reporting period from annually to quarterly, adjusted the rates, and established the minimum amount to be paid at not less than $12.50 quarterly, $50 annually. The rates were adjusted again in 2007 by Act 234, which also repealed the supplemental fee and increased the minimum fee to $20 per quarter, $80 annually.

As a result of Section 601 of the Federal Aviation Administration Act of 1994, Act 301 of 1995 was enacted removing certain motor carriers from the jurisdiction of the Louisiana Public Service Commission thus eliminating these carriers from the imposition of the Inspection and Supervision Fee.

Public Utilities and Carriers Taxes
Transportation and Communication Utilities Tax

{ Introduction }

A tax on transportation and communication utilities was first imposed by Act 13 of the 1934 Regular Legislative Session. The tax was levied on every person owning and/or operating any public utility in this state. Public utility has been defined to include railroads and railways, sleeping cars, motor bus lines, motor freight lines, express companies, boat or packet lines, and pipe lines. The basic law has remained relatively unchanged over the years with the majority of changes occurring to the definitions of the various utilities and what constitutes gross receipts for the respective utilities.

Acts 1990, No. 388 repealed the transportation and communication tax as it applied to telephone companies and at the same time the telephone companies' services became subject to sales and use tax.

Sales Tax Exemptions
Sales Tax

{ Introduction }

Louisiana sales tax was first imposed in 1936. The original sales tax was enacted as a two percent luxury sales tax. It was replaced by a one percent general sales tax that was in effect between 1938 and 1940. In 1942, a one percent war emergency tax was enacted and set to run for a two-year period. The first permanent sales tax was enacted in 1944 at a rate of one percent (R.S. 47:302); increased to two percent in 1948 (R.S. 47:302); increased to three percent in 1970 (R.S. 47:321); increased to four percent in 1984 (R.S. 47:331); and increased to a five percent rate in April 2016 (R.S. 47:321.1). During the 2018 Third Extraordinary Session the tax levied in R.S. 47:321.1 was reduced to forty-five hundredths of one percent (.45%), reducing the overall sales tax rate to four and forty-five hundredths percent (4.45 %).

The general sales tax rate was four percent until June 30, 1988. In 1988, the legislature created the Louisiana Recovery District and authorized the District to issue bonds to be secured through the imposition of a sales tax. The one percent general sales tax imposed under R.S. 47:321 was repealed and was replaced by the one percent Recovery District tax. Due to bonding requirements, the taxes levied by the Recovery District are not affected by tax law changes subsequent to 1988. This combination of a three percent general sales tax, along with a one percent Recovery District tax remained in effect from July 1, 1988 to September 30, 1990.

In 1990, the legislature created the Louisiana Tourism Promotion District and granted it the authority to levy a tax. On October 1, 1990, the Tourism Promotion District levied a .03 percent sales tax and on the same date the general sales tax rate imposed under R.S. 47:331 was reduced to .97 percent totalling the same overall tax rate of one percent. The tax base is the same for the Tourism Promotion District and general sales tax. On September 30, 1996, the bonds of the Recovery District were retired and the Recovery District ceased to exist. The levy of the Recovery District was replaced with a one percent general sales tax levy under R.S. 47:321.

During the 2018 Third Extraordinary Session the tax levied in R.S. 47:321.1 was reduced to forty-five hundredths of one percent (.45%), reducing the overall sales tax rate to four and forty-five hundredths percent (4.45 %). For the purposes of this report, the term general sales tax is used to reference the four and forty-five hundredths percent tax imposed by both the state and the Tourism Promotion District.

Exclusions and exemptions from the sales tax have existed since the first tax levy and new exclusions and exemptions have been enacted over the years. The exemptions were effective against the total sales tax base until 1986. During the 1986 Regular Legislative Session, House Concurrent Resolution 55 was enacted, which suspended the sales tax exemptions imposed under R.S. 47:331 for the period of July 1, 1986 through June 30, 1987. As a result of the suspension, traditionally exempt items were subject to a one percent sales tax. The legislature continued the one percent suspension until July 31, 1989. Effective August 1, 1989, the suspension rate was changed to three percent through December 31, 1989; two percent from January 1, 1990 through July 9, 1990; and three percent from July 10, 1990 through June 30, 1997. From July 1, 1993 to September 30, 1996, exemptions from the one percent sales tax levied by the Louisiana Recovery District were also suspended, resulting in a four percent suspension rate.

In order to extend tax relief, the Louisiana Legislature began enacting exclusions from the tax under the definitions in R.S. 47:301, rather than the exemptions under R.S. 47:305. Some of the new exclusions replaced existing exemptions that were taxable under the suspension of exemptions. This action resulted in two statutes affecting the same subject. In 1998, duplicative exemptions were repealed leaving only the exclusion as the statutory authority.

From July 1, 1997 to June 30, 2000, the suspension rate was three percent. From July 1, 2000 to June 30, 2009 the suspension rate was four percent, except for sales of nonresidential electricity, water utility service, natural gas, and steam, which was subject to a suspended tax rate of 3.8 percent through December 31, 2005. For the period January 1, 2006, to June 30, 2008 sales for nonresidential purposes of natural gas for energy and electric power were subject to a suspended rate of 3.3 percent. Sales of steam and water for nonresidential use were taxed at the suspended rate of 3.8 percent. From July 1, 2008 to June 30, 2009 sales for nonresidential purposes of natural gas for energy and electric power were subject to a suspended rate of 2.3 percent. For the period July 1, 2008 through June 30, 2009, sales of steam and water for nonresidential use were taxed at the suspended rate of 2.8 percent.

In the 2009 Legislative Session, no legislation was proposed to continue the suspension of the sales tax exemptions. As a result, the exemptions found under R.S. 47:305 were now exempt from three of the four percent general sales tax. These unprotected exemptions remain subject to the permanent suspension of the one percent tax imposed under R.S. 47:321. Effective January 1, 2009, advance sales tax was repealed. As a result, all sales for resale became excluded from sales tax. Only the final sale to the consumer is now subject to the state sales tax.

Beginning April 1, 2016, Acts 25 and 26 of the First Extraordinary Session temporarily suspended most sales tax exemptions
and exclusions. The partial suspension of these exemptions and exclusions continued until June 30, 2018. Beginning July 1, 2018, Act 1 of the Third Extraordinary Session provided identical, exclusive lists of sales tax exclusions and exemptions for all state tax impositions, with the exception of R.S. 47:302. The list in R.S. 47:302 does not include an exclusion of the sale or use of steam, water, electric power or energy, natural gas, or other energy sources for non-residential use ("business utilities"). As a result, R.S. 47:302 levies a two percent state sales tax on the purchase of business utilities. The exclusive lists associated with all impositions will sunset on June 30, 2025.

The sales tax currently collected by the Department of Revenue is as follows:

**Tax Base**

The tax base consists of retail sales of tangible personal property, rental or lease of movable property, and sales of selected services. The tax base also includes use tax due on the cost of tangible personal property imported into this state or purchased within this state without the proper payment of sales tax.

**Tax Rate**

As of July 1, 2019, the tax rate is composed of the following:

**Types of Tax Exemptions**

Louisiana sales tax exemptions are in the form of exclusions, exemptions, alternate reporting methods, credits, and refunds. Exclusions are items that have been excluded from the tax base by definition. Exemptions are items that were included in the tax base, but have been specifically exempted. Alternate reporting methods allow taxpayers to report and remit taxes in a manner different from the normally required procedure. Statutorily prescribed methods of taxation are items that have statutory methods to calculate the tax. Credits are situations when the taxpayer can deduct the credit amount from the tax due and pay only the net tax due. Refunds are the result of taxes paid initially, but for which the taxpayer may be reimbursed. All tax exemp-
{ Introduction }

There are several statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

**Fiscal Effect**

The fiscal effect shown in this budget reflects all current statutory language and is not broken down by the various levies.

Legislation to continue the suspension of most of the state sales tax exemptions through June 30, 2009, was enacted during the 2004 First Extraordinary Session by Act 4. The full suspension expired on July 1, 2009 and as a result, the exemptions found under R.S. 47:305 continued to be exempt from three of the four percent general sales tax until March 31, 2016.

Act 25 of the 2016 First Extraordinary Legislative Session imposed the four percent state sales tax impositions on sales, purchases, use, leases or rental exemptions and exclusions not listed in the act for the period April 1, 2016 through June 30, 2016. From July 1, 2016 through June 30, 2018, Act 25 impacted sales tax exclusions and exemptions through the imposition of a two percent state sales tax under R.S. 47:302. However, the manufacturing machinery and equipment exclusions (R.S. 47:301(3)(i) et. al.) and the business utilities exemptions (R.S. 47:305(D)(1) et. al.) were treated differently by Act 25.

In addition, Act 26 of the 2016 First Extraordinary Legislative Session imposed an additional state sales tax in the amount of one percent (1%). This new state sales tax was in addition to the sales taxes already levied pursuant to Louisiana R.S. 47:302, 321 and 331. Act 1 of the 2018 Third Extraordinary Session decreased the amount of the sales tax imposed by R.S. 47:321.1 from one percent to forty-five hundredths of one percent (.45%) until June 30, 2025.

**Significant Changes**

**2021 Regular Session**

Act 7 enacted R.S. 47:301(7)(m) which excludes, from state and local sales tax, leases and rentals by qualified short-term equipment rental dealers when the leases and rentals are for the purpose of re-lease or re-rental. The exclusion is only available to short-term equipment rental dealers using the North American Industry Classification System (“NAICS”) code 532412 or 532310. In addition, the primary business must be derived from the rental of property for periods of less than 365 days, an undefined period or under an open-ended agreement. Effective October 1, 2021.

Act 449 enacted R.S. 47:305.75, excluding from state sales tax, the purchase of feminine hygiene products along with adult and child diapers. Diaper means any absorbent diaper or undergarment used for incontinence in adults and any absorbent diaper or undergarment designed to be worn by a child who cannot yet control bladder or bowel movements. “Feminine hygiene product” means tampons, menstrual pads, sanitary napkins, panty liners, menstrual sponges, and menstrual cups, including disposable and washable versions of these items. The purchase must be for individual use. R.S. 47:337.10.2(C) is repealed in its entirety. This sales tax exemption is applicable to taxable periods beginning on or after July 1, 2022. Effective June 23, 2021.

Act 53 enacted R.S. 47:305.4 creating a state sales tax exemption for the purchase of utilities for on-farm storage when purchased by a commercial farmer. The storage must be separately metered and contain raw agricultural commodities for the production of crops or animals prior to the first point of sale. Effective June 4, 2021.

Act 299 amended and reenacted R.S. 47:305.59 to exempt the purchase of construction materials purchased by animal shelters to build new animal shelters in the state. Construction on the animal shelters must begin between July 1, 2021 and June 30, 2025. Effective July 1, 2021.

Act 448 enacted R.S. 39:100.122 to create the Hurricane and Storm Damage Risk Reduction System Repayment Fund (“the Fund”). Between July 1, 2021 and June 30, 2022 the treasurer is required to deposit thirty-eight percent of any increase of State General Fund Revenues recognized by the Revenue Estimating Committee for Fiscal Year 2021-2022 into the Fund. Between July 1, 2022 and June 30, 2025, sales tax revenues collected from sales and use of tangible personal property, rentals and leases in the parishes of St. Charles, Jefferson, Plaquemines, St. Bernard, and Orleans parishes are required to be deposited into the Fund. The total amount in the fund shall not exceed four hundred million dollars. Effective June 30, 2021.

Act 486 amends R.S. 48:77 to dedicate sales tax revenues from motor vehicles to the Construction Subfund (“subfund”), within the Transportation Trust Fund. Previously these revenues went into the general Transportation Trust Fund. In Fiscal Year 2023-2024 thirty percent of the revenues will be deposited into the subfund and in Fiscal Year 2024-2025 and every year following, sixty percent of these revenues will be deposited into the subfund.
Sales Tax

{ Introduction }

Beginning in Fiscal Year 2024-2025, in the event the Revenue Estimating Committee revises the Official Forecast that results in a decrease of 100 million dollars or more in state general fund revenue, no more than 150 million dollars may be deposited into the subfund. Remaining funds will be deposited into the state general fund, however the sum of all transfers and deposits from the subfund to the general fund must not exceed the amount of the forecasted revenue decrease.

The Department of Transportation and Development (DOTD) shall use up to seventy-five percent of the money in the fund on specific highway and bridge projects labeled as “mega projects.” DOTD shall use at least twenty-five percent of the remaining money in the fund on highway and bridge preservation projects. Five percent, yet no more than ten million dollars, of this twenty-five percent allocation shall be used on the transfer and exchange of state and local roads. The state nor DOTD shall issue debt of more than 150 million dollars secured by money deposited into the subfund. Effective August 1, 2021.

Act 166 expands the school bus exclusion found in R.S. 301(10)(i) to apply to any purchaser of a new or used school bus less than five years old that is to be used by any public elementary and secondary schools, laboratory schools funded by public universities or nonpublic schools approved by the State Board of Elementary and Secondary Education (BESE). The buses must meet all safety requirements established by the Department of Education and be painted the required shade of school bus chrome. The bus must also be purchased from a licensed motor vehicle dealer. Effective July 1, 2021.

1. **Purchases by Pari-Mutuel Horse Racetracks**

   This exclusion allows racetracks licensed by the Racing Commission to make purchases of tangible personal property, services, and leases and rentals without the payment of sales or use tax. The state imposes certain license fees, commissions, and taxes on racetracks and horse racing. The purpose of this exclusion is to remove the liability for sales tax in lieu of the special taxes imposed on licensed racetracks.

   **Legal Citation**
   R.S. 4:168

   **Origin**
   Acts 1968, No. 554

   **Effective Date**
   July 19, 1968

   **Beneficiaries**
   Horse racing tracks licensed by the Louisiana State Racing Commission

   **Estimated Fiscal Effect**
   Pertinent transactions are subject to the full 4.45% state sales tax rate; therefore, there is no estimated tax loss for FYE 6-22 or FYE 6-23.

2. **Purchases by Off-Track Wagering Facilities**

   This exclusion allows off-track wagering facilities licensed by the Racing Commission to make purchases of tangible personal property, services, leases, and rentals without the payment of sales or use tax. The state imposes certain license fees, commissions, and taxes on the racetracks and horse racing. The purpose of this exclusion is to remove the liability for sales tax in lieu of the special taxes imposed on the licensed off-track wagering facilities and to extend the exclusion enjoyed by pari-mutuel racetracks to these off-track wagering facilities.

   **Legal Citation**
   R.S. 4:227

   **Origin**
   Acts 1990, No. 1013

   **Effective Date**
   July 26, 1990

   **Beneficiaries**
   Off-track wagering facilities licensed by the Louisiana State Racing Commission

   **Estimated Fiscal Effect**
   Pertinent transactions are subject to the full 4.45% state sales tax rate; therefore, there is no estimated tax loss for FYE 6-22 or FYE 6-23.
3. **Purchases by Louisiana Insurance Guaranty Association**

This exclusion allows the tax-free purchase of tangible personal property and the tax-free lease/rental of tangible personal property by the Louisiana Insurance Guaranty Association. The purpose of this exemption is to provide relief from the payment of state sales tax to the Louisiana Insurance Guaranty Association.

**Legal Citation**
R.S. 22:2065

**Origin**
Acts 1970, No. 81, §1; Redesignated from R.S. 22:1389 by Acts 2008, No. 415, §1

**Effective Date**
September 1, 1970

**Beneficiaries**
Louisiana Insurance Guaranty Association

**Estimated Fiscal Effect**
Pertinent transactions are subject to the full 4.45% state sales tax rate; therefore, there is no estimated tax loss for FYE 6-22 or FYE 6-23.

4. **Purchases, Services and Rentals by a Private Company Working for Local Authority on Construction or Operation of Sewerage or Wastewater Treatment Facilities**

The provision allows a private company with a contract to construct or operate a sewerage or wastewater treatment facility for a local governmental authority to be entitled to the same exclusions and exemptions as the governmental authority. The governmental entity has an exclusion for the purchase of tangible personal property and services and the rental/lease of tangible personal property under R.S. 47:301(8)(c). The purpose of this exclusion is to provide financial assistance to local governments through lower contract cost.

5. **Isolated or Occasional Sales of Tangible Personal Property**

This exclusion allows isolated or occasional sales, other than motor vehicles, that are not sold as a part of regular business activity to be sold tax free. This exclusion can be claimed by both businesses and individuals. The purpose of this exclusion is to allow tax-free sales between individuals who are not in the retail business and by businesses for sales outside their normal course of business.

7. Separately Stated Labor Charges on Property Repaired Out-Of-State

This exclusion allows labor charges that are separately stated on invoices of repairs performed outside of Louisiana to be excluded from the cost price basis subject to sales tax. Only the cost price of any parts and/or materials used in the performance of the repair will be subject to sales tax. However, if the labor charges are not separately stated on the invoice, the entire charge for the out-of-state repair becomes subject to state sales tax. The purpose of this exclusion is to reduce the amount of out-of-state repair labor costs subject to state sales tax.

10. Manufacturers Rebates Paid Directly to a Dealer

This exclusion allows any payments made directly between the manufacturer and a third-party dealer (not the manufacturer's customer) for the manufacturer's product for the specific purpose of reducing the sales price and which actually reduces the price as stated to the consumer for the tangible personal property to be free of sales tax. The actual sales price to be paid directly by the consumer will be subject to sales tax. Manufacturer's coupons used by the consumer as part payment of the “sales price” at the time of purchase and redeemed by the dealer will remain taxable. This exclusion excludes this payment from the definition of “cost price” and “sales price.” The purpose of this exclusion is to clearly identify the taxable sales price being paid for tangible personal property by the consumer at the time the property is purchased.

11. Purchases of Manufacturing Machinery and Equipment

This exclusion allows manufacturing machinery and equipment to be purchased free from the state sales, use, lease, and rental tax by eligible manufacturers. The term “manufacturer” is defined as a person whose principal activity is manufacturing, and who is assigned by the Louisiana Workforce Commission a North American Industry Classification code within the agricultural, forestry, fishing, and hunting Sector 11 or manufacturing Sectors 31-33, as they existed in 2002. Acts 2005, No. 471 expanded the definition of manufacturer to include those who would be assigned a NAICS code within Sector 11 or 31-33 but are not required to register with the Louisiana Workforce Commission for unemployment insurance and therefore do not receive such assignment. This same act also enacted a provision that allows machinery and equipment used by an industrial manufacturing plant to generate electric power for self-consumption or cogeneration to be included in the definition of “machinery and equipment” for purposes of the sales tax exclusions for manufacturing and agricultural machinery and equipment. To qualify for the exclusion, the machinery and equipment must be used by the manufacturer in a plant facility and be used predominantly and directly in the actual manufacturing process. Acts 2007, No. 429 further expanded the definition of manufacturer to include certain recyclable material merchant wholesalers.

13. **Purchases of Electric Power and Natural Gas by Paper or Wood Products Manufacturing Facilities**

This provision originally provided a state sales tax exclusion for purchases of electric power by paper or wood products manufacturing facilities for the period July 1, 2006 through December 31, 2008 and allowed these facilities to pay 3.3 percent tax on natural gas purchased for energy purposes only up to the purchase price of $6.20 per MMBtu and fully excluded any amounts in excess of the $6.20 per MMBtu price.

Acts 2007, No. 471 amends R.S. 47:301(3)(j) and 13(m) and repeals R.S. 47:302(T), 321(J) and 331(R) to provide a full state sales tax exclusion for purchases of electric power and natural gas by paper or wood products manufacturing facilities effective July 1, 2007.

21. Certain Educational Materials and Equipment Used for Classroom Instruction

This exclusion allows approved parochial and private elementary and secondary schools that comply with the court order from the Dodd Brumfield decision and Section 501(c)(3) of the Internal Revenue Code to rent, lease, or purchase specific materials and equipment for classroom instruction free of sales tax. The materials and equipment are limited to books, workbooks, computers, computer software, films, videos, and audio tapes. These items must be used for classroom instruction only. This statute also excludes the sales of tangible personal property by the approved school from the sales tax, when the proceeds of such sales are used solely and exclusively to support the school. This exclusion for sales does not allow tax-free sales to students or their families by promoters or regular dealers through the use of the school name or facilities. The purpose of this exclusion is to allow financial relief to qualifying schools for classroom materials and equipment and to assist in fundraising.

189. Certain Interchangeable Components; Optional Method to Determine

This alternate-reporting method allows importers or users of certain measurement-while-drilling equipment to store equipment in the state without paying the use tax due upon importation. Instead, taxes would be paid on 1/60 of the total material cost of all equipment stored within Louisiana each month. The purpose of this method is to offer relief from use tax on equipment stored in Louisiana, but seldom used in this state.

190. Helicopters Leased for Use in the Extraction, Production, or Exploration for Oil, Gas, or Other Minerals

This alternate-reporting method allows the lease or rental of certain helicopters used in the extraction, production, and exploration of oil, gas, and other minerals to be considered a sale of tangible personal property with an extended period of time allowed to remit any taxes due.

Helicopters acquired through a lease, rental, lease-purchase, or similar transaction by a company involved in the extraction, production, or exploration for oil, gas, or other mineral qualify for this method. Helicopters used by companies providing service to qualifying companies also qualify for this alternate-reporting method. Qualifying companies do not pay sales tax on lease or rental payments, but remit the tax on the sales price in equal installments over the terms of the lease, rental, or lease-purchase contract.

193. Collection from Interstate and Foreign Transportation Dealers

This alternative method of tax payment allows transportation companies operating in interstate and foreign transportation of passengers or property to remit taxes based upon the percentage of Louisiana miles to total miles. Pursuant to R.S. 47:306.2(B)(2) “Louisiana mileage” shall not include mileage in Louisiana that is a segment or part of a stream of trade, traffic, transportation, or movement of passengers or property between a point in this state and a point located offshore beyond the territorial limits of any state. R.S. 47:306.2(B)(1) also provides that a unit of transportation measurement other than mileage may be used if appropriate based on industry custom and type of transportation. Those transportation dealers registered under R.S. 47:306.1 on June 22, 2005, and who provide transportation between points in Louisiana and points offshore outside the territorial limits of any state during the sales and use tax period immediately preceding June 22, 2005 are deemed to have elected to report under these statutes and shall begin reporting in accordance with them in lieu of R.S. 47:306.1 unless the taxpayer notifies the secretary to the contrary.

This is an alternate reporting method, not an exemption, and will likely result in timing differences on taxes remitted. The estimated fiscal effect of this statute is $0.

194. Extended Time to Register Mobile Homes

This provision allows purchasers of mobile homes, as defined by R.S. 9:1149.2(3), to extend the time to apply for a certificate of title from five days after delivery to the 20th day of the month following the month of delivery of the home. This allows between 20 to 50 days to apply for a title. If a mobile home is immobilized prior to registration, the mobile home is not subject to sales tax. The purpose of this provision is to allow purchasers of mobile homes more time to immobilize the mobile home. However, beginning January 1, 2010, legislation eliminated the ability of manufactured home purchasers to avoid paying tax through an act of immobilization.

Legal Citation

Beneficiaries
Purchasers of mobile homes that immobilize them at the time of purchase

Estimated Fiscal Effect
This statute was amended to eliminate the ability of manufactured home purchasers to avoid paying tax through an act of immobilization. This is a statutorily prescribed method of taxation, not an exemption, and will likely result in timing differences on taxes remitted. The estimated fiscal effect of this statute is $0.
195. “Sales or Cost Price” of Refinery Gas

These exclusions define the valuation of refinery gas, except feedstock, either sold or produced. This value is determined for each calendar year. Sales of such property are subject to tax under R.S. 47:301(13)(d) and the use of such property by the producer is subject to the tax under R.S. 47:301(3)(f). The price of refinery gas shall be the maximum of 52¢ per MCF multiplied by a fraction the numerator of which shall be the posted price for a barrel of West Texas Intermediate Crude Oil on December 1 of the preceding calendar year and the denominator of which shall be $29. This valuation applies to both state and local governments. The valuation for calendar year 2021 is $0.798 and for calendar year 2022 is $1.173. This valuation is identical to the valuation originally set under R.S. 47:305(D)(1)(h) (See number 111, Sales Tax Section).

Estimated Fiscal Effect
This is a valuation formula only. The estimated fiscal effect of this statute is $0.

196. News Publications Distributed at No Cost to Readers

This provision sets the cost price of news publications that are distributed at no cost to their readers. In order for the method to apply, the publisher of the news publication must pay unrelated third parties to print the news publication. The cost price is the lesser of the following costs: (1) the printing costs paid to unrelated third parties to print such news publications, less any itemized freight charges for shipping the publication to the publisher and any itemized charges for paper and ink, or (2) payments to a dealer or distributor as consideration for distribution of the news publication.

197. Leases or Rentals of Railroad Rolling Stock and Leases or Rentals by Railway Companies and Railroad Corporations

This alternate-reporting method removes lessors of railroad rolling stock from the requirement to charge the lease or rental tax to their lessees. This alternate-reporting method still requires lessees or rentees, with the exception of railway companies or railroad corporations, to self-assess the lease or rental tax and remit the tax directly to the state. The purpose of this method is to relieve the lessors of railroad rolling stock from the burden of collecting the rental tax on rolling stock and to provide relief to railway companies and railroad corporations from the lease or rental tax.

Estimated Fiscal Effect
This is a statutorily prescribed method of taxation, not an exemption, and will likely result in timing differences on taxes remitted. The estimated fiscal effect of this statute is $0.

198. Sales Through Coin-Operated Vending Machines

This exclusion allows sales of tangible personal property through vending machines to be free of sales tax. This exclusion defines the sale to the dealer for resale in a vending machine to be a retail sale. The vending machine company is subject to tax on the purchase price of the property. No additional sales tax is due on the subsequent sale through the vending machine. The purpose of this exclusion is to define the taxable point of sale and to simplify the collection and reporting of the tax.

Legal Citation

Beneficiaries
Dealers who sell their product through vending machines

Estimated Fiscal Effect
This is a statutorily prescribed method of taxation, not an exemption. It will likely result in timing differences on taxes remitted. There is no reporting requirement for these transactions.
199. Vendor’s Compensation

This credit compensates the dealer in accounting for and remitting the sales tax. Each dealer is allowed to deduct 1.05 percent from the tax due provided the reports are submitted and paid to the Department of Revenue on a timely basis. The purpose of this credit is to compensate the dealer in accounting for and remitting the sales taxes.

Effective July 1, 2018, the vendor’s compensation rate was reduced to .84 percent. Act 1 of the Third Extraordinary Session imposed a 0.45% sales tax on all taxable transactions via R.S. 321.1; however, sales tax imposed pursuant to R.S. 321.1 is not eligible for vendor’s compensation. The 0.84% is the mathematical equivalent of 4 cents out of 4.45 cents (4/4.45) of the .935% vendor’s compensation.

Effective August 1, 2020, Act 27 of the 2020 First Extraordinary Session increased the rate of vendor’s compensation from .935% to 1.05%.

200. Sales Tax Remitted on Bad Debts from Credit Sales

This refund provision grants financial relief to vendors who remit sales taxes to the state that they are subsequently unable to collect from their customers. The sales tax bad-debt recovery provision does not include rentals and leases. The purpose of this refund was to allow taxpayers a refund of sales taxes remitted to the Department, but not collected from their customers.

Legal Citation

R.S. 47:315

Origin

Effective Date

July 20, 1976

Beneficiaries

Vendors who have remitted the tax on credit sales of tangible personal property that ultimately was uncollectible from their customers

Estimated Fiscal Effect

During fiscal year 2020-2021, $442,206 in sales tax refunds were issued for bad debts on credit sales. The Department is unable to estimate the future fiscal effect of this refund since it fluctuates from year to year.

{ Refunds }

201. State Sales Tax Paid on Property Destroyed in a Natural Disaster

This refund provision gives financial assistance to persons who have suffered uninsured losses in natural disasters. The sales tax paid on destroyed property can be refunded upon the filing of a proper claim. The refund is based upon taxes paid by the owner on the destroyed property. The purpose of this refund is to provide financial relief to persons who have suffered uninsured losses in natural disasters.

Legal Citation
R.S. 47:315.1

Origin

Effective Date
August 17, 1969

Beneficiaries
Owners of property destroyed by a natural disaster in an area determined by the President of the United States to need federal assistance

Estimated Fiscal Effect
During fiscal year 2020-2021, a negligible amount in sales tax refunds were issued for state sales tax paid on property destroyed in a natural disaster. The Department is unable to estimate the magnitude of natural disasters occurring in Louisiana in the future; therefore, the Department is unable to estimate the future fiscal effects.

202. Materials Used in the Construction, Restoration, or Renovation of Housing in Designated Areas

This refund provision offers a financial incentive to persons who renovate, restore, or rehabilitate existing structures or who construct new housing in certain blighted areas of the state. These areas are determined by local governing authorities. The purpose of this refund provision is to encourage people to improve the conditions of the blighted areas.

203. Sales, Leases, or Rentals of Durable Medical Equipment Paid by or Under Provisions of Medicare

This refund provision allows a person paying tax on the purchase or rental of durable medical equipment that is paid by or under the provisions of Medicare to request a refund of the state taxes paid. Most qualifying purchases are already exempted from the state sales tax under pertinent provisions of R.S. 47:305(D). However, leases are not exempted from sales tax under the provisions of R.S. 47:305(D).

204. Sales Tax Collected by Qualified Charitable Institutions

This provision allows a restricted refund of sales tax collected by a qualified charitable institution on the sale of donated tangible personal property or items made from donated property. The refund must be used exclusively in Louisiana for land acquisition, capital construction, or equipment, or related debt service or job training, job placement, employment, or other related community services and support program costs.

205. Louisiana Tax Free Shopping Program
This provision offers refunds of state and local sales taxes on certain purchases made by international tourists to encourage increased tourism in Louisiana. By paying an annual $100 fee, merchants will be included in a listing of tax-free stores which is distributed to international tourists. The purpose of the refund provision is to encourage tourists to purchase goods in Louisiana, which in turn benefits the retail dealers.

Estimated Fiscal Effect
Pertinent transactions are entirely exempt from state sales and use taxes for FYE 6-22 and FYE 6-23. The estimated fiscal effect is negligible.

206. Motor Vehicles Used by Those with Orthopedic Disabilities
This rebate provision provides financial relief to individuals or entity on behalf of an individual purchasing vehicles to be used by persons with orthopedic disabilities. The modifications shall be made in accordance with a prescription or letter issued for the person by a physician, a licensed chiropractor, or a driver rehabilitation specialist. Orthopedically disabled means a person who has permanent, limited movement of body extremities and loss of physical functions, resulting in the need for a specially modified vehicle for transport. The purchaser may apply for a rebate of the state sales tax paid after necessary vehicle modifications have been made to transport the disabled person. The purpose of this rebate is to allow taxpayers a refund of the state sales tax paid to purchase vehicles for the disabled.

207. Fiber - Optic Cable Equipment Rebate

This rebate authorizes a winning bidder that is awarded a census block in the Rural Digital Opportunity Fund Auction to claim a rebate of state and local sales and use taxes paid by the winning bidder on fiber-optic cable equipment used for broadband networks in unserved areas in Louisiana. The rebates amount to 50% of the sales and use tax paid by the winning bidder on fiber-optic cable equipment. Qualifying “Fiber-Optic Equipment” includes: (1) Telecommunications fiber; (2) Wires; (3) Poles; (4) Supports; (5) Lashing Cable; (6) Conduit; (7) Communication Handholes; and (8) Customer Premise Equipment.

Due to the unknown number of participants that will operate in the state and receive awards from the FCC, in addition to the wide variety of equipment eligible for the rebate, a reliable estimate of the magnitude of the revenue impact is not possible. A rough estimate based upon several assumptions including estimated total spending per structure, estimated expected awards in the state, estimated timing of awards, and estimated timing of eligible expenditures over the life of the federal program yields an estimate of approximately $750,000 in rebates during FYE 6-22 and each subsequent fiscal year through FYE 6-25.

208. Credit for Sales and Use Taxes Paid to Other States on Property Imported into Louisiana

This credit allows a person or company to reduce any use tax due by the equivalent sales tax lawfully paid to another qualified state. In order to qualify, the other state must allow a similar credit for Louisiana taxes and the tax charged must be similar in nature. The state of Louisiana has entered into agreements with other states to allow similar credits for Louisiana residents. The purpose of this provision is to reciprocate for the credit allowed by other states.

### 209. Credit for Use Tax Paid on Automobiles Imported by Certain Members of the Armed Services

This provision allows a credit to Louisiana residents, who have served in the armed services for two years or more, for sales taxes paid on automobiles. This credit will be honored for state and local taxes paid to any other state. The purpose of this credit is to provide financial assistance to members of the armed services.

### 210. Purchases Made with Food Stamps and WIC Vouchers

This exemption allows tax-free purchases of eligible food items if purchased with USDA food stamps or Women, Infants, and Children’s (WIC) vouchers. The federal government issues food stamps and WIC vouchers to qualified participants to purchase eligible food items. States are not allowed to tax these purchases as a requirement for receiving federal funding for the food stamp and WIC programs. Repeal of this exemption would cost the state federal food stamp funding. The purpose of this exemption is to comply with the federal government’s restrictions.

211. Use of Vehicles in Louisiana by Active Military Personnel

This exemption allows active military personnel to transfer motor vehicles into Louisiana exempt from sales tax under the following conditions:

- the personnel is on active duty in Louisiana;
- sales tax was collected in the state in which the vehicle was purchased; and,
- the purchaser was a resident or stationed on military duty in the state in which the vehicle was purchased.

The vehicle becomes subject to Louisiana sales tax when the person leaves active military service. A credit is allowed for taxes paid to other states under R.S. 47:303(A). This statute is similar to provisions of the Federal Soldiers and Sailors Civil Relief Act of 1940 (50 U.S.C. 574). Because of the provisions of the federal act, the credit allowed for taxes paid other states is not expected to create an additional loss of tax revenues. The purpose of this provision is to reciprocate for the credit allowed by other states.

212. Sales of Food for Preparation and Consumption in the Home

The Louisiana Constitution prohibits the taxation of food sold for preparation and consumption in the home. The constitutional amendment was approved by voters on November 5, 2002, with the full exclusion effective July 1, 2003. Sales of prepared foods by grocery stores, department stores, variety stores, drug stores, delicatessens, convenience stores, meat markets, seafood markets, and similar businesses do not qualify for the exclusion and are subject to the state sales tax. The purpose of this prohibition is to provide financial relief to the general public on food purchases.

Tax Incentives and Exemption Contracts
Tax Incentives and Exemption Contracts

{ Introduction }

The Department of Economic Development (LED) administers various tax exemptions and incentive programs for the benefit of qualifying businesses. The State Board of Commerce and Industry is responsible for reviewing and approving or disapproving applications for many of the tax incentive programs administered by the LED.

Depending on the legislative intent, businesses must meet specific criteria to be eligible for the various tax exemption and incentives and once approved, must continue to comply with the program guidelines to maintain eligibility. The purpose of these tax exemption and incentive contracts is to encourage specific economic development.

Types of Tax Exemptions

Tax exemptions can be in the form of sales and use tax rebates and exemptions, rebates and credits for income taxes, corporation franchise tax, and other taxes imposed by the state.

Significant Changes

2021 Regular Legislative Session

Act 81 extends the sunset date for both the Ports of Louisiana Investor tax credit and Ports of Louisiana Import-Export Cargo tax credit to July 1, 2025.

Act 292 creates the Louisiana Import tax credit, which authorizes a one-time nonrefundable income tax credit for imported cargo received by a port facility within its port credit incentive period. Eligible applicants must be a port facility user that imports more than 50 TEUs of cargo through Louisiana ports, increase its imported cargo volumes by at least 150% during its port credit incentive period as compared to imported cargo volumes during its base cargo volume period, and apply for certification with the Louisiana Department of Economic Development. The credit is equal to up to $50 per TEU of cargo imported through a Louisiana public port, or up to $100 per TEU of cargo imported through a Louisiana public port if entering into a project agreement with the state.

Act 401 changed the Sound Recording payroll credit for QMCs to a refundable credit for applications received on or after July 1, 2021.

1. **Atchafalaya Trace Heritage Area Development Zone Tax Exemption**

   This program is directed at small businesses that make use of the natural, cultural and historic assets of the Heritage Area.

   The Board of Commerce and Industry, after receiving approval from the review board consisting of the secretary of the Department of Revenue, secretary of Culture, Recreation and Tourism, chairman of the Atchafalaya Trace Heritage Area Commission, chairman of the House Committee on Ways and Means, chairman of the Senate Revenue and Fiscal Affairs Committee, the executive director of the Atchafalaya Trace Commission, and with the approval of the governor, may enter into contracts with heritage-based cottage industry concerns located in the development zone to grant tax credits to promote economic development and the creation of new jobs.

   **Qualifications**
   - The business must be located in the Heritage Area that covers the 13 parishes of Assumption, Avoyelles, Concordia, East Baton Rouge, Iberia, Iberville, Lafayette, Pointe Coupee, St. Landry, St. Martin, St. Mary, Terrebonne, and West Baton Rouge.
   - The owner of the business must be a resident of the Heritage Area development zone.
   - The business must make sustainable use of the cultural or natural heritage of the Heritage Area for purposes which include interpreting, accessing, developing, promoting, or reinforcing the unique character and characteristics of the heritage area.

   **Tax Credit**
   The tax credits that may be granted are:
   - a $1,500 credit for the business; and
   - a $1,500 credit for each net new hire of one full-time or two part-time employees for a position that did not previously exist, and new employees must have been a resident of the Heritage Area for at least 30 days prior to employment.
   - Both credits were reduced by Act 125 of the 2015 Legislative Session to $1,200.

   The credits can be claimed against individual income tax or corporation income or franchise taxes and the tax credit contracts are for five years.
2. **Brownfields Investor Tax Credit**  

The purpose of the brownfields investor tax credit is to stimulate environmental economic development in Louisiana by encouraging the cleanup, redevelopment, and productive reuse of brownfields sites in the state. A brownfields site is an identified area in the state for which the expansion, redevelopment, or reuse may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant.

**Application and Approval**

- Applications for the brownfields investor tax credits for remedial investigations and remediation actions must be jointly submitted to LED and the Department of Environmental Quality (DEQ).
- Upon receipt of the application, DEQ will issue a site specific identification number, which will be forwarded to LED and the Board of Commerce and Industry.
- Within 30 days of receipt of the application, DEQ will file any objections with the LED.
- The Board of Commerce and Industry will then make its recommendations to the governor for a final determination of the request for the tax credit.
- After approval by the governor, the applicant may proceed with the voluntary remedial investigation with DEQ's oversight.
- After a satisfactory demonstration that the voluntary remedial investigation is complete, DEQ will approve the remedial investigation report and issue a certificate of completion to the taxpayer-applicant and forward it to the LED secretary, the Board of Commerce and Industry, and the secretary of the Department of Revenue.
- The certificate of completion will entitle the taxpayer to the 15 percent investigation tax credit.
- After approval by the governor of a voluntary remediation tax credit application, the applicant may proceed with his voluntary remediation action.
- After satisfactory demonstration that the voluntary remedial action has been accomplished and DEQ approves the voluntary remediation action report, DEQ will issue a certificate of completion to the taxpayer-applicant and shall forward a copy to the LED secretary and the secretary of the Department of Revenue.

**Investor Tax Credit**

Taxpayers are allowed a credit against state income tax for the investment in a voluntary remediation action or a voluntary remedial investigation as follows:

- 15 percent of the total investment on the certified completion date of a voluntary remedial investigation at a state-certified site.
- 25 percent of the total investment on the certified completion date of a voluntary remediation action at a state-certified site.
- Tax credits may never exceed the total investment in the site.

**Provisions effective for all taxable periods beginning on or after January 1, 2008**

Acts 2007, No. 392 amends 47:6021 as follows:

- 15 percent of the total investment made in a voluntary remedial investigation at a state-certified site.
- 50 percent of the total investment made in a voluntary remediation action at a state-certified site.

The Act also makes the brownfields tax credit transferable and provides that no credit will be allowed for any expenditures for which a taxpayer receives a credit, rebate, or other tax incentive granted by the state under any other provision of law.

**Application of Tax Credits**

- All entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities not taxed as corporations must claim credit on the partner's tax returns

Credit may be taken against the income tax for the taxable period in which the credit is earned and if the tax credit exceeds the amount of taxes due, any unused credit may be carried forward for ten years.
2. **Brownfields Investor Tax Credit**  
*(continued)*

**Recapture of Credits**
- If the secretaries of DEQ or the Department of Revenue find that funds for which a taxpayer received credits are not invested in and expended with respect to a state-certified assessment or remediation then the investor's state income tax for the taxable period will be increased by the amount necessary for the recapture of credit.
- Taxpayer applying for the credit will be required to reimburse DEQ for audits or recapture of credits.
- Credits previously granted to a taxpayer may be recovered by the secretary of the Department of Revenue through any collection remedy authorized by R.S. 47:1561.
- The only interest that may be assessed and collected on recovered credits is interest at a rate three percentage points above the rate provided in R.S. 9:3500(B)(1), which shall be computed from the original due date of the return on which the credit was taken.

**Ineligible Participants**
No corporation or partnership including any company owned, affiliated, or controlled, in whole or in part, by any company or person that is a responsible person or is in default on a loan made by the state or a loan guaranteed by the state, or any company or person who has ever declared bankruptcy under which an obligation of the company or person to pay or repay public funds or monies was discharged as a part of such bankruptcy will be eligible to receive this tax incentive.

3. **Cane River Heritage Tax Credit**

This program is directed at small businesses that make use of the natural, cultural and historic assets of the Cane River Heritage Area.

The Department of Culture, Recreation and Tourism may enter into contracts for periods not exceeding five years with a heritage-based cottage industry in order to facilitate the tax credits authorized by this Section. No contract shall be granted for any exemptions or credits which are not directly related to the concern located within the development zone, and no tax exemption or credit shall be granted for any tax or portion of a tax applicable to operations or activities of a concern located outside of the development zone.

**Qualifications**
- The business must be located in a Heritage Area development zone.
- The business must make sustainable use of the cultural or natural heritage of the Heritage Area for purposes which include interpreting, accessing, developing, promoting, or reinforcing the unique character and characteristics of the Heritage Area.

**Tax Credit**
The credits that may be granted are:
- a $1,500 credit for the business, and
- a $1,500 credit for each net new hire of one full-time or two part-time employees for a position that did not previously exist, and new employees must have been a resident of the Heritage Area for at least 30 days prior to employment.
- Both credits were reduced by Act 125 of the 2015 Legislative Session to $1,080.

4. **Ports of Louisiana Tax Credits**

The purpose of these credits is to encourage private investment in and the use of state port facilities in Louisiana. Because public funding sources for ports and port infrastructure facilities have not kept pace with the need to expand our ports and port facilities, it is determined that private investment and public-private partnerships should be encouraged as a means to assist the state in financing improvements to our state ports and port infrastructure facilities. The credits are as follows:

1. **Ports of Louisiana Investor tax credit for the total capital costs of a qualifying project**
   - LED will issue a credit for a qualifying project if the commissioner of administration, after approval of the Joint Legislative Committee on the Budget, certifies to LED securing the project will result in a significant positive economic benefit to the state.
   - After certification from the commission, LED may grant a tax credit up to 72% of the total capital costs of a qualifying project to be taken at up to five percent per tax year or shall grant such other amount of tax credit to be taken at such other percentage which is warranted by the significant positive economic benefit determined by the commissioner, but no tax credit granted for a qualifying project shall exceed $1.8 million per tax year; however, the total amount of credits granted on a qualifying project cannot exceed the total cost of the project. In addition, the Investor Tax Credits granted by the department to any recipient pursuant to this Section shall be limited to an amount which shall not result in a reduction of tax liability by all recipients of such credits to exceed $4.5 million in any fiscal year.
   - Investors earn the credit at the time expenditures are made, but no credits can be applied against a tax liability until July 1, 2014 and not until the project is approved by and LED certifies cost expenditures. LED will certify capital cost expenditures no less than twice during the duration of the qualifying project unless the investing company agrees, in writing, to reimburse the LED for the costs of any additional certifications.
   - Prior to issuance of any tax credit, a cooperative endeavor agreement shall be fully executed between the investing company or entity proposing the qualifying project and the public port in whose geographic jurisdiction the proposed qualifying project is to be located indicating cooperation and support among all of the parties.

2. **Ports of Louisiana Import Export Cargo credit**
   - Taxpayers must apply to and receive certification from LED
   - Taxpayers eligible for certification include those international business entities which provide to the department a verified statement of cargo volume data for the calendar year prior to the year of the application, specifically including the total annual volume and tons of breakbulk or containerized cargo imported and exported from or to, manufacturing, fabrication, assembly, distribution, processing, or warehousing facilities located in Louisiana.
   - An applicant whose exports and imports are limited to bulk commodities does not qualify.
   - LED will provide a statement of certification to each taxpayer that is certified for the credit after approval of the Joint Legislative Committee on the Budget. The certification, which is also sent to LDR, will contain the taxable year or years for which the taxpayer is allowed the credit and the amount of tax credit allocated for such taxable year or years.
   - The credit is equal to the product of multiplying five dollars by the taxpayer's number of tons of qualified cargo for the taxable year which exceeds the pre-certification tonnage or the product of multiplying the number of dollars by the taxpayer's number of tons of qualified cargo for the taxable year or portion of a taxable year which exceeds the pre-certification tonnage which is warranted by the significant positive economic benefit determined by the commissioner, whichever is less. In addition, the Import-Export Cargo credits granted by the department to any recipient shall be limited to an amount which shall not result in a reduction of tax liability by all recipients of such credits to exceed six million two hundred fifty thousand dollars in any fiscal year.
   - Credits will be allowed if the commissioner of administration certifies to LED that the increased utilization of public port facilities and other activity in Louisiana associated with the import or export of the international business entities qualified cargo will result in a positive economic benefit to the
4. **Ports of Louisiana Tax Credits (continued)**

   state and such certification is approved by the Joint Legislative Committee on the Budget, which approval shall not be granted earlier than July 1, 2014.

**Application of Credits**
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

**Estimated Fiscal Effect**
The Department is unable to estimate the future fiscal effect because the Department does not have data on approved or pending contracts. During Fiscal Year 2020-21, no tax credits were claimed.

5. **Motion Picture Investor Tax Credit**

   The purpose of the tax credit is to encourage development in Louisiana of a strong capital base for motion picture production in order to achieve an independent, self-supporting industry.

   - For state certified productions meeting certain criteria, the program provides a tax credit of up to 40% for qualified expenditures.
   - For Qualified Entertainment Companies (QEC) meeting certain criteria, the program provides a payroll tax credit of up to 20%.

**Limitation of the Credit**
- LED program issuance cap – for applications received on or after July 1, 2017, LED shall issue no more than $150 million per fiscal year.
- LDR taxpayer claim cap – beginning July 1, 2017, tax credit claims and transfers to the state shall not exceed $180 million per fiscal year.
- For applications received on or after July 1, 2017, credits may not be transferred or sold to another taxpayer.

**Application of Credits**
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

**Transferability of the Credit**
For applications submitted prior to July 1, 2017, any tax credits allocated to a person may be transferred to back to the state for eight-five cents per dollar or any tax credits allocated to a person and not previously claimed by any taxpayer against his income tax may be transferred or sold to another person for a $200 transfer fee per transferee subject to the following conditions:
- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
5. **Motion Picture Investor Tax Credit** *(continued)*

- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

For applications submitted on or after July 1, 2017, tax credits may be transferred back to the state for ninety cents per dollar, subject to a 2% transfer fee.

6. **Research and Development Tax Credit**

The purpose of the research and development tax credit is to encourage new and continuing efforts to conduct research and development activities within this state.

The Louisiana Research and Development Program provides up to a 30% tax credit on qualified research expenditures incurred in Louisiana. The program is open to companies who have incurred research and development expenditures in Louisiana and who meet certain requirements.

Louisiana has three different types of research and development applicants who earn credits at different rates and have different filing requirements:

- Increase in Louisiana Research and Development (50+ employees)
- Small Business Innovation Research Grant (SBIR/STTR)
- Less than 50 Employees

The following types of businesses that do not have a pending or issued United States patent directly related to the qualified research expenditures for which a credit is being claimed pursuant to La. R.S. 47:6015 are ineligible to apply for or receive benefits unless specifically invited by the LED to do so:

- Professional services firms as defined by departmental rule,
- Businesses primarily engaged in custom manufacturing and custom fabricating as defined by departmental rule.

The purpose of the research and development tax credit is to encourage new and continuing efforts to conduct research and development activities within this state.

**Sale of Unused Tax Credits**

For expenditures made in 2003 through 2008, taxpayers who are awarded tax credits in excess of their tax liabilities for a given year may elect to sell their unused tax credits to taxpayers with a Louisiana tax liability provided all of the following criteria are met:

1. The unused credits are sold for a minimum of 75 percent of the value of the tax benefits.
2. The taxpayer seeking to sell the unused credits belongs to one of the traditional or seed clusters as defined by LED.
3. The taxpayer seeking to sell the unused credit employs no more than 225 employees, of which 75 percent must be Louisiana citizens.
4. The sale of the tax credit must be approved by LED.

5. The purchaser of unused credits must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

**Application of Credits**

- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members

**Transferability of the Credit**

Credits certified for tax years 2018 and forward which are based upon participation in either the Small Business Technology Transfer Program or the Small Business Innovation Research Grant program that were not previously claimed by any taxpayer against his income or corporation franchise tax may be transferred or sold to another Louisiana taxpayer with a $200 transfer fee per transferee subject to the following conditions:

- A single transfer or sale may involve one or more transferees.
- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

7. **Digital Interactive Media and Software Tax Credit**

The purpose of the tax credit is to encourage development of a strong capital base for the production of digital interactive media in order to achieve a more independent, self-supporting industry.

Louisiana’s Digital Media and Software Tax Credit provides up to a 25 percent refundable tax credit for in-state labor, coupled with up to an 18 percent refundable credit for eligible production expenses.

- No cap and no minimum requirement.
- The tax credit is available for a refund of 100% of its value claimed on Louisiana state tax return OR certified applicants can receive 85% of the value earned as a rebate any time during the year.

**Application of Tax Credits**
- All entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals must claim credit on their individual income tax return.
- Entities not taxed as corporations must claim credit on the partner’s tax returns.

The tax credit will be allowed against the taxpayer’s income tax due for the taxable period in which the credit is earned and the immediately preceding period.

If the tax credit exceeds the amount of taxes due, any unused credit may be carried forward as a credit against subsequent tax liability for a period not to exceed ten years.

The amount of the tax credit may not exceed the amount of taxes due for the taxable period.

**Transferability of the Credit**

For tax credits earned for expenditures made on or before December 31, 2011, any tax credits allocated to a person and not previously claimed by any taxpayer against his income tax may be transferred or sold to another person, subject to the following conditions:

- A single transfer or sale may involve one or more transferees.
- Transferrors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
7. Digital Interactive Media and Software Tax Credit (continued)

- The credit transfer or sale does not extend the time in which the credit can be used.
- The transferee must apply the credits in the same manner and against the same taxes as the taxpayer originally awarded the credit.

9. **Louisiana Capital Companies Tax Credit Program**

The purpose of the Louisiana Capital Companies Tax Credit Program is to provide assistance in the formation and expansion of new businesses that create jobs in the state by providing for the availability of venture capital financing to entrepreneurs, managers, inventors, and other individuals for the development and operation of qualified Louisiana businesses.

**Program Administration**
- LED is responsible for maintaining and interpreting program policy.
- The Office of Financial Institutions (OFI) is responsible for performing the program's regulatory and examination functions.

**Certification of a Capital Company**
- Companies desiring certification as a Louisiana Capital Company must apply to the OFI Commissioner.
- The capitalization must be at least $200,000.
- Within 60 days of application, the OFI commissioner will issue the certification and notify the Department of Revenue and the commissioner of insurance of the certification or refuse the certification and notify the applicant the grounds for the refusal.
- The OFI commissioner must furnish a list of persons or businesses who may claim the tax credit to the Department of Revenue and the commissioner of insurance quarterly.

**Income Tax Credit or Premium Tax Reduction**
- Any person who invests in the certified capital of a certified Louisiana capital company may claim either an insurance premium tax reduction or an income tax credit in the taxable year in which the investment is made.
- The income tax credit is 35 percent of the capital investment.
  1. The total income tax credits granted to all taxpayers are limited to $2 million per calendar year.
  2. If the total credits requested exceed $2 million during any calendar year, the tax credits will be allocated among certified Louisiana capital company groups.

9. **Louisiana Capital Companies Tax Credit Program (continued)**

- Insurance premium tax reductions are allowed as follows:
  1. For tax reduction credits granted to investors prior to January 1, 2001, the tax reduction will be applied to the premium tax liability not to exceed ten percent of the premium tax reduction in any one year until one hundred percent of the premium tax reduction has been claimed by the insurer; or
  2. For tax reduction credits granted to investors after January 1, 2001, the tax reduction will not be applied to any premium tax liability generated within two years from the date of investment and will be applied to the premium tax liability not to exceed 12 percent of the premium tax reduction in any one year until one hundred percent of the premium tax reduction has been claimed by the insurer;
  3. The tax reduction credits may not exceed the premium tax liability in any taxable year.
  4. If a holder of premium tax reduction credits does not use credits that are generated after December 31, 1999, and which are eligible to be used in a given calendar year, those premium tax reduction credits may be carried forward and used in any subsequent year until such credits are exhausted; provided, the reduction in any taxable year shall not exceed the premium tax liability for the taxable year.
  5. Tax reduction credits are not allowed for investments made after December 31, 2003.
  6. The total insurance premium tax credits granted in any calendar year may not result in an additional reduction of total premium tax revenues greater than $5 million.
  7. If the total requests for premium tax credits exceed the $5 million maximum amount, the premium tax credits will be allocated to the certified Louisiana capital company groups.
9. Louisiana Capital Companies Tax Credit Program (continued)

Transfer of Tax Credits
- LED will provide for the transfer or sale of premium and income tax credits.
- The transfer or sale of income or premium tax credits will be restricted to transfers or sales between affiliates and sophisticated investors.
- No acquirer of tax credits will be able to use any premium tax credit earned after July 1, 2002, until at least the second anniversary of the investment date of the investment pool from which the premium tax credits were earned.
- Even though a transfer or sale of credits may involve several entities, only one election may be made during any calendar quarter.
- An investor in a certified Louisiana capital company may only transfer or sell credits once during a calendar quarter and the entity that purchases the credit may not transfer credits obtained during the quarter in which the credits are transferred or purchased.
- In any subsequent calendar year, the purchaser of the credits may make one transfer election per calendar quarter.

Corporation Income and Franchise Tax Exemption
- Any corporation that is a certified Louisiana capital company will be exempt from the corporation income tax and the corporation franchise tax for five consecutive taxable periods.
- The corporation income tax exemption begins with the taxable period in which the capital company is certified. If the corporation is certified before the beginning of its first taxable period, the exemption will begin with the corporation's first taxable period.
- The corporation franchise tax exemption begins with the next taxable period following the taxable period in which capital company is certified. If the corporation is certified before the beginning of its first taxable period, the exemptions will begin with the corporation's second taxable period.

10. **New Markets Tax Credit**

The purpose of the new markets tax credit is to encourage and attract private sector qualified equity investment in a qualified community development entity in the state.

- A tax credit is allowed for investments in qualified low-income community development entities (CDEs).
- Before claiming the tax credit, investors must make application to the Department of Revenue and the credits will be allocated on a first-come, first-served basis. All requests received on the same business day will be treated as received at the same time, and if the aggregate amount of the tax credit requests received on a single business day exceed the total amount of available tax credits, tax credits will be approved on a pro rata basis.
- Investors are eligible for the tax credit if the Community Development Entity (CDE) has made qualified low-income community investments and no more than 25 percent of their investments in low-income communities are in the form of loans.
- Qualified low-income community investments cannot consist of investments secured by any state or federal governmental entity.
- Unused credits can be carried over to succeeding years until used.

**Limitations on Tax Credit**

- The $50 million cap on the credit for initial investments made after July 1, 2007 has been reached.
- The $25 million cap for investments made in 2008 authorized by Act 4 of the 2008 Second Extraordinary Session has been reached.
- The $12.5 million cap for investments made in 2009 authorized by Act 4 of the 2008 Second Extraordinary Session has been reached.
- The $12.5 million cap for investments made in 2010 authorized by Act 463 of the 2009 Regular Legislative Session has been reached.

**Fiscal Effect**

During FYE 2020-21, less than $10,000 in corporation income and franchise tax credits were claimed. The estimated fiscal effect for this program is based on no new credits being issued and the use of credits being carried forward. At the time of publication, we have no data on the carry forward credits and the Department is unable to estimate the fiscal effect for FYE 6-22 and FYE 6-23.
11. University Research and Development Parks

The purpose of these tax exemption contracts is to encourage the development of university biomedical research and development parks. The Board of Commerce and Industry, with the approval of the governor and the Joint Legislative Committee on the Budget, can grant tax exemption contracts for university research and development parks as follows:

- Corporation franchise tax exemptions;
- Corporation income tax exemptions;
- Exemptions from any other taxes imposed by the state;
- Rebates of sales and use taxes on machinery, equipment, materials, and building supplies; and
- Rebates of sales and use taxes on any other goods and services.

The total annual amount of the state exemptions may not exceed 30 percent of the liability for corporate franchise, income, and state sales and use taxes of the business for the previous fiscal year. The total annual sales tax rebate amount for any fiscal year may not exceed the sales tax liability for the previous fiscal year.

This exemption contract may be granted for a period not to exceed five years and renewed for periods of up to five additional years, provided that the total number of years of the exemption does not exceed ten years.

12. Industrial Tax Equalization Program

This program’s purpose is to encourage the establishment and retention of manufacturing establishments, headquarters, or warehousing and distribution establishments in Louisiana by providing a procedure whereby the total state and local taxes imposed upon these establishments may be reduced, after all other tax incentives for specific sites are applied, to the levels imposed by other competing states.

Requirements for Exemption
The Board of Commerce and Industry may enter into a tax equalization contract only if each of the following requirements are met by the manufacturing establishment, headquarters, or warehousing and distribution establishments:

- The establishment must either be located in another state or be located in Louisiana and contemplating locating in another state that has equivalent or comparable advantages as the area in Louisiana in which the establishment is or seeks to be located.
- The state in which the establishment is located or is contemplating locating must have a total state, parish, and local tax structure that offers a greater tax advantage to the establishment than does the taxing structure of Louisiana.
- The applicant for tax equalization may be any form of business entity.
- The sites under consideration in Louisiana and the competing state must be valid and viable for the proposed operations.
- The secretary of the Department of Economic Development must make a recommendation to the governor to extend an invitation to apply for tax equalization.
- The applicant must receive an invitation to apply from the governor.

Tax Exemptions

13. **Exemptions for Manufacturing Establishments**

The purpose of the exemption for manufacturing establishments program is to induce industrial development in the state, encourage the establishment of new business enterprises and the retention and expansion of existing businesses that fit the Vision 2020 profile.

Applications must be submitted to LED and, at the same time, notices of the application and amount and type of exemption must be sent to each member of the legislature and to the assessor and governing authority of each political subdivision where the manufacturing establishment is located or is to be located.

LED will review the application to determine whether the requirements for an exemption contract have been satisfied and will determine whether exemptions should be provided in a contract to be recommended to the Board of Commerce and Industry.

The Board of Commerce and Industry will review any recommendations for exemptions made by the governor and LED and conduct public hearings on any application for exemption. The board will forward its recommendations and the proposed tax exemption contract and all other supporting documents to LED, the governor, the Legislative Budget Committee, the assessor, each member of the legislature, and the governing authority of the political subdivision before the governor takes action. Upon receipt of the recommendations and proposed contract the governor and the Legislative Budget Committee will each have 30 days to approve or reject the contract and, if approved, to return the contract to the board, LED and Revenue for implementation.

The Board of Commerce and Industry with approval of the governor may enter into contracts for periods not exceeding five years and the contracts may be renewed for periods of up to five years, provided that the total number of years of exemption shall not exceed 15 years unless provided in R.S. 47:3204(B)(1)(b).

### Requirements for Exemption

The secretary of economic development and the Board of Commerce and Industry may consider any of the following factors in determining whether to award manufacturing establishment exemptions:

1. The benefits to the state in terms of continued employment opportunities, investments in, and modernization of, facilities, expenditures for goods and services, and contributions to the revenue base of the state and local governments and the creation of new and additional permanent jobs.

### Tax Exemptions that May be Granted:

1. Corporation franchise tax.
2. Corporation income tax.
3. State sales and use taxes on machinery and equipment to be used by the applicant, on materials and building supplies, whether purchased directly or through a contractor, to be used in repair, reconstruction, modification, or construction of plant and facilities, and on materials and supplies used in the manufacture or production of the applicant’s product.
4. State sales and use taxes on any other goods and services used or consumed by the applicant.
5. Any other state taxes imposed directly on the applicant.

14. Enterprise Zones

Enterprise zones are areas with high unemployment, low income, or a high percentage of residents receiving public assistance.

The Enterprise Zone, or EZ program is a jobs incentive program that provides Louisiana income and franchise tax credits to a new or existing business located in Louisiana creating permanent net new full-time jobs, and hiring at least 50% of those net new jobs from one of four targeted groups. The benefit provides:

- Either a one-time $3,500 or $1,000 job tax credit for each net new job created.
- A rebate of state sales and use taxes paid at the prevailing rate on qualifying materials, machinery, furniture, and/or equipment purchased or a 1.5% refundable investment tax credit on the total capital investment, excluding tax exempted items. The state sales and use tax rebate or 1.5% rebate shall not exceed $100,000 per net new job created under the contract.

**Eligibility**

This program is open to any Louisiana business (new or existing) not engaged in gaming, residential development, a church, retail business or restaurant with NAICS of either 44, 45, or 722, and that will:

- Create a minimum of 5 permanent net new full-time jobs within 24 months of their project start date or increase their current nationwide employment by 10% within the first 12 months.
- Hire 50% or more of the net new jobs created from one or more of the certification requirements from these targeted groups:
  1. Residency-someone living within an enterprise zone within the state;
  2. People receiving an approved form of public assistance;
  3. People lacking basic skills. A person performing below a ninth grade proficiency in reading, writing or mathematics; or
  4. People unemployable by traditional standards.
- Businesses with NAICS codes beginning with 44, 45, 721 and 722 can participate in the program if the advance notification is filed on or after July 1, 2020, and before December 31, 2021. Retail businesses eligible to participate in the program because of Acts 2020 1st Ex. Sess., No. 28 are not eligible to earn benefits after June 30, 2023.
14. **Enterprise Zones (continued)**

### Jobs Tax Credit
- Either a one-time $3,500 or $1,000 jobs tax credit for each certified net new job created.
- Effective July 6, 2007, an employee must be a U.S. citizen and domiciled in Louisiana or establish domicile in Louisiana within 60 days of their employment.
- The jobs tax credit can be claimed against the taxpayer’s state income or franchise tax liabilities and Limited Liability Companies and Subchapter S corporations may pass the job tax credit to the owners listed on the enterprise zone contract.
- The tax credits may be carried forward up to 10 years from the year earned.

### Sales Tax Rebate
- State sales and use tax rebates are paid on materials, furniture, fixtures, machinery and equipment purchased and used on the enterprise zone site.
- Items must be delivered during the project or construction period.
- The rebate period cannot exceed 30 months. For projects with advance notifications file on or after April 1, 2016, the amount of the rebate of sales and use taxes is limited to one hundred thousand dollars per net new job created.

### Investment Tax Credit
- Effective July 10, 2007, taxpayers are given the option between the state sales and use tax rebate and a refundable investment income tax credit equal to 1.5 percent of qualified expenditures.
- Qualified expenditures are defined as amounts classified as capital expenditures for federal income tax purposes plus exclusions from capitalization provided for in Internal Revenue Code Section 263(a)(1)(A) through (L), minus the capitalized cost of land, capitalized leases of land, capitalized interest, capitalized costs of manufacturing machinery and equipment to the extent the capitalized manufacturing machinery and equipment costs are excluded from sales and use tax pursuant to R.S. 47:301(3), and the capitalized cost for the purchase of an existing building. For projects with advance notifications filed on or after April 1, 2016, the amount of the investment income tax credit is limited to one hundred thousand dollars per net new job created.

### Application of Jobs Tax Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members

15. **Sound Recording Investor Tax Credit**

The purpose of the tax credit is to encourage development in Louisiana of a strong capital and infrastructure base for sound recording productions in order to achieve a more independent, self-supporting music and sound recording industry.

- For state certified productions meeting certain criteria, the program provides a tax credit of up to 18% for qualified expenditures.
- For Qualified Music Companies (QMC) meeting certain criteria, the program provides a payroll tax credit of up to 15%.
- There is an additional ten percent credit to the base investment credit if the base investment is expended by a Qualified Music Company (QMC) on a sound recording production of a resident copyright.
- After certification of credits, LED submits the tax credit certification letter to LDR. Upon receipt of the tax credit certification letter and any necessary additional information, LDR makes payment to the investor from the current collections of the taxes collected pursuant to Chapter 1 of Subtitle II of this Title, as amended.

**Limitation on Tax Credit**

- The total amount of credits certified during any calendar year is limited to $2.16 million, with 50% of the program cap reserved for QMC’s.
- The QMC per project cap is $100,000 per year, and for applications received prior to July 1, 2021, the credit shall never reduce an investor’s income tax liability below 50% of the amount of the liability prior to the application of the credit. For applications received on or after July 1, 2021, the credit is refundable.
- Credits will be granted on a first-come, first-served basis.
- If the total amount of credits applied for exceeds $2.16 million, the excess will be treated as having been applied for on the first day of the subsequent year.

16. **Urban Revitalization Tax Incentive Program**

The purpose of the Urban Revitalization Tax Incentive Program is to stimulate business and industrial growth in the depressed areas of the state by providing assistance to businesses and industries and by providing tax incentives in these areas.

**Administration of Program**
- LED is responsible for administering the program.
- LED will establish criteria for qualifications of urban revitalization zones based on unemployment, youth unemployment, per capita income, migration, and the number of residents receiving public assistance.
- LED will only designate urban revitalization zones after receiving notice from the appropriate governing authority that the governing authority agrees to the following:
  1. Devise and implement a program to improve police protection within the zone.
  2. Give priority to the use in the zone of any applicable funds received from the federal government.
  3. Assist LED in certifying employers to be eligible for the benefits of this program.
  4. Authorize LED to supersede certain specified local regulations and ordinances that may serve to discourage economic development within the revitalization zone.
  5. Assist LED in evaluating progress made in any revitalization zone within its jurisdiction.

**Requirements**
- The business enterprise and its contractors give preference and priority to Louisiana business enterprises and to Louisiana suppliers, contractors, and labor, except where not reasonably possible to do so without added expense, substantial inconvenience, or sacrifice in operational efficiency.
- Requests for exemptions must be accompanied by an endorsement resolution approved by the governing body of the appropriate municipality, parish, port district, or industrial development board in whose jurisdiction the establishment is to be located.
- The business is or shall be located within the boundaries of an urban revitalization zone.
16. **Urban Revitalization Tax Incentive Program (continued)**

- The business located in an urban revitalization zone and receiving benefits certifies that at least 35 percent of its employees:
  1. Are residents of the same or a contiguous revitalization zone as the location of the business.
  2. Were receiving some form of public assistance prior to employment.
  3. Were considered unemployable by traditional standards or lacking in basic skills.
  4. Any combination of the above.

- Employee certifications must be updated annually if the business is to continue receiving benefits.

**Incentives**

The Board of Commerce and Industry, after consultation with the secretaries of LED and LDR, and with the approval of the governor, may enter into contracts to provide for the following tax incentives:

- Exemption from all or a portion of the state income taxes for five years and renewable once for five years.
- Exemption from all or a portion of the state corporate franchise taxes for five years and renewable once for five years.
- $5,000 tax credit per net new employee as determined by the company’s average annual employment reported under the Louisiana Employment Security Law.
  1. This tax credit may be applied to any state income or franchise tax liability during the taxable year in which the increase in average annual employment occurred.
  2. If the entire credit cannot be used in the year earned, the excess of the credit can be refunded.
- These incentives are in lieu of any incentives under the Enterprise Zone Program.

**Estimated Fiscal Effect**

This program has sunsetting. No activity is anticipated because at the time of publication, we have no data on the carry forward credits available for use.
17. **Mentor-Protégé Tax Credit**

The Mentor-Protégé tax credit program allows qualifying entities that fulfill the terms of a Mentor-Protégé Agreement to earn a refundable tax credit. Qualifying mentors must possess a favorable financial health, including profitability for at least two years; demonstrate its capability to provide managerial or technical skills transfer or capacity building; and meet the goals and objectives of the Mentor-Protégé Agreement. Qualifying protégés must be certified active in the Small And Emerging Business Development Program or registered and approved in the Small Entrepreneurship Program by LED and be willing to participate with a mentoring firm. The program is limited to issue $1,000,000 in credits per year and each Mentor-Protégé agreement is limited to $50,000 of credits.

18. **Technology Commercialization Credit and Jobs Program**

The purpose of the technology commercialization credit program is to induce companies to invest in the commercialization of Louisiana technology in Louisiana. The technology must be created by a Louisiana business and researched by a Louisiana university or college. The program provides a 40 percent refundable tax credit for companies that invest in the commercialization of Louisiana technology and a six percent payroll rebate for the creation of new, direct jobs.

**Tax Credits**
- Qualifying individuals or businesses that invest in the commercialization of Louisiana technology in the state may apply for a tax credit on any income or corporation franchise tax liability and earn a refundable tax credit based on new jobs created.
- Qualifying research centers that develop Louisiana technology to be commercialized may apply for a refundable tax credit based on new jobs created.
- Income or corporation franchise tax credit is equal to 28.8 percent of the amount of money invested in commercialization costs for one business location meeting the requirements of R.S. 51:2353(C).
- Credits will be granted for a period of not less than five tax years and can be renewed for an additional five tax years if further qualifications are meet.
- Neither credit can be applied for and granted for more than ten consecutive tax years for the same location.

**Application of Tax Credits**
- Entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals, estates, and trusts must claim credit on their income tax return.
- Entities not taxed as corporations must claim credit on the partner’s tax returns.

19. Angel Investor Tax Credit Program

The purpose of the Angel Investor Tax Credit Program is to encourage third parties to invest in early stage wealth-creating businesses in the state, expand the state’s economy by enlarging its base of wealth creating businesses, and to enlarge the number of quality jobs available to retain the presence of young people educated in the state.

Qualifications
The Angel Investor Tax Credit Program is administered by LED. Individuals or entities that invest in a Louisiana Entrepreneurial Business that is domiciled in the state, employs 50 or fewer full-time employees, and has gross annual sales of less than $10 million or has a business net worth of less than $2 million may apply for income or corporation franchise tax credits for a period of five tax years.

Applicants must meet the following qualifications:

- The investment in the Louisiana Entrepreneurial Business must be an investment that is at risk and not secured or guaranteed. "At risk" means that the repayment of the investment is entirely dependent on the success of the business.
- The funds invested by the applicant cannot have been raised as a result of other Louisiana tax incentive programs, funds pooled or organized through capital placement agreements for the purpose of equity and venture capital investing unless approved by LED, or as the result of illegal activity.
- Angel investors cannot be the principal owners of the business who are involved in the operation of the business as a full-time professional activity nor can their spouses and relatives within the third degree of consanguinity or affinity. A principal owner means one or more persons who own an aggregate of 50 percent or more of the Louisiana Entrepreneurial Business.
- The use of proceeds from the investment must be used for capital improvements, plant equipment, research and development, working capital for the business, or other business activity as may be approved by LED. The proceeds cannot be used to pay dividends, repay shareholder’s loans, redeem shares, or repay debt unless approved by LED.
- The applicant must meet the definition of accredited investor established by LED.
- The investment in the Louisiana Entrepreneurial Business by the applicant must be maintained for three years unless otherwise approved by LED.
19. Angel Investor Tax Credit Program (continued)

Louisiana Entrepreneurial Business must meet the following requirements:

- The principal business operations of the business are located in Louisiana.
- Before the investment by the taxpayer, the business has received approval as qualified to receive angel investor tax credits by LED.
- The Louisiana Entrepreneurial Business must demonstrate that it will be a wealth-creating business for Louisiana by demonstrating in its business plan that it will have more than 50 percent of its sales from outside Louisiana.
- The business is not a business engaged primarily in retail sales, real estate, professional services, gaming or gambling, natural resource extraction or exploration, or financial services including venture capital funds.

Tax credit qualifications:

- Credits are issued on a first-come, first-served system.
- Credit is equal to up to 25% of investment and the credit is divided equally over two or three years.
- Credit is usable in the income tax year that occurs 24 months from certification.
- The investment in the Louisiana Entrepreneurial Business may not exceed $720,000 per year per business and $1.44 million total per business.
- The credit will be allowed against the income tax for the taxable period in which the credit is earned and the franchise tax for the taxable period following the period in which the credit is earned.
- The total angel investor tax credits granted by LED in any calendar year may not exceed $3.6 million.
- There is an enhanced credit equal to 35% of the investment amount made in a Louisiana Entrepreneurial Business located in federal opportunity zones and an additional $3.6 million in cap for the enhanced credit applicants only.

Transferability of the Credit

Any credits allocated to a taxpayer and not previously claimed by any taxpayer against its tax may be transferred or sold to another taxpayer, subject to the following conditions:

- A single transfer or sale may involve one or more transferees.

19. Angel Investor Tax Credit Program (continued)

- Transferors and transferees must submit notification of any transfer or sale of tax credits to LED and LDR within 30 days after the transfer or sale of the tax credits.
- Failure to comply with the transfer requirements will result in the disallowance of the tax credit until the taxpayers are in full compliance.
- The credit transfer or sale does not extend the time in which the credit can be used.

Application of Tax credits

- All entities taxed as corporations for state tax purposes must claim credit on their corporation income and franchise tax return.
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities not taxed as corporations must claim credit on the partner's tax returns.
- Tax credits will expire beginning with the 11th tax year after the tax year in which the credit was originally granted.

20. Musical & Theatrical Productions Tax Credit

The purpose of the tax credit is to establish and promote Louisiana as one of the primary places in the United States in which live performances, from creation to presentation, are present and thriving.

For state certified productions meeting certain criteria, the program provides a tax credit for qualified production expenditures with additional tax credits available for payroll.

Limitation on tax credit:
- Tax credit cannot exceed the total base investment in that production.
- The total amount of tax credits granted by LED in any fiscal year shall not exceed $10 million, with 50% reserved for productions by nonprofit organizations.
- Credits will be granted on a first-come, first-served basis.
- If the total amount of credits applied for exceeds the $10 million availability, the excess will be treated as having been applied for on the first day of the subsequent year.

Application of Jobs Tax Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members

Transferability of the Credit
- A company or financier may, on a one-time basis, transfer the credit or any refund of an overpayment to an individual or other entity including without limitation a bank or other lender, provided that the transfer shall not be effective until receipt by the Department of Revenue of written notice of such transfer. Transferors and transferees shall submit to the Department of Revenue, in writing, a notification of any transfer of the tax credit within ten business days after the transfer. The credit shall be allowed for the taxable period in which expenditures eligible for a credit are expended.

21. Retention and Modernization Credit
The purpose of the retention and modernization credit is to provide an inducement for businesses to remain in the state and not relocate outside the state and to modernize their existing operations in Louisiana.

Tax Credit
The credit is granted at the rate of up to five percent of the amount of qualified expenditures incurred by the employer for modernization with the credit divided in equal portions for five years. The credit can be claimed against individual income tax or corporation income or franchise taxes.

A retention and modernization tax credit shall expire and have no value or effect on tax liability beginning with the eleventh tax year after the tax year in which it was originally granted.

Qualifications
Employers must be a manufacturer, as defined by NAICS codes 113310, 211, 213111, 541360, 311-339, 511-512, and 54171, as the employer’s primary function.

“Modernization” means capitalized investment by an employer in technology, machinery, building and/or equipment that meets one of the following provisions:

1. an increase in the maximum capacity or efficiency of the facility of greater than ten percent or
2. an approved investment from a company with multi-state operations with an established competitive capital project program. “Project” includes the design, development, installation and construction of a technology, machinery, building and equipment that results in a modernization of an employer’s product line, unit, or entire operations that requires at least five million dollars of investment. No project placed in service before July 1, 2011 shall be eligible for the credit.

Application of Credits
- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.
- Entities taxed as corporations will claim credit on their corporation income and franchise tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

Ineligible Participants
- Retail employers as identified by the NAICS code sections 44 and 45.
- Business associations and professional organizations as defined in NAICS code 8139.
- State and local government enterprises.
- Real estate agents, operators, and lessors.
21. Retention and Modernization Credit (continued)

- Automotive rental and leasing.
- Local solid waste disposal, local sewage systems, and local water systems businesses.
- Nonprofit organizations.
- Employers engaged in the gaming industry as identified by the NAICS code sections 713210 and 721120.
- Attorneys.
- An employer who has defaulted on or not repaid any loan or other obligation involving public funds or an employer who has declared bankruptcy under which an obligation of the employer to pay or repay public funds or monies was discharged as part of such bankruptcy.
- An employer who is in default on any filing or payment with or to the state or any of its agencies or political subdivisions and in which an assessment or judgment that is final and non-appealable has been rendered, and remains outstanding, in favor of the state, or any of its agencies, or political subdivisions.

Credit Limitations
The total amount of modernization tax credits granted by the LED in any calendar year can not exceed $7.2 million.

22. Green Job Industries Credit

The purpose of this credit is to promote “green job industries”. Green job industries include energy efficiency and renewable energy industries, energy-efficient building, construction, and retrofit industries, the renewable electric power industry, the energy efficient and advanced drive train vehicle industry, the biofuels industry, the deconstruction and materials use industries, the energy efficiency assessment industry serving the residential, commercial, or industrial sectors, and manufacturers that produce sustainable products using environmentally sustainable processes and materials approved by a nationally recognized high performance environmental building rating system, or that have the ENERGY STAR designation from the United States Environmental Protection Agency.

Application and Approval
Taxpayers must submit an application for initial certification to LED that includes the following information:

1. A preliminary budget including estimated Louisiana payroll, estimated base investment, including the manner in which available federal and state incentives will be utilized in the financing or operation of the project.
2. A general description of the project.
3. Estimated dates for start and completion of the construction of the project.
4. The names of the companies and financiers to whom the credits shall be allocated and the estimated amounts of the credits to be allocated to each.

Upon approval by the secretary of LED, the commissioner of administration, and the office of the governor, LED shall initially certify a project as a state-certified green project and send notice of such certification to the applicant and to the secretary of the Department of Revenue.

Qualifications
When determining which projects qualify for certification, the LED, the commissioner of administration, and the office of the governor shall take the following factors into consideration:

- The impact of the state-certified green project on the employment of Louisiana residents.
22. **Green Job Industries Credit** *(continued)*

- The extent to which students in Louisiana colleges, universities, and vocational-technical schools will have an opportunity to work in a facility which manufactures green products.
- The impact of the project on the overall economy of the state including the manner in which available federal and state incentives will be utilized in the financing or operation of the project.

No tax credits can be earned on multiple-use facilities until the facility directly used in the green job industries is complete.

**Tax Credit**

1. The tax credit shall be calculated as a percentage of the total base investment dollars certified per project as follows:
   - Total base investment greater than $100,000 and less than or equal to $300,000—10 percent tax credit.
   - Total base investment greater than $300,000 and less than or equal to $1 million—20 percent tax credit.
   - Total base investment greater than $1 million—25 percent tax credit.

2. **Payroll Credit.**

   - To the extent that base investment is expended on payroll for Louisiana residents employed in connection with the construction of a state-certified green project—an additional tax credit of 10 percent of the payroll. However, if the payroll to any one person exceeds $1 million, this additional credit excludes any salary for that person.
   - If the payroll is for Louisiana residents employed in connection with a state-certified green project, who are graduates of an institution within the Louisiana Community and Technical College System or graduates of an apprenticeship program registered with the Louisiana Workforce Commission, an additional tax credit of one percent of the payroll.

**Application of Credits**

- Individuals must claim credit on their individual income tax return.
- Estates or trusts must claim credit on their fiduciary income tax returns.

22. **Green Job Industries Credit** *(continued)*

- Entities taxed as corporations will claim credit on their corporation income tax return.
- Entities not taxed as corporations will claim the credit on the returns of the partners or members.

**Ineligible Participants**

State certification will not be granted to a project by any person or company, or financed by any person or company, or any company or financier owned, affiliated, or controlled, in whole or in part, by any company or person, which is in default on a loan made by the state or a loan guaranteed by the state, or which has ever declared bankruptcy under which an obligation of the company or person to pay or repay public funds or monies was discharged as a part of such bankruptcy.

**Credit Limitations**

The total amount of green job industries credits granted by the LED in any calendar year can not exceed $5 million.

23. Louisiana Quality Jobs Program

The Quality Jobs Program is an incentive to encourage businesses to locate or expand existing operations in Louisiana and create quality jobs focusing on Louisiana Vision 2020 traditional and seed clusters industries.

Eligibility

- To qualify a business must be in one of the following six industries:
  1. Biotechnology, Biomedical, and Medical Industries serving rural hospitals
  2. Micro-manufacturing
  3. Software, Internet, and Telecommunications
  4. Clean Energy Technology
  5. Food Technology
  6. Advanced Materials;

- Or be any of the following:
  a. A manufacturer with certain NAICS Codes;
  b. An oil and gas field service business and pay at least $30,000 annually for each new direct job created and business located in Louisiana is the national or regional headquarters of a multi-state business including Louisiana and the Gulf of Mexico;
  c. A business that must or will have sales of at least 50 percent of its total annual sales to out-of-state customers or buyers, and/or to in-state customers or buyers if the product or service is resold by the purchaser to an out-of-state customer or buyer for ultimate use, or to the federal government.
  d. The employer is located in a parish which is within the lowest twenty-five percent of parishes based on per capita income.
  e. The employer is the corporate headquarters of a multi-state business.
  f. The employer is a business that spends fifty percent or more of its time performing services for its out-of-state parent company.
  g. The employer is in the business of maintenance, repair, and overhaul operations for commercial transport aircraft.
  h. A COVID-19 impacted retail businesses with a NAICS code beginning with 44, 45, 721 and 722 and has 50 or fewer employees nationwide including affiliates. The advance notification must be filed on or after July 1, 2020, and on or before December 31, 2021. These businesses are not eligible to earn benefits after June 30, 2023.

Job Requirements

Create a minimum of five new direct jobs if the employer has 50 or less employees or must create a minimum of 15 new direct jobs if the employer has more than 50 employers. These jobs must be full time, (full-time employees — working 30 hours or greater per week).

Provide a basic health benefit plan/health insurance coverage, including coverage for basic hospital care, coverage for physician care and coverage for health care which shall be the same as that provided to executive, administrative or professional employees.

Coverage must become effective no later than the first day of the month 90 days after the date of hire.

The employer’s contribution must be in compliance with federally mandated healthcare requirements, or if no federally mandated healthcare requirements exist, the employer’s contribution must have a value of at least one dollar and twenty-five cents per hour. For a non self-insured company, the value of the plan is the actual cost for the individual coverage. For a self-insured company, LED will determine the value. Basic health care benefits do not include dental, vision or life.

Minimum Wage and Health Care Requirements

The minimum wage requirement for new direct jobs is $18.00 per hour in wages.

Minimum Annual Gross Payroll Requirements:

If an employer employs:

- 50 or fewer employees state-wide prior to the start date of the contract, the minimum annual payroll threshold for at least 5 new direct jobs is $225,000.
- More than 50 employees state-wide prior to the start date of the contract, the minimum annual payroll threshold for at least 15 new direct jobs is $675,000.

If the actual verified annual gross payroll for the employer’s third fiscal year does not show a minimum of five new direct jobs and does not equal or exceed a total annual payroll for new direct jobs of either $675,000 or $225,000, whichever is applicable, the employer will be determined to be ineligible.

Payroll Benefit

- The benefit rate shall be 4 percent for new direct jobs which pay at least $18.00 per hour in wages and health care benefits;
23. Louisiana Quality Jobs Program (continued)

- The benefit rate shall be 6 percent for new direct jobs which pay at least $21.66 per hour in wages and health care benefits;
- Health care benefits paid shall be the value of the health care benefits plan elected by an employee, as determined by LED.

Sales Tax Rebate
- State sales/use tax rebate on materials for new infrastructure, machinery, and equipment purchased during the construction period and used exclusively on site.
- A portion of the local sales/use tax may be rebated with an Endorsement Resolution from the local governing authority received before the application is approved.
- Local sales tax dedicated to schools or bond indebtedness is not eligible for rebate.

Project Facility Expense Rebate
- Effective July 10, 2007, taxpayers are given the option between the sales and use tax rebate and a project facility expense rebate equal to 1.5 percent of qualified expenditures.
- Qualified expenditures are defined as amounts classified as capital expenditures for federal income tax purposes plus exclusions from capitalization provided for in Internal Revenue Code Section 263(a)(1)(A) through (L), minus the capitalized cost of land, capitalized leases of land, capitalized interest, capitalized costs of manufacturing machinery and equipment to the extent the capitalized manufacturing machinery and equipment costs are excluded from sales and use tax pursuant to R.S. 47:301(3), and the capitalized cost for the purchase of an existing building.

For contracts entered into on or after June 30, 2007, Acts 387 of the 2007 Regular Legislative Session changed the requirements for an employer to qualify for the rebate.

24. **Corporate Tax Apportionment Program**

The Corporate Tax Apportionment Program extends the single sales factor computation for corporate income and franchise tax purposes utilized by manufacturers and merchandisers to other qualified business sectors. The secretary of LED may invite businesses who meet the eligibility requirements to participate in the program.

“Single sales factor” shall mean the single sales factor apportionment percent for manufacturing, merchandising, and other businesses as provided for in R.S. 47:287.95(F)(2)(b) and 606(A)(3)(b).

**Qualifications**

1. At least 50 percent of the total annual sales of the business from its Louisiana site or sites is to out-of-state customers or buyers, or to in-state customers or buyers who resell the product or service to an out-of-state customer or buyer for ultimate use, or to the federal government, or any combination thereof.

2. The activities of the business in Louisiana must include corporate headquarters, logistics, warehousing, data center, clean technology, destination health care, research and development, renewable energy, digital media and software development, or other business sector targeted by the business attraction and retention efforts of LED.

3. Except when the business will provide at least 25 new headquarters jobs or shared service center jobs, and the business is not primarily engaged in retail sales, real estate, professional services, natural resource extraction or exploration, financial services, or venture capital funds.

**Application and Approval**

A business must apply and be certified as eligible by LED, and the contract must be approved by the Joint Legislative Committee on the Budget. LED is required to send a copy of the approved certification to the Department of Revenue. Eligibility will be certified annually and LED will notify the Department of Revenue if the business’ participation in the program is suspended or terminated. Contracts can be renewed for an additional period of up to 20 years.

**Ineligible Participants**

No business engaged in gaming or gambling shall be eligible for this program.

25. **Corporate Headquarters Relocation Program**

The Corporate Headquarters Relocation Program provides a rebate equal to 25 percent of a participating company's relocation costs when they relocate or expand their headquarters within Louisiana. The secretary of LED may invite businesses who meet the eligibility requirements to participate in the program.

**Program Administration**

The secretary of LED may invite a business to participate in the program, upon determining the business meets all of the following criteria:

1. the business is relocating a headquarters to Louisiana or is expanding headquarters in Louisiana;
2. the secretary determines that participation in the program will be a significant factor in a highly competitive site selection situation to encourage the business to relocate or expand the headquarters in Louisiana;
3. the secretary determines that securing the project will result in a significant positive economic benefit to the state; and
4. relocation or expansion of the headquarters will create at minimum of 25 headquarters jobs.

**Application and Approval**

LED shall determine the terms and conditions of the contract, including but not limited to, scope of the project, performance obligations, determination of qualifying relocation costs, and the maximum amount of qualifying relocation costs eligible for the rebate.

The secretary may request approval of the contract by the Joint Legislative Committee on the Budget upon determining the company meets the eligibility requirements of the program. The Joint Legislative Committee on the Budget may approve the contract for the business' participation in the program.

**Certification of Qualifying Costs**

The qualified business must provide LED with a cost report detailing all relocation costs upon completion of the relocation or expansion. LED will review the cost report and certify a dollar value of relocation expenditures eligible for the rebate. LED may require an audit of the relocation costs at the expense of the qualified business.

**Rebate**

The rebate is equal to 25 percent of a participating company's relocation costs as approved by LED. The rebate is claimed by the business in equal installments over a five year period of time.

The rebate cannot be paid in the same fiscal year in which the contract is approved by the Joint Legislative Committee on the Budget.

**Ineligible Participants**

No business engaged in gaming or gambling shall be eligible for this program.

26. Competitive Projects Payroll Incentive Program

The Competitive Projects Payroll Incentive Program provides an incentive rebate of up to 15 percent of a participating company's new payroll. The secretary of LED may invite businesses who meet the eligibility requirements to participate in the program. Contracts may be for an initial term of up to 5 years, renewable for another 5 years at the discretion of LED.

Qualifications
The secretary may invite a business to participate in the program, upon determining the business meets all of the following criteria:

1. at least 50 percent of the total annual sales of the business from its Louisiana site or sites is to out-of-state customers or buyers, or to in-state customers or buyers who resell the product or service to an out-of-state customer or buyer for ultimate use, or to the federal government, or any combination thereof;
2. the business will primarily engage in one of the following activities at the project site:
   a. manufacturing of the certain listed types of durable goods;
   b. manufacturing of pharmaceutical products;
   c. conversion of natural gas to diesel, jet fuel, or other refined fuels;
   d. data storage or data services, provided that at least 75 percent of sales meet the out-of-state sales requirements of (1) above; or
   e. other activities as recommended by the secretary and approved by the Joint Legislative Committee on the Budget; and
   f. the business offers or will offer a basic health benefits plan to individuals it employs within 90 days of the effective date of qualifying for the incentive rebates pursuant to R.S. 51:3111.

Application and Approval
LED will determine the eligibility of a business based on the determination that program participation will be a significant factor in a highly competitive site selection situation, and that securing the project will provide a significant positive economic benefit to the state. The contract must be approved by the Joint Legislative Committee on the Budget. If approved, LED will then execute the contract with the business and provide a copy thereof to the Department of Revenue. The contract provisions must include the percentage of new payroll eligible for rebate, the maximum amount of new payroll eligible for rebate, the number of new jobs and amount of new payroll required to be created and maintained, and any other performance obligations required.

Certification of Eligible Projects
LED will annually verify the company's continued eligibility for the rebate and send a certification letter to the Department of Revenue stating the amount of rebate to be issued.

Ineligible Participants
Businesses engaged in gambling or gaming, natural resource extraction, retail sales, real estate, professional services, venture capital funds, shipbuilding, wood products, agriculture, or manufacturing of machinery primarily intended to serve the energy industry.

Telecommunication Tax for the Deaf Exemptions
Telecommunication Tax for the Deaf

{ Introduction }

Act 660 of the 1988 Regular Legislative Session levied a tax of five cents per month on each residential and business telephone access line of local exchange companies operating in Louisiana. The purpose of the tax is to provide access to all public telecommunication services to persons who are deaf, deaf and blind, hard of hearing, speech impaired, or who have similar disabilities or impairments. The taxes are collected from the customers monthly and remitted quarterly by each telecommunication service company. The proceeds from this tax are placed in a special fund designated as the Telecommunications for the Deaf Fund. Act 273 of 2017 decreased the tax to four and one-half cents per month and expanded the tax base to include each telephone number for each wireless handset device on each residential and business customer of a wireless telecommunication service company operating in Louisiana, effective October 1, 2017. The Act also increased the credit telecommunication service companies receive for filing returns and remitting payments timely from two percent to three percent.

Tax Base
Use of each residential and business customer telephone access line and the telephone number for each wireless handset device on each residential and business customer.

Tax Rate
5¢ per month per line (effective through September 30, 2017)
4.5¢ per month per line (effective October 1, 2017 through March 25, 2018)
5¢ per month per line (effective March 26, 2018 to present)

Type of Tax Exemption
Telecommunication tax for the deaf exemptions are in the form of a credit and an exemption. Credits are generally defined as an amount that is subtracted from a tax liability. Exemptions are included in the tax base, but are specifically exempted by statute. There is also an exemption based on federal prohibitions.

Significant Changes
There were no significant changes to the telecommunication tax for the deaf laws during the past year.

Tobacco Tax

{ Introduction }

A tobacco tax was first levied in 1926, by Act 197 for the benefit of public schools. Retail dealers were taxed at the rate of 1¢ per 10¢ of the retail selling price of cigarettes, smoking and chewing tobacco, cigars, cheroots, and snuff. The tax was effective October 1, 1926, for a period of four years.

Act 4 of 1932 levied a new tax on sales of cigars, cigarettes and smoking tobacco effective September 1, 1932. The cigarette rate was based on each cigarette sold. Cigars were taxed on weight and price per 1,000 and the tax ranged from 75¢ to $13.50 per 1,000. Smoking tobacco was taxed at 1¢ for each 5¢ of retail selling price. The tax was evidenced by tax stamps supplied by the state and applied by the tobacco dealers who were allowed a discount when purchasing stamps in quantities not less than $100 face value.

The tax rates on cigarettes increased over the years as follows:

- **1932**: Levied at 1/5¢ per cigarette to 4¢ per 20 pack
- **1942**: Increased by 1/20¢ per cigarette to 5¢ per 20 pack
- **1948**: Increased to 2/5¢ per cigarette or 8¢ per 20 pack
- **1970**: Increased to 11/20¢ per cigarette or 11¢ per 20 pack
- **1984**: Increased to 16/20¢ per cigarette or 16¢ per 20 pack
- **1990**: Increased to 1¢ per cigarette or 20¢ per 20 pack
- **2000**: Increased by 4/20¢ per cigarette to 24¢ per 20 pack
- **2002**: Increased by 12/20¢ per cigarette to 36¢ per 20 pack
- **2015**: Increased by 50/20¢ per cigarette to 86¢ per 20 pack
- **2016**: Increased by 22/20¢ per cigarette to $1.08 per 20 pack

The tax increase of 4/20 of 1 cent per cigarette enacted in 2000 expired June 30, 2012. However, an amendment to the Constitution, approved by voters on October 22, 2011, effectively restored the expiring tax and placed a tax of 4/20 of 1 cent per cigarette in the Louisiana Constitution.

The tax rates on cigars and smoking tobacco changed in 1942 and 1948, and were eventually set at the current rates in 1974 by Act 413, effective January 1, 1975. A tax on smokeless tobacco was levied effective July 1, 2000.

The discount from the face value of the tax stamp also changed from the original ten percent in 1932 to six percent in 1942; seven percent in 1944; nine percent in 1948; six percent in 1972; to the current five percent in 2016.

The tobacco tax is currently levied on tobacco and vapor products, and collected from the dealer who first sells, uses, consumes, handles, or distributes the products within the state. Tax stamps indicate the payment of tax on cigarettes and can only be purchased from the Department by wholesale tobacco dealers who are required to post a bond.

- Smokeless tobacco – 20 percent of the manufacturer’s invoice price.
- Vapor Products - 5 cents per milliliter of consumable nicotine liquid solution.

Types of Tax Exemptions
Tobacco tax exemptions are in the form of discounts, exemptions, and refunds. Discounts are a proportionate deduction from the gross amount reported. Exemptions are items included in the tax base, but specifically exempted by statute. Refunds are restitution of taxes paid.

There are three tax exemptions that are also prohibited from taxation by federal laws. Because of these additional prohibitions, repeal of the exemption alone would not yield the fiscal effect indicated. For this reason, these exemptions have been separately grouped at the end of the section.

Significant Changes
There were no significant changes to the tobacco tax laws during the past year.

Revised Statute 47:1517. Tax Exemption Budget

A. No later than the first day of March the secretary of the Department of Revenue shall prepare and submit to the governor and the legislature a tax exemption budget in the manner set forth in this Section.

B. (1) The annual tax exemption budget shall be published on the LaTrac website, or any subsequent database that may replace the LaTrac system, and shall include the following:

   (a) Each tax exemption, its statutory citation, and its purpose.

   (b) The revenue loss to the state caused by each tax exemption for the three preceding years, the estimated revenue loss to the state caused by each tax exemption for the current fiscal year, and the estimated revenue loss to the state caused by each tax exemption for the ensuing fiscal year.

   (c) The estimated cost of administering and implementing each tax exemption for the three preceding fiscal years, the current fiscal year, and the ensuing fiscal year.

   (d) The tax exemption budget shall also include the following:

      (i) The number of businesses which receive each tax exemption, credit, exclusion, refund, preferential tax rate, deferred tax liability, or rebate, hereinafter referred to in this Subsection as the exemption.

      (ii) The parish or location of each business which receives a tax exemption; provided, that if fewer than ten businesses receive a particular tax exemption, the tax exemption budget may group such tax exemption with another tax exemption which also has fewer than ten businesses receiving it.

      (iii) The information shall be displayed in a manner that identifies:

         (aa) The industry group by North American Industry Classification System sector.

         (bb) The number of taxpayers by industry.

         (cc) The total tax burden by industry group by individual tax before the exemption.

         (dd) The total value to each industry group by individual tax of the tax collections after the exemption.

   (e) The items contained in Subparagraph (d) of this Paragraph shall be published to the extent that the information is available to the department, on a schedule to be determined by the secretary of the department, beginning with the incentive expenditures, and fully implemented by the date of publication of the Fiscal Year 2018-2019 tax exemption budget on or before March 1, 2020. The secretary shall ensure that the publication shall not include confidential information.

B. (2) The tax exemptions in the annual tax exemption budget shall also be organized in an additional opening schedule as follows:

   (a) Agricultural/Rural: a tax exemption that pertains to a business or person being located in a rural area; or, engaging in an agricultural trade/business.

   (b) Business Environment: a tax exemption that encourages competitiveness with other states by impacting the tax burden of business entities that engage in specific activities that include holding or maintaining inventory or property in the state, using or deriving benefit from water, electric power, energy or any other utility type resources, or buying, leasing, renting or selling machines or equipment used for the production, modification, creation or facilitation of tangible personal property in the state, or using consumables in the manufacturing process that does not become a part of the final product, including the following:

      (i) Inventory Tax Ad Valorem.

      (ii) Business Utilities Sales Tax.

      (iii) Manufacturing Machinery and Equipment.

      (iv) Direct Inputs and Consumables.

   (c) Corporate Income Tax Formula: a tax exemption that is unique or specific to Louisiana and relates to assisting, guiding or aiding a business entity in determining the amount of its income for Louisiana tax purposes.

   (d) Dealers and Vendors Compensation and Discounts: a tax exemption that encourages either the timely filing of a return, report, form or document or the timely payment of a tax, fee or other amount due.
(e) Educational Breaks for Educational Institutions: a tax exemption that pertains to an entity that engages in a specified activity that provides or facilitates the act of learning, or an entity or institution who provides or facilitates learning.

(f) Educational Breaks for Individuals: a tax exemption that pertains to an individual who engages in a specified activity that is beneficial to, or provides or facilitates the act of learning.

(g) Incentives: a tax exemption that encourages a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place. Categories of incentives include those, that spur the hiring of employees by business, or that are administered by and through a contract with the department of:
   (i) Economic Development.
   (ii) Culture, Recreation & Tourism.
   (iii) Environmental Quality.
   (iv) Revenue, including those for Severance Tax (that is not a part of the normal taxing scheme of other states).

(h) Louisiana Constitutional Mandates: a tax exemption outlined in the state constitution that modifies the tax burden.

(i) Non-Itemized Sales and Use Tax Exclusions and Exemptions: a sales tax exemption that is not individually itemized on a Louisiana sales tax return before March 2016 and is therefore not assigned a value in the Tax Exemption Budget.

(j) Normal Tax Structure: an exemption that is commonly used or implemented in other states; enacted to prevent double taxation; or used to prevent the taxation of direct business inputs. The exemption could be mandated by the federal government, the state to ensure a foreign, tribal, local, municipality or state entity addresses taxes owed to the state, the federal or state government to ensure the protections of commerce across state lines, the state government to determine the taxability of businesses when it incurs losses, or the state government on activities that sever the state’s natural resources in a manner that is not unique to Louisiana and widely accepted policy among oil producing states, including the following:
   (i) Federal Mandatory.
   (ii) Intergovernment.
   (iii) Interstate Commerce.
   (iv) Net Operating Loss.
   (v) Normal Severance.

(k) Personal Income Tax Formula: a tax exemption that assists, guides, or aids an individual in determining Louisiana tax table income after determining Louisiana adjusted gross income.

(l) Retirement, Disability, and Military: a tax exemption that modifies the tax owed by individuals who receive money, including but not limited to wages and interest as a result of this special status or position in life that is recognized by statute.

(m) Specialty Sales Tax Exemptions, including the following:
   (i) Sales tax holidays.
   (ii) Purchase of a specific item.
   (iii) Purchase made by a specific taxpayer.
   (iv) Activities of a specific group or organization.

(n) Specialty Income Tax Exemptions, including the following:
   (i) Performance of a specific activity.
   (ii) Purchase of a specific item.
   (iii) Purchase made by a specific taxpayer.

(3) No statute, provision, exemption, exclusion, refundable or nonrefundable credit, rebate or deduction listed in the categories outlined above shall be listed in more than one category without a specific notation of doing such.

(4) The secretary may add additional categories to the additional opening schedule as deemed appropriate and necessary.

C. The annual tax exemption budget shall also include an assessment of each tax exemption based on the following criteria:

(1) Whether or not each tax exemption has been successful in meeting the purpose for which it was enacted, in particular, whether each tax exemption benefits those originally intended to be benefited, and if not, those who do benefit.
(2) Whether each tax exemption is the most fiscally effective means of achieving its purpose.

(3) Unintended or inadvertent effects, benefits, or harm caused by each tax exemption, including whether each tax exemption conflicts with other state laws or regulations.

(4) Whether each tax exemption simplifies or complicates the state tax statutes.

D. The Department of Revenue is authorized to request from any state or local agency or official any information necessary to complete the budget required by this Section. Any such official shall comply with this request.

E. "Tax exemptions" means those revenue losses attributable to provisions of the state tax statutes or rules promulgated pursuant to such statutes, which allow a special exclusion, exemption, or deduction from gross income or sales or which provide a special credit, a preferential rate of tax, or a deferral of tax liability.

F. The House Committee on Ways and Means and the Senate Committee on Revenue and Fiscal Affairs, hereinafter referred to as "committees", shall conduct hearings on the tax exemption budget every odd-numbered year, to be concluded thirty days before the beginning of the regular session of the Louisiana Legislature. The committees shall analyze and consider tax exemptions which have caused revenue loss to the state of ten million dollars or more in any one of the last three fiscal years. From time to time, the committees may report to the legislature findings or recommendations developed as a result of the hearings.

Glossary

**Actual tax collections** — amount of tax revenue received and available for appropriation.

**Beneficiary** — any person or entity who gains an advantage and/or profits from a tax exemption.

**Corporation income tax** — a tax paid by all corporations or entities taxed as corporations for federal income tax purposes on income earned in Louisiana.

**Credit** — an amount that is subtracted from a tax liability.

**Deduction** — an amount which the taxpayer is allowed to subtract when computing the taxable base.

**Deferred tax liability** — the legal authorization to delay the obligation to pay a tax to a future period.

**Discount** — a proportionate deduction from the gross amount reported.

**Effective date** — the date upon which a statute is considered to take effect, which may be a past, present or future date.

**Estimated fiscal effect** — the future estimated revenue loss to the state caused by each tax exemption.

**Exemption/Exclusion** — the statutory elimination of certain items or transactions from the tax base. An exemption is a mechanism that prevents taxation on an item or class of items that would normally be taxed under the law. An exclusion is the absence of taxation on an item or class of items. However, Louisiana law often conflates the term “exclusion” with “exemption,” such that the former may be used to describe a mechanism that might be better characterized as the latter.

**Excise tax** — a tax imposed on a commodity or commodities.

**Federal adjusted gross income** — the amount of income earned or received during the year after certain exclusions and adjustments according to federal law.

**Franchise tax** — a tax imposed on business corporations for the privilege of conducting business in Louisiana. The tax is levied on either the assessed value of all real and personal property in the state or the amount of issued and outstanding capital stock, surplus, and undivided profits attributable to Louisiana, whichever is larger.

**Individual income tax** — a tax levied on personal income earned by Louisiana residents and on income earned in Louisiana by non-residents.

**Itemized deductions** — Under federal law, certain deductions that are subtracted from adjusted gross income and are applied in lieu of a standard deduction.

**Non-refundable tax credit** — a tax credit that reduces the income tax liability and, if allowed by the statute authorizing the credit, any remaining amount can be carried forward for use in future tax years. If the amount of credit is greater than the taxes owed, the excess will not generate a refund.

**Percentage of tax loss** — the exemption losses by tax divided by the total potential collections.

**Petroleum taxes** — a tax on motor fuels such as gasoline, diesel, and special fuels including compressed natural gas, liquefied natural gas, and liquefied petroleum gas.

**Preferential tax rate** — a provision which provides a tax rate for certain persons, types of income, transactions, or property that results in reduced tax revenue.

**Rebate** — an incentive in the form of money issued to a taxpayer to induce or after having induced specific behavior without having to be claimed on a tax return.

**Refundable tax credit** — a tax credit that reduces the income tax liability, with any excess credit amount being refundable to the taxpayer.

**Sales tax** — a tax imposed on certain consumer purchases of tangible personal property and specified services.

**Service** — the performance of an action or activity for others.

**Severance tax** — a tax levied on natural resources taken from the ground.

**State revenue losses** — state tax revenue not collected due to statutory tax exemptions. This would not include statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements.

**Statutory tax exemption** — an amount that is prohibited from taxation by state statute. This would not include statutory tax exemptions that are also prohibited from taxation by the state constitution, federal laws, or existing reciprocal agreements.
Sunset provision — a clause in a statute which provides for an automatic repeal of the entire law or a section of a law once a specific date is reached.

Taxable income — the amount to which the applicable income tax rate is applied.

Taxable base — is the value of a set of assets, investments, transactions, or income streams (depending on the tax type) that are subject to taxation.

Tax exemptions — tax dollars that are not collected and result in a loss of tax revenues available for appropriation. Tax exemptions result from tax laws which provide an exemption, exclusion, deduction, credit, preferential tax rate, tax rebate or a deferral of tax liability to reduce the amount of the taxpayer’s liability to Louisiana. Tax exemptions provide economic incentives or tax relief to particular classes of persons or entities to achieve a public purpose.

Agriculture/rural — a tax exemption that pertains to a business or person being located in a rural area; or, engaging in an agricultural trade/business.

Alternative reporting method or statutorily prescribed method of taxation for sales tax — tax exemption that assists, guides, or aids a business entity in determining the sales tax to remit or the amount subject to sales tax.

Business environment — a tax exemption that encourages competitiveness with other states by impacting the tax burden of business entities that engage in specific activities that include holding or maintaining inventory or property in the state, using for deriving benefit from water, electric power, energy or any other utility type resources, or buying, leasing, renting or selling machines or equipment used for the production, modification, creation or facilitation of tangible personal property in the state, or using consumables in the manufacturing process that does not become part of the final product.

Corporate income tax formula — a tax exemption that is unique or specific to Louisiana and relates to assisting, guiding or aiding a business entity in determining the amount of its income for Louisiana tax purposes.

Dealers and vendors compensation and discounts — a tax exemption that encourages either the timely filing of a return, report, form or document or the timely payment of a tax, fee or other amount due. The discount for tobacco stamps is the only one not based on timely filing and/or payment; it is to provide a volume discount and to compensate dealers for expenses related to tax collection.

Educational breaks for educational institutions — a tax exemption that pertains to an entity that engages in a specified activity that provides or facilitates the act of learning, or, an entity or institution that provides or facilitates learning.

Educational breaks for taxpayers — a tax exemption that pertains to an individual or business who engages in a specified activity that is beneficial to, or provides or facilitates the act of learning.

Federally imposed exemption — a tax exemption that is based on a prohibition of taxation in the U.S. Constitution or a federal statute

Health care/medical — a tax exemption that was created to assist taxpayers providing health care or medical treatment or that modifies the tax burden on health care or medical treatment.

Incentives — a tax exemption that encourages a particular or specified economic activity by modifying the tax burden of the economic activity or behavior that is taking place.

Louisiana constitutional mandates — a tax exemption outlined in the state constitution that modifies the tax burden.
